## ORCHARD WAS HUMAN BUTCHER

The Paid Assassin Continues His Revolting Tale

Defense Tries to Discredit The Evidence Against Haywood

Boise, Idaho, June 8.—Counsel for Wm. D. Haywood continued their attack on the testimony of Harry Orchard at both sessions of the trial yesterday. They made their strongest assault on the witness' connection with events beginning with the explosion in the Vindicator mine and ending with the earlier meetings between him and the leaders of the Western Federation of Miners in Denver. To the extent that traffic with "the other side" in the war between labor and capital in Colorado was discredited, they succeeded in discrediting the witness.

Taking up the admission that Orchard made in direct examination that he was treacherous to his comrades in Cripple Creek by disclosing a train-wrecking plot, they developed that Orchard entered the employ of D. C. Scott, who had charge of the railway detectives. Orchard said that, with Scott, he met K. C. Sterling, a detective in the employ of the Mine Owners' Association, and that Scott paid his expenses and accompanied him to Denver on the trip when he first met Moyer and Haywood. He said that he had agreed to report to Scott, but that he lied to him, never intended to report to him, and never did report. The defense also tried to show that, because he stood well with the mine owners, Orchard was never molested by the militia or people Creek during the strike. Orchard admitted that Scott had told him that if the militia interfered with him he was to send for him, and that the militia did not interfere with him nor search his house.

Orchard became jealous. Orchard said he went to Scott first because he had not been paid for his work at the Vindicator mine, and he was jealous because he was given hard work, like the Vindicator mine job, whereas other men were assigned the simple job of train-wrecking by displacing rails. More crimes, great and small, were added to Orchard's record yesterday. The Cripple Creek woman with whom he committed bigamy had three sons; Orchard stole big game ore from a mine; he stole two cases of powder from the Vindicator mine; he stole powder to make one of the bombs thrown into the Vindicator coal pile, and he lied.

The defense endeavored in various ways to throw doubt and improbability around Orchard's whole Vindicator mine story, and the alleged connection of W. F. Davis and William Easterly with the affair, and the circumstances under which Orchard testified that he met Moyer and Haywood, and was paid for the commission of the crime. It also tried to discredit Orchard's story, that he was sent back to Cripple Creek with unlimited credit and orders to commit any act of violence that he cared to. They confronted Orchard with Easterly and Owen Barnes and paved the way for the contradiction by them of the story told by Orchard.

Counsel flared up several times during the day, and in the last passage-at-arms Mr. Haywood said that Mr. Richardson told a falsehood when he intimated that Orchard was a fixed witness.

The trial will go on to-day, and cross-examination of Orchard, who has been on the stand three days, will be concluded.

When Orchard again took the stand yesterday he said he had neglected to give the name of his sixth sister, Minnie Horsley, who married a man named Rogers and who lived in New York State. Orchard also said that he stated Thursday he had no partners in the wood business in Burke, Idaho. He remembered yesterday that there were two men to whom he owed money and to whom he had promised an interest in the business.

Orchard admitted that while he was in Idaho he became quite a gambler, playing poker most of the time. He was asked how he voted the day the unions decided to go down to Wardner and blow the Bunker Hill and Sullivan mills, and said he didn't remember.

E. F. Richardson, for the defense, took the witness through a description of the make-up of the train which took the rioting miners to Wardner. Orchard said it was composed of 13 cars, some being freight and others passenger coaches.

"I am sure," he said, "I lit one of the fuses which fired powder under the train."

Went of Own Accord.

"Did you know Haywood, Moyer or Pettibone at this time?"

"No, sir."

"They were not with you at Wardner when the mill was blown up, were they?"

"No, sir; not that I know of."

Orchard said he left Idaho after the blowing up of the Bunker Hill and Sullivan mills to avoid arrest. He was taken over the years from 1899 to 1903 in detail, explaining where he worked, where he got his money and where he went from time to time. Orchard

## A BIG FIRE AT ELMVALE

Hampton N. B. Also Visited By Disastrous Blaze

Half Business Section Of Thriving Village Wiped Out

Barrie, Ont., June 8.—A disastrous fire visited the village of Elmvalle yesterday morning, causing damage to the extent of about \$45,000 and wiping out about half of the business section of the village.

The blaze started in Vance's tailor shop, but before it was noticed it had such a good start that the bucket brigade was unable to stay its progress.

The fire gradually spread and before it could be got under control the following places of business were destroyed.

M. J. Lawson's harness shop.  
W. G. Vance's tailor shop.  
H. J. Greenwood's jewelry store.  
S. J. Manning's grocery store, with boots and shoes.

S. Draper's grocery.  
W. T. Stewart's general store.  
R. H. Middleton's insurance office.

At T. Coper's store, in which the postoffice is situated, and the Queen's Hotel were badly scorched and had a lot of glass broken. The Bank of Toronto building was badly damaged.

W. T. Stewart is the heaviest loser, \$1,800 on stock and \$300 on building.

The total loss will be about \$45,000 and incendiarianism is suspected.

Hampton, N.B., June 8.—The most disastrous fire that ever occurred here broke out yesterday, and threatened at one time to sweep the entire village. After a hard battle by bucket brigades and hand pumps, the flames were stayed, but not until the Canada Wooden Ware plant was entirely destroyed. Their loss is thirty thousand dollars, with eighteen thousand dollars' insurance in the Western, Queen, Sun, Northern, Equity and British-American Companies.

G. Barnes & Son lost a warehouse and contents, with \$2,000 insurance in the Royal. Large piles of lumber, awaiting shipment by the I.C.R., were destroyed, and the total loss is estimated at \$50,000.

Mills Destroyed by Fire.  
Ottawa, June 8.—The grist and lumber mills of Jule P. Roy, near Paspéauville, were destroyed by fire, after an explosion of a tank of gasoline.

DEATH PASSED HIM BY.

Fell Out of One Train, Run Over By Another.

London, June 8.—A five-year-old boy fell yesterday from a train that was running near Twynford. He was hurt and ran to the tracks, where, which his father, in the meantime, had stopped.

Before the boy reached the train an express passed along the parallel track, upon which the youngster was running, and knocked him down, passing over him. The boy immediately rose and continued running to meet his father.

His head was cut and streaming blood, but he was not seriously hurt.

A Slaughter of Innocents.

New York, June 8.—John Spargo, the author, and Rev. Alexander Irvine told of the cruelties of child labor in New York, Pennsylvania and the Southern States before an audience in the North Presbyterian Church.

Mr. Spargo estimated that there were fully 2,250,000 children under 16 now employed in various capacities in the United States, and urged all present to use their influence with their friends to force the authorities to put a stop to this "slaughter of the innocents."

France Willing to Help.

Paris, June 8.—One of the immediate results of the Franco-Japanese entente, which is on the point of being signed, has been the tender by France of her good offices in the United States in case she can be of service in promoting a complete understanding between the United States and Japan, covering their respective interests in the far east.

Chaplain For Petawawa.

Ottawa, June 8.—The Bishop of Ottawa has appointed Rev. E. H. Capp, curate of St. John's Church here, as brigade chaplain for the Petawawa camp. He will be there until the fall. His regiment is the 97th of Sault Ste. Marie, Ont.

Mr. Capp distinguished himself in South Africa.

Irish Government.

London, June 8.—The foremost Liberal principle of the Government, in the administration of Irish affairs, is that they should be conducted in accordance with Irish ideas," said the Marquis of Ripon, Lord Privy Seal, and Liberal leader in the House of Lords, speaking before the Eighty Club at the Hotel Cecil.

Off For the Pole.

Seattle, Wash., June 8.—Backed by San Francisco capitalists and under general instructions from the Geological Society of London, Capt. William Moog sailed from Port Townsend yesterday on a cruise that carries every detail of a search for the North Pole.

A bean in liberty is better than a confit in prison.

## WAS TASHWAR MURDERED?

Inquest On South Mountain Farmer Opened Yesterday

Conflict Of Evidence In Mysterious Case—Suicide Suspected

Southampton, June 8.—The inquest on the death of the late James Tashway was begun yesterday in the town hall here. A tremendous crowd was in attendance and in their efforts to get in the hall almost mobbed the officials.

W. C. Whittaker, M.D., of North Will, inquest, coroner, had charge of the inquest, and Crown Attorney James Dingwall of Cornwall acted for the crown. Provincial Detective Reburn of Toronto is assisting the case.

Mrs. William Major, a niece, heard Tashway say he was a disgrace to his friends and always would be so. These words appeared to her to mean that he had committed suicide.

Albert Tashway swore positively that the quilts were drawn up over his shoulders, and thought that his brother had met foul play.

Thomas Tashway, another brother, told his story, and was pretty well questioned by Crown Attorney Dingwall. He told about the same story as the others, except that he had seen Tashway drawing a large amount of money in bills. He thought that it was suicide, because deceased had told him that he would like to show the people that he had courage enough to blow out his brains.

Dr. Porter created a sensation by swearing that it was impossible, as far as he knew, for deceased to kill himself in the position found. He had performed the post-mortem, and thought death was instantaneous.

Therefore, it was impossible for Tashway to pull the quilts up over his shoulder after the shot. The bullet found in Tashway's brain was placed in evidence.

Dr. Ferrier was a little more emphatic in his opinion regarding the case as murder.

That said James E. Tashway came to his death by a bullet through his head from a revolver in the hands of some unknown person or persons. Jury was not unanimous. The vote was 14 in favor of a verdict of murder, and one opposed.

MAY BE FOUL PLAY.

Prominent Murray Bay Merchant Found In Water.

Charlotte, P.E.I., June 8.—The body of J. Macdonald, aged 39, a prominent merchant of Murray River, was found Thursday night about 20 yards from the bridge. He was last seen at ten o'clock on Wednesday night, when he left Ross' drug store, saying he was going home.

The doctor who performed the autopsy says Macdonald did not drown, as there was no water in the lungs. The bridge has a low railing, and it is thought that as the night was dark he may have made a misstep and fallen over, but some fear that there has been foul play, although there is no evidence that there had been robbery committed. An inquest is being held.

Too Many Electrocuted.

Buffalo, June 8.—District Attorney Abbott has begun an investigation into the death of Warner Houck, a telephone lineman, who was electrocuted yesterday. Houck was splicing the loose ends of a telephone wire, which came in contact with an electric light line. He was instantly killed.

District Attorney Abbott said that accidental electrocutions are becoming too frequent, and that he is considering the beginning of criminal action against corporations whose overhead wires are dangerous.

Arrests May Reveal Thefts.

New York, June 8.—An investigation which will follow the arrest yesterday of August Dohn and Lillie French, former confidential employees of the furniture house of S. Bauman & Co., is expected to reveal thefts to the aggregate of more than \$35,000. They previously had been discharged by their employers. Dohn, who is married, tried to kill himself when arrested.

San Antonio, Tex., June 8.—Lieut. Mack Richardson, whose resignation was accepted Thursday by President Roosevelt, was found unconscious in his room yesterday at Fort Sam Houston. Examination disclosed that he used morphine and prussic acid.

Disgrace, Then Death.

San Antonio, Tex., June 8.—Lieut. Mack Richardson, whose resignation was accepted Thursday by President Roosevelt, was found unconscious in his room yesterday at Fort Sam Houston. Examination disclosed that he used morphine and prussic acid.

Wabash Engineer Out on Bail.

St. Thomas, Ont., June 8.—Murray Stevens, the Wabash engineer who was Thursday committed for trial on the charge of manslaughter, as being responsible for the fatal accident near here on Aug. 24 last, was yesterday released on \$2,000 bail.

Hurt At Barn-Raising.

Strathroy, June 8.—Westly Eastman of 40th line, Adelaide, while assisting in a barn-raising yesterday afternoon, was seriously injured. He was underneath the barn, when it slid away, pinning him to the ground.

A bean in liberty is better than a confit in prison.

## WHITNEY IS PROGRESSIVE

Is Watching The Agricultural Classes In High Schools

He Will Extend The Idea If The Results Warrant It

Toronto, June 8.—Premier Whitney announced at a conference yesterday of representatives of high schools of six towns, in which agricultural classes are to be established, that if the experiment proves a success, the idea would be extended.

Premier Whitney said he was satisfied the classes would prove a success, and would lead to the establishment of agricultural schools as advocated by him in opposition. He hoped the schools all over the province would take advantage of the experiment now being launched, and he promised the Government grant would be continued and extended. If additional grants were needed the Government would be generous.

DR. JERROLD WADDELL

A wire received this morning from Jerrold Waddell, of the Medical Department of McGill University, Montreal, to his father, Mr. John Waddell, of this city, states that he had been successful in passing his graduation examinations. Jerrold will now be known as Dr. Waddell, and he is expected home some time next week.

Dr. Waddell has many friends in this city who are all proud of him, and who join in the heartiest of congratulations.

THE MOTHERS' CLUB

An excellent meeting of the Mothers' Club of McKenough school was held yesterday afternoon. Dr. Duncan gave a very practical and entertaining talk on the food and clothing of the child. In caring for the child, the object should be to make him capable of resistance rather than protection. A solo was sung by Miss Brackin and a piano duet, given by Misses McVean and Laird. Arrangements were made for the first meeting, which will be held on June 28, and will be of a social character.

WOLVERINE BRASS CO.

WILL BUILD AT ONCE

Ald. W. H. Westman, chairman of the Industrial committee of the City Council, has received a letter from the Wolverine Brass Manufacturing Company, of Grand Rapids, acknowledging his telegram, sent two days ago, telling them that the by-law had carried.

The letter stated that President Cornelius, of the Wolverine Company, is at present in California, but is expected to return early next week, when he will immediately leave for Chatham to select a site for their new factory, and commence building operations at once.

ALD. WESTMAN BUYS G. T. R. AGENT'S RESIDENCE

The G. T. R. Station Agent's residence, situated at the junction of Queen and William Streets, which for years has been a bone of contention between the city and the railway company, is at last to be removed.

The Planet understands that the house has been purchased by Ald. Westman, from the G. T. R. Company, and that it is his intention to remove it to a new site. The removal of this house will add much to the safety of this crossing, which is soon to be a union crossing for the Radial Company and the G. T. R. The residence not only obstructed the view as crossing, but, from the peculiar location, was an eye-sore to the vicinity.

MR. WIGLE WAS TOO CLEVER FOR FISHERMEN

Fish and Game Inspector Wigle was in the city last evening. The Inspector was a busy man last week. Through a clever piece of detective work he got next to the fact that Canadian bass were still being shipped on a shipment of fish near Windsor and commenced an investigation. The skipper claimed that there were no bass in the barrels under suspicion, and he himself offered to open a barrel to prove it. When the head of the barrel was opened it was seen that the fish on top were all soft fish. The Inspector was on to the game, however, and tipped the barrel. It was found that the top and bottom of the barrel were filled with soft fish and the centre was all bass. The shipment was confiscated.

We have something with everything we gain.

We have just received our Annual shipment of Baskets from Germany and Belgium. The
