The RAYMOND GRINDER

BEST IN THE WORLD.

This machine is specially constructed to grind grain for stock. It can be worked by either steam or horse power. Four to six horses will work it to its fullest capacity. It is capable of grinding thirty bushels per hour. Can be changed instantly to grind coarse or fine. It is the best mill a farmer or miller can have for grinding coarse grain. The grinding is done by two steel and hardened metal grinders, with sharpened edges, and are warranted to grind 1,000 bushels, and with care may grind many thousands. These plates are so constructed that any boy can replace them when worn. They are the only parts of the machine that prevent the mill from lasting for generations. The cost of new plates is only \$2. There is nothing to get out of order about it. Any good farmer may have one on trial. Full directions sent with each mill. Satisfaction guaranteed. Address
