# Kemp's 20th Century Manure Spreader.

## A CROP-MAKER and A LABOR-SAVER.

J. M. LeMoyné, Director. Government Agricultural School, Compton Model Farm, Compton, Que., Aug. 19, 1903.  
Mr. J. L. Thornton, Barnston, Que.: Dear Sir,—Some years ago I used two of the Kemp Manure Spreaders, which gave me the greatest satisfaction. I found the manure was well pulverized and evenly spread on the land. The result was an even crop. I have no hesitation in strongly recommending your Spreaders as one of the best labor-saving machines of the day. I consider that they are indispensable to good farming at present.

Drop a postal card for our Booklet, entitled "Multiplying His Acres."

# MELOTTE CREAM SEPARATORS

are specially adapted to facilitate cleaning of all parts with which the milk comes in contact. The facility with which any dairy utensil may be cleaned is a consideration which no dairyman can afford to overlook, for unless dairy machinery is constructed to meet this requirement harmful germs are liable to lurk undisturbed in inaccessible tubes or corners and result in the production of inferior butter, with consequent low-grade price and loss of reputation to maker. In next issue we will show how well the Melotte meets this necessity.

R. ALISTER & CO. LTD. 675 & 687 ST. PAUL STREET MONTREAL.
