

TOWN AND COUNTRY.

DEAN BOND was consecrated Bishop of Montreal on Saturday last.

A National Bank has been formed in Egypt with English capital, and under English auspices.

A labor variety of notices, also motto frames, fancy charts, at Dr. Michener's book and drug store.

A TELEPHONE concert took place on Friday evening last between London and Woodstock. It was pronounced a success.

Mr. J. P. NEWMAN has removed his boot and shoe store to Martin's block, two doors east of the Grand Central Hotel.

An auction sale of stock, etc., takes place on Monday next, on the farm of Mr. John Henry, a short distance west of this town.

Mr. W. M. BIRCH, dentist, of this town, will visit Palmerston on the 14th and 15th proximo, commencing on the 14th proximo.

STANLEY OFF AGAIN.—It is stated the steamer Albion has been chartered to take Stanley to Zanzibar for another exploring expedition in Africa.

The St. Mary's Journal has discarded the eight-page form, and now appears as a neat folio sheet. It is ably conducted, and we wish it a successful career.

The singing classes recently organized by Prof. Tannev in this town are largely attended. They meet in the Osborne hall on Tuesday, Thursday and Friday evenings.

The premises vacated by Mr. John Welch on the night of the fire are being repaired, and Mr. Welch expects to be ready in a few days hence to resume his business.

JAMES ARMSTRONG, in another column, tells the public how money can be saved during these "hard times" by information of this kind should be particularly acceptable.

PHENIX, the notorious counterfeiter who was implicated in this county last spring, has been sentenced to two years in the Central Prison.

ACTRESS SALE.—Mr. Wm. Gray, of 11, in the 14th con. Elm, has advertised his farm, will dispose of his stock, implements, etc., by auction on Friday, 15th February. The sale will be conducted by H. L. Alexander, auctioneer.

KNOX CHURCH.—The Sacrament of the Lord's Supper will be administered in Knox church on Sabbath next. Preparatory services will be held this (Friday) afternoon, after which an annual congregational meeting of the church will take place.

VALENTINES.—Valentines of all descriptions, from the most costly and sentimental to the superlatively grotesque and cheap, at Dr. Michener's book and drug store. Call early and make your selections.

PERSONAL.—We are pleased to learn that Mr. F. A. Meyer, D. D., H. C. R. for Seabrook and district has been presented with a beautiful watch by the high court of Judges for his good services to this order. Mr. Meyer instituted a court in Bluevale on Thursday evening 25th inst.

WARRICKS REVEALED, 1879.—Perth, John McDermott, Revue of Wallace; Wellington, John Prain, of Harrison; Waterloo, J. B. Snyder, Revue of Wallace; Oxford, Wm. Peers, Revue of East Oxford; Middlesex, James Gilmore, Huron, Thomas Hays, Revue of Wallace; Bruce, Robert Bond, Revue of Wallace; Grey, Mr. C. E. Barnhart, Revue of Owen Sound.

NEW ROOMS.—The Canadian Society of this town took possession of their new rooms in the McLaughlin block on Thursday evening last week. The opening was celebrated with an oyster supper. A Highland piper from the neighborhood of Moscow was present, and his playing was much enjoyed. The evening was not without the infinite delight of all who took part in the gathering.

SUPPLEMENTS.—An unusually large amount of freight has left the P. D. & L. H. station here within the past few days. Mr. Henry Parker, of Woodstock, has been sending large quantities of wheat forward; and the local business is moving out rapidly. Mr. Jas. Ballantyne shipped three carloads of cheese from this station recently, and other incidental freights have been on the increase.

WAS IT THIS, OR WHAT?—A horse and cutter was taken from the stable of Mr. Alex. Mitchell, on the Elm road, road, on Tuesday night last, a man named Mitchell, on the belief that the property had been stolen. Upon telegraphing to Mitchell, however, upon coming back that the missing rig was in the hands of a man named Mitchell, on the 1st of January, at 10 o'clock in the morning in one of the hotel sheds in that town, but minus an owner. A person was immediately dispatched for it. How the rig got there in the night, is not known.

ARCHITECTURAL DESIGN.—We were shown the other day, at the office of Messrs. Proctor & Gall, architects, the design and plans of a very fine three-story brick block, to be erected for Messrs. Hill & Kingston at Mount Forest. The block is to comprise a bank, store, lawyer's office, and a hall, etc. It speaks well for the architectural abilities of Messrs. Proctor & Gall that their services are in demand in other northern towns as well as in Listowel and Wingham.

ORATORIO OF ESTHER.—The Brussels Past says: "The Oratorio of Esther was given on Thursday and Friday evenings of last week by the Hillmanian Society under the leadership of Prof. Holmes. The piece was well rendered throughout, and general satisfaction was given by the different persons who took part in it. To witness the piece missed one of the most gorgeous displays ever given on the platform in Brussels. Nearly 100 persons took part in the piece. The choruses were particularly good."

BRITISH CHEESE FACTORY.—A meeting was held at the British cheese factory on Thursday last week, at which the advisability of forming a joint stock company. A committee was appointed to make further inquiries and report at a meeting to be held Wednesday next. We understand that Mr. Wm. Stevenson has offered to manufacture during the incoming season on conditions that will most probably be accepted by all parties in the neighborhood interested in the cheese business, it is therefore improbable that a joint stock company will be formed.

CHEAP READINGS.—For \$2.25, past in advance, we will send the Listowel Standard and Montreal Family Herald and Weekly Star to any address in Canada for one year, postage free. These terms must command themselves to everybody. The Family Herald is one of the largest and best literary and general newspapers published in the Dominion, and in connection with the STANDARD, a greater amount of excellent reading matter will be furnished than can be obtained for the same price in any other way. Subscriptions must be sent to this office in order to procure both papers at these terms.

LAUREY.—Benjamin Zuper was brought before George Clime, Esq., J. P., on Monday last on the information of constable Woods, charging him with having stolen property in the amount of \$100. At different times last season, Mr. D. D. Campbell had been dispossessed of several articles, such as a cutter rig, a wolf skin robe, a buffalo overcoat, and numerous other articles. Zuper was in his employ at the time, but it was not until quite recently that suspicion became strong enough to warrant his arrest. Upon a search-warrant being issued, the cutter rig was found in Zuper's house. He acknowledged the theft of the rug when brought before the magistrate, but denied knowing anything about the other missing articles. Justice Clime committed him for trial, and on Tuesday morning he was taken to Stratford gaol.

THREE OREGONIAN COUNSELLORS.—The Board of Supervisors of Tompkins County pay to newspapers of that county—the Ithaca Journal and the Ithaca Democrat thirty cents a folio for publishing the proceedings of the Board in their columns.—Syracuse Courier. The same thing is observable nearly everywhere in the United States, but the Council Boards of Canada think they are under no obligations to the papers which publish their proceedings for nothing at all if they can save them down to the lowest living figure for what little jobbing and advertising they require. They think they are doing a patriotic thing for their constituents.—Exchange.

PUBLIC SCHOOL BOARD.—A special meeting of the Board took place on Wednesday evening, at which Messrs. Towler, Bradley, Little, Newman, Terhune and the Rev. Mr. Mather were present. It was decided not to engage a teacher of music during the present year, but to encourage the teaching of music where practical in the schools. On motion, the tender of Henry Schlimm, for supplying 40 cords of wood to the school, at \$1.48 per cord, and of F. Steiner for 40 cords, at \$1.50 per cord, were accepted. The following accounts were ordered to be paid: John Campbell, for cleaning chimneys, \$3.00; Blackie & Co., also the Inspector's salary for 1878, \$50. A motion was passed requiring bills to be furnished for each department of the school.

NOT LEAVING TOWN.—As the intimation in last week's STANDARD, stating that Mr. T. C. Murray had opened a boot and shoe store in Palmerston, led some of his customers to believe that he was leaving Listowel, he desires us to inform them that such is not the case. Mr. Murray has established a business here which he thinks the best interest of his customers. His excellent reputation, both at home and abroad, as a manufacturer of fine work in his line warrants him in starting a branch business in our neighboring town. This, however, does not affect his business here in the least. His old-time customers may rely upon him sticking to the last, and that he will in the future, as in the past, be found ready to supply them with boots and shoes second to none in the Province.

DEAR CECIL.—There was a crowded house at the Osborne hall, on Tuesday night last week, for Cecil's exposure, of that greatest of all great humbugs, "Spiritualism." The entertainment was undoubtedly good. The tricks performed were of a character sufficiently mysterious to impress any one with the belief that supernatural agencies were at work, but when the Professor attempted to induce into the secret of the "manifestations," the idea of agencies other than mundane vanished from the mind like a flash, except in the case of one or two instances, where "spiritualistic mediums" had left an indelible bias. The Professor promised to return to Listowel in the neighborhood of the 15th inst. to give a "bumper" house.

MESSRS. GODDARD & GREEN, carriage builders, are making preparations for an extensive trade this season. Since the new year they have taken orders for nearly one hundred carriages, worth of vehicles. They almost exclusively use the American spoke in the manufacture of their buggies, the durability of which is well known. The noble three-seated pleasure sleigh recently added to Mr. R. E. Hays's livery, was manufactured by this firm, and is a superior specimen of the kind. It is in reality setting in.

TO BE RENTED.—At a meeting of shareholders of the Union Iron and Steel Manufacturing Company, held on Monday last, it was resolved to commence rebuilding the factory immediately. The present building will take place on the 8th February. It was also decided at the meeting to request the Elm Council to offer a reward for the conviction of the party who set fire to the factory. Mr. Bodwell, the cheese maker, occupied a portion of the factory as a dwelling, and set away from home the night of the fire. In consideration of his household furniture having been completely destroyed, and uninsured, the company offered to reward him with \$100 as a slight compensation for his loss. Mr. Bodwell, however, modestly declined to accept the proffered gift, expressing his confidence in the management of the factory. It is intended to make the new factory considerably larger than the former one, and to have it running at once by the opening of the cheese season.

THE NEWBY ROBBERY.—On Friday last Robert Soper was brought before Geo. Clime, Esq., J. P., charged with having stolen a pair of boots from the store of Mr. Kollie's boot and shoe store at Newby Station. Soper's connection with the robbery had been so effective, that he had concealed his guilt to the constables and disclosed to them a portion of the stolen goods, some six or seven pairs of boots. At the magistrate's examination it was disclosed that Edmund Soper, a brother of Robert's, and George Donaldson, were also parties to the robbery. They having traded a pair of the stolen boots to a young man named Carnegie. Since this transaction took place the latter Soper and Donaldson have left the neighborhood, and are taking what evidence was available, the case was adjourned till today (Friday) forenoon. Soper being released in the meantime.

THE BRITISH MORTGAGE LOAN COMPANY.—The annual meeting of this institution in this county has long been felt, and we are pleased to announce the establishment in Stratford of the British Mortgage Loan Company, which, from its location, is to be a popular institution. Farmers will not have to suffer the delays and annoyances incident to doing business with companies at a distance, but will be able to obtain loans here on short notice and on easy terms of repayment. The stock of such companies offers a safe and remunerative investment, as has been proved by the high prices quoted for such securities, while nearly every other description of investment has been greatly lessening the quantity of money available in the market. The deposit branch of the company's business offers to depositors very liberal rates of interest, coupled with the undoubted security of the investments made and the unpaid portion of the stock subscribed. The British Mortgage Loan Company, as the result of its institution in this kind in the county of Perth, ought to receive the hearty support of all.—Advocate.

VARIATIONS.—The weather during the past week has been somewhat "mixed," and to use a modern expression. Sufficient snow fell during the week to block up the roads to cause another snow blockade on the P. D. & L. H. R. train which left the P. D. & L. H. R. station here on Saturday last. The snow blockade was the worst in the neighborhood of Millbank, where it remained fast until Monday morning, the passengers, of whom there were a goodly number, having to wait in the best of the circumstances. Some of them left the train and took refuge at Henderson's, while others made their way as far as Millbank, where they remained over Sunday. Traffic on the G. W. R. was also very much interrupted by the storm. One of the coldest snaps of the season followed the storm, which in turn was succeeded on Monday by a genuine thaw, accompanied with heavy showers of rain. These have had the effect of greatly lessening the quantity of snow, which everybody in this vicinity seems to be satisfied with, as roads which had been next to impassable previous to the thaw, are now in comparatively fair condition. From present indications, a short season of open weather is probable; but it is unsafe to count much on indications these days.
