To Our Subscribers.

On and after Jan. 1st, 1899, the Reporter, in conformity with all other weekly papers published in Canada, will have to pay postage on all papers sent to subscribers living more than 20 miles from the office of publication.

This will add quite a large sum to our running expenses in furnishing the paper, we find it necessary to announce that all subscriptions to the Reporter must hereafter be paid in advance.

We have exercised a large amount of patience in waiting on our subscribers until the total amount due us is considerably over \$1,000.

We have repeatedly dunned delinquents, both through the paper and by agents, but there are hundreds who have paid no attention whatever to our appeals.

This week we have placed a lot of subscription accounts in the hands of a collecting agency with orders to collect, even if they have to place the accounts in court for that purpose, so that any one receiving a notice will understand that we mean business and if they wish to save cash they will require to forward to the agency at once.
