Clinton Visited by Most Disastrous Fire in Its History.

Flames Stanted In Thresher Co.'s Works-Twenty-Five Buildings en Fire at Once-Methodist Church Narrowly Escaped Burning-Hotel and Stables Completely Gutted-Fierce Wind Aided Fire.

Clinton, May 14.—The most disastrous fire in the history of Clinton was started pestenday afternaon about two o'clock, in the works of the Clinton Thresher Co. A terrific wind was blowing, and it is thought the fire originated by a spark from the Thresher Co.'s smokestack falling an the roof of the frame factory. For a time it looked as though the whole town would be destroyed, as fully 25 buildings were on fire at once, and, with the wind blowing so hard, the firemen were at the mercy of the firement of the credit is due in stopping the fire's progress.

Methodist Church Catches.

The flames leaped from the Threshing Co. to their office, then across the street to some small buildings at the rear of Wesley Methodist Church, and for a time this splendid structure was in great danger, but although fire caught in a few places it was eventually put out. Cinders and sparks were carried over to Elliott's Livery stables, but the fire brigade prevented them doing serious damage, although the contents of the livery and residences were removed.

The Rattenbury Hotel was now seen to have caught fire in the third storey, and, the building being entirely a frame one, fell a prey to the flames, as did also the adjoining sample rooms. It seemed for a time that the old postoffice building, adjoining the Rattenbury Hotel, also the large stable at the rear, and Flynn's blacksmith shop, would also burn, but the brigades from Blyth and Stratford arrived and prevented further destruction, although the rear part of the tion, although the rear part of the old postoffice was burned and Mc-Lean's restaurant was partly damaged

Dr. Evans' house and stables were completely destroyed, and it was with difficulty that Davis' Livery, Dr. Gunn's office and residence, and also the residences of C. C. Rance, Jos. Copp, Mrs. Smith, Mrs. Pratt, B. Hill and others were saved although the and others were saved, although the centents of most of these were damag-

The Thresher Co.'s plant loses \$30,000 in the buildings, which were erected at a cost of \$30,000, also the contents, worth \$30,000, are almost a total loss; insured for \$20,000.

The Rattenbury Hotel, owned by J. Rattenbury, was valued at \$8,000, and was a total loss; insured for \$2,000.

CALLED OLD GLORY A DISH-RAG.

Angry Mob Resent Insult to Star Spangled Banner.
Detroit, Mich., May 14.—A Sunbury, Pa., despatch says:—George J. Pegg, a Canadian employed at a local mill, alleged to have called the United States flag nothing more than a dishrag, was compelled by an angry crowd Sunday night to salute the emblem and carry it on a note several miles and carry it on a pole several miles, during which the paraders frequently threatened to throw him in the Sus-

He was led to the centre of a bridge crossing the stream, a man on one side of him carrying a rifle, and another with a noose. He was threatened by the mob with drowning. The enraged crowd surrounded him as he said: "I made the remark in ignorance of American respect for the flag of your country. I am very sorry." He was released amid hisses and groans.

\$50,000 Fire at Finch.
Ottawa, May 14.—A threatening fire broke out at the Village of Finch, the junction of the C. P. R. and New York and Ottawa line, an important dairy centre, yesterday.
At two o'clock a small rubbish pile, burning, set fire to some coal oil casks and then to the general store of A. F. Day in the McNaughton block. This whole building was burned. With it went the branch of the Mcranth of t chants' Bank, who saved the books and bills alone; the armory and full equipment of a new issue of rifles and uniforms of No. 4 Company of the 59th Regiment; the paraphernalia of the Orange Lodge, and a branch of the Independent Order of Oddfellows, and the public library and 800 books.

books.

A blacksmith's shop of A. F. Dingwall also was burned, as well as the old Presbyterian Church and the Methodist Church. Out of the latter the organ had been saved. Then the work of the bucket and pump brigade began to tell and at five o'clock the chief danger was over.

At night a big wind sprang up and sparks were flying over the village again, but the whole neighborhood has turned out. The loss will exceed \$50,000.

Brutal Murder.

New York, May 14.—The identification yesterday of the body of an Italian who was murdered in Columbia street, Brooklyn, Sunday night, as that of Thomas Boepoly, a longshoreman, formerly employed by the Ward Line, led the police to believe that his death was connected with the longshoremen's strike.

Boepoly's body was found in the cellar of an apartment house, with his throat cut and several knife wounds in the breast.

butter that is made in it. The stomach is a churn. In the stomach and digestive and nutritive tracts are performed processes which are almost exactly like the churning of butter. Is it not apparent then that if this stomach-churn is foul it makes foul all which is put into it?

The evil of a foul stomach is not alone the bad taste in the mouth and the foul breath caused by it, but the corruption of the pure current of blood and the dissemination of disease throughout the body. Dr. Pierce's Golden Medical Discovery makes the sour and foul stomach sweet. It does for the stomach what the washing It does for the stomach what the washing and sun bath do for the churn—absolutely removes every tainting or corrupting element. In this way it cures blotches, pimples, eruptions, scrofulous swellings, sores, or open eating ulcers and all humors or diseases arising from bad blood. If you have bitter, nasty, foul taste in your mouth, coated tongue, foul breath, are weak and easily tired, feel depressed and despondent, have frequent headaches, dizzy attacks, gnawing or distress in stomach, constipated or irregular bowels, sour or bitter risings after eating and poor appetite, these symptoms, or any considerable number of them, indicate that you are suffering from billiousness, torpid or lazy liver with the usual accompanying indigestion, or dyspepsia and their attendant derangements.

Bisgraceful Affair Occurred Recently at Port Elgin.

Kincardine, May 14.—The quiet village of Port Elgin on Friday had its good name disgraced by an unprecedented affair.

For some weeks past there has been a growing feeling against a man named Joseph Elymer, an employe of the shovel works. Eylmer came here some time ago and went to beard at the residence of a barber named Venner. People after a while began to gossip, and all the more so when Venner, about a month ago, left town, leaving his wife and family. Elymer has since lived at the house.

On Thursday night last a crowd of men breke into the house in search of Elymer, but he met them with a club and they made a hasty retreat.

On Friday morning one of their number, a supposed friend of Elymer, went down to the Venner residence and got the victim to come up town. They went to the Queen's Hotel, and at the noon hour, a few leading spirits had collected. When Elymer emerged from the hotel he was grabbed and rushed to the barn, where, in a box stall, he was stripped of his clothing and given a thorough coating of

NEW PARLIAMENT OPENED.

Alfonso Refers to the Excellent Re-

Madrid, May 14.—King Alfonso, who was accompanied by Queen-Mother Marie Christina, opened the new Parliament yesterday. The King read a message from the throne, promising reforms in the state administration, including decentralization, and urged the immediate reconstruction of the navy. He referred to the meeting with King Edward at Cartagena, "by which the ties uniting Spain and Great Britain were strengthened," while the excellent relations between Spain and all other nations were maintained. lations Now Existing.

Colonies Should Assist Navy In Some Other Way.

London, May 14.—(C. A. P.)—The Chronicle's naval correspondent says the admiralty is perturbed at the erroneous impression prevailing in Canada and Australia that by merely contributing a trained reserve of seamen they assist in solving the problem of imperial defence. If war broke out tomorrow there are 30,000 British seamen for whom there are no ships. Therefore the colonies should assist in some other way.

The Corcordia, being in great danger of sinking in the deep water where she lay, was taken to shallow water, where the risk of sinking was less, and divers effected repairs.

Dominion Vs. the Province.

Deminion Vs. the Province.
Ottawa, May 14.—In the supreme court yesterday, judgment was given in the appeal of the Province of Ontario v. the Dominion of Canada, dismissing both the main appeal and the cross appeal. No costs were allowed to either party. This is a case involving the rate of interest payable by the Dominion to Ontario on account of certain provincial credits; it also turned on the question, whether the Dominion was a trustee or merely a holder of these funds.

Supplies to-day for local consumption consisted of 1200 cattle, 30 sheep and lambs, 1800 hogs and 600 calves. A feature of the trade was the strong undertone to the market for cattle, an advance of ½c per lb. paid in some instances by butchers for an extra choice steer, but for the average quality of cattle prices were firm but unchanged from a week ago, The feeling, however, its strong, and the general impression is that cattle will sell at higher figures between now and the end of June. Cables from Liverpool on Saturday were firm for cattle. The price showed no important change from a week ago, and on account of the high prices demanded here for choice stock, exporters showed little disposition to operate, and trade in this respect this morning was quiet. There was a large attendance of local buyers, and also a few from Quebec, consequently the demand was good, and, as the supply was not in excess of the requirements, an active trade was done. A few extra choice beeves sold at \$5.55 to \$8 per 100 lbs. Choice stock brought 5½c to 5½c; goad at 5 to 5½c; fair at 4½c to 4½c; lower grades at 3½c to 4½c per lb.

The milk will be bottled as soon after milking as possible, so our customers will get all the cream the cow puts into the milk.

Our bottles are all full imperial measure, and will be thoroughly washed every day and filled by machinery, and when the caps are put on STREET DUST can get in and NO CREAM can get out. Our sanitary tickets will be ased only once. 34 pints for \$1.00, 17 pints for 50 cents or 8 pints for 24c. A pint

The maple City Creamery will de-

fee cream or a small bottle of whiping cream and 6 pint milk tick for a pint of ice cream; all delered as promptly as possible.

Come and see for yourselves where and how the work is done, and you will readily see that in bottles is the only sanitarry, up-to-date way to handle milk and cream.

Visitors always welcome at
