

## Are You Tired of Drugs?

**The Remedy of To-day Given to Sufferers upon Absolute Free Trial Until Cured. Not One Penny in Advance or on Deposit.**

This is the age of Electricity. To-day the accepted light is Electricity. To-day we can talk with a friend in any town in Canada through Electricity. To-day we can reach China with a message within five minutes, through Electricity. To-day we know that the whole planetary system is absolutely controlled by a vast Electric current. To-day we know that life itself cannot exist without Electricity, and hence the thinking man of to-day also knows that health is directly dependent upon Electricity. A sufficiency of it in the body means health—a deficiency, sickness, weakness and disease.

Less than a hundred years ago none of these facts were known. To-day they are all accepted as indispensable necessities except the last, the most important of all—THE FACT OF ELECTRICITY BEING HEALTH. Upon this great living truth some people are still sceptical, but the day is fast approaching when the sick will as naturally look to Electricity for relief as the thirsty look for water. I have carefully watched the trend of Electrical progress in this direction for the past forty years, and I assert that there will be a constant increase in disease and suffering until Electricity is as freely adopted by the sick as medicines and drugs now are. I claim that as there are no mistakes in nature, she has a remedy for every discord, whether it be in the elements or in the human body. She uses Electricity to clear and purify the atmosphere when congested or out of harmony. She would do the same for the sick and disordered human body if allowed.

Most of the diseases that afflict mankind are due to a lack of electricity in the system. In these strenuous days, who is there who has not wasted his vitality or natural electricity by overwork, worry, excess or some disobedience of nature's laws? If you are weak or ailing and have not found a cure through the old-fashioned methods of treatment why not turn to this great natural source of life and strength, and give Electricity a trial? My newest Herculex Appliance, patented March 7th, 1905, is worn about the waist either day or night, and gives a prolonged, mild, soothing, vitalizing current, which so fills your body after a few hours' use, that a feeling of glowing, sparkling vitality, strength and confidence immediately takes possession of you. I invite you to try this Appliance at my expense and risk, for I am confident a cure will result. A call or letter will bring you one on absolute

### Free Trial Until Cured.

You ought to be cured in about 60 days, and when well I expect you to pay me the price of the Appliance—in many cases as low as \$5. If not well or satisfied, simply return the Herculex to me and the transaction is closed. Should you prefer to buy outright for cash, I give a liberal discount.

I give the Herculex on the above terms to all sufferers from Nervousness, Lost Vitality, Rheumatism, Lumbago, Sciatica, and Stomach Trouble, Varicocoele, Kidney and Liver Complaint, etc.

As the originator and founder of the Electric Body-Battery system of treatment, my success is the envy of many and I am flattered by many imitators, but my great knowledge to advise and direct my patients is mine alone and cannot be imitated. My advice is given free to all my patients until the cure is complete. My Herculex is guaranteed for at least one year.

Call or send for one to-day, or if you want to look into the matter further, I have two of the best little books ever written on Electricity and its medical uses, which I send free, sealed, to all who apply.

Toronto, Ontario.**

## Are You Building?

**If so**—the plaster for your house ought to be the best.

**The Empire Cement Plaster  
Empire Wood Fibre Plaster  
and Gilt Edge Plaster Paris**

ARE THE BEST—Manufactured by the

**Manitoba Gypsum Company, Ltd.  
806 Union Bank Building Winnipeg**

## Western Lands

For information regarding homes, call or write to

**Balfour Broadfoot Land Co.  
Box 293, Hamilton St., Regina, Sask.**

Have You Received Any of Our Money  
which we have loaned to you? If not, please  
send us a check for the amount due.  
We Need 5000 000 Muskrat Skins  
We are now looking for men to  
hunt muskrats in the Northwest.  
The Canadian Fur Exchange  
Box 1000, 69 River St., Toronto, Canada

## Homesteads Located

Now is the time to get a homestead. Don't wait until it is too late. It will not be very long before all the **No. 1 Hard** homesteads are taken up. If you don't know of a first-class locality, write or call on me, and I will locate you in as fine a farming country as you could wish for. For further particulars apply to

**T. W. Hargreaves**

Homestead Locator. Real Estate Agent  
Milestone, S. E. Saskatchewan

If you are doing an Agricultural, Ranching or Commercial business, advertise in the Farmer's Advocate.

### LICE ON LIVE STOCK.

Farm stock that become badly infested with lice during the winter months do not thrive as they should, and in the spring may show marked unthriftiness. This is especially true when stock are not well cared for and in young animals.

The sucking lice are more harmful than the biting varieties, as the former have mouth parts adapted to penetrating the skin and sucking the blood of the host. However, the symptoms may be as marked in sheep and other animals, that are badly infested with biting lice. In such cases the wool or coat becomes matted or detached, and the skin irritated and inflamed as a result of the animal's rubbing, biting and scratching the parts.

Good care during the winter will prevent the lice from doing a great deal of harm, and the simpler remedies, such as mercurial and sulphur ointment rubbed back of the horns or ears and along the mane and back, and insect powder dusted into the coat, may help in destroying them. A thorough treatment of the herd with dips or washes cannot be practiced during the winter months, unless the treated animals are prevented from catching cold. A favorable time to use this line of treatment is in the spring. A one or two per cent. water solution of a tar disinfectant should be used. A convenient way to apply the remedy in the larger animals is with a spray pump, and in sheep and hogs by dipping. Whatever method is used, the coat and skin must be thoroughly wet with the solution. Proper care should be taken in mixing the remedy, as there is danger in making it too strong and irritating the skin.

After treating the herd, the stables, sheds, or sleeping quarters should be sprayed with about two per cent. water solution of the disinfectant, or whitewash may be used instead. This is necessary in order to prevent re-infesting the herd from the surroundings. If there is much litter around the yards and it cannot be gotten rid of, it is advisable to move the herd to other yards. Tar disinfectants in one or two per cent. solutions do not destroy the eggs or nits, hence it is necessary to treat the animals again in ten days or two weeks.

Stockmen sometimes ask if the feeding of sulphur to lousy animals will not drive away or destroy the lice. The feeding of small doses of sulphur will do no harm, neither will it help in getting rid of the lice, and it cannot be considered a remedy for this class of disorders when used in this way. Sulphur is effective, however, when used externally, and the addition of four ounces to every gallon of the tar disinfectant solution used, greatly increase the effectiveness of the remedy.

R. A. CRAIG,  
Veterinarian.

A chance to buy a three-year-old Clydesdale stallion is offered by H. H. McLure, Lethbridge. The horse Mayfield Grandson 5081, is said to be a sure foal getter and therefore a money maker. Horses are horses these days of big railway contracts and many homesteaders.

### A REASONABLE REQUEST.

Clergy man—"What name?"  
Mrs. Smith—"Albert Edward Togo Tomkins Smith."  
Clergyman—"A little more water, Mr. Perkins, please."

### HAPPY AFTERTHOUGHT.

Miss Maude Adams tells a story of a negro couple once personally known to her. Pete was very bashful, and, having decided, firstly, that he desired Miss Johnson for his wife, and, secondly, that he dared not ask her in person, had recourse to the telephone to make known his passion. He rang her up at the house of her employment, and inquired: "Is dat you, Miss Johnson?"  
"Yaas," came the reply.  
"Well, Miss Johnson, I've got a mos' important question to ask you."  
"Yaas."  
"Will you marry me, Miss Johnson?" and the answer came:  
"Yaas. Who is it, please?"—Philadelphia Ledger.
