

"MY SOLDIER GIRL"

All Dressed Up

"My Soldier Girl", with a brand new book, music and production, is coming to the Wolfville Opera House, Tuesday Night, Nov. 9, with gorgeous costumes, elaborate scenery, clean, wholesome comedy, haunting melodies, a splendid cast and a brigade of bewitching girls. William Moore, the leading comedian, is the bright particular fennaker in this new musical show, with a big company of nearly fifty entertainers. "My Soldier Girl" is the work of J. Lorch Baber—that he succeeded in his efforts is attested by the remarkable hits scored by this brilliant musical comedy. Comedy predominates "My Soldier Girl", but the delicious foolishness is interspersed by charming musical numbers introduced by a remarkable chorus of singing and dancing ensembles fetchingly. No more gorgeous costumes have been designed for any of the great successes than are included in this brilliant spectacle. The scenic effects are bewitching from the opening of the first act, showing a grand lawn fête in progress at Colonel Stone's home, Miami, Florida, to the last act presenting a gorgeous Follies setting on the Roof of a New York theatre during a dress rehearsal.

NORTH GRAND PRE NOTES

Mrs. Maurice Dimock is spending a few weeks in Halifax.
Mr. Roy Guptil and Miss Jessie Kelby were married at the home of Mrs. Harry Guptil, on Thursday, Nov. 4.
Miss Mary Sanford returned last week from Highfield, Hants Co., where she has been spending some weeks.
Mr. Brown and Mrs. Salter of Scotts Village spent the week-end with Maurice Dimock.
Miss Georgie Sanford is visiting in Halifax.

Are your show windows friendly? Do they reach out the hand of good fellowship to every passing person, smile at him, radiate cheerfulness and make the man feel that yours is a mighty friendly store? If you do, then you are getting the most that can be gotten out of your show windows.

Youth: "I sent you some suggestions, telling you how to make your paper more interesting. Have you carried out any of my ideas?" Editor: "Did you meet the office boy with the waste-paper basket as you came upstairs?" Youth: "Yes, yes, I did." Editor: "Well, he was carrying out your ideas."

A litter of pups was born in an aeroplane and the Mail and Empire thought they must be Skye Terriers. The Toronto Star went one better when it suggested that they were Airedales, but the Uxbridge Journal spoils it all by saying that they were just plane dogs.

If a small girl can, without tiring herself, earn \$2.00 in a forenoon, picking strawberries, what should a copy of each of 52 issues of a good town weekly newspaper sell for?—Simcoe Reformer.

Possibly the hold-up man takes to the highways in order to raise sufficient coin to enable his wife to take to the buyways.

Rich, Red Blood Necessary to Good Health

When the Blood Becomes Weak and Watery a Tonic is Needed to Build it Anew

Why are we being constantly told that good, health-giving blood must be bright red? What has the color to do with the quality? Just this—the oxygen in the air is the great supporter of all organic life. One function of the blood is to take the oxygen from the air—which it meets in the lungs and deliver it to the tissues of the body. When the blood, filled with life-sustaining oxygen, is sent out by the heart, it is bright red. When it returns, impure and deprived of oxygen it is dark.

You will see, therefore, that there are two prime requisites of health, pure air and bright red blood—the pure air to furnish the oxygen, the rich red blood to carry it where it is needed. Dr. Williams' Pink Pills make your blood rich and red because they increase its power to carry oxygen, actually making it so much more able to carry increased life and strength to every organ in the body.

Pale anaemic people whose nerves are on edge, whose cheeks are pale, and who tire out easily, should try Dr. Williams' Pink Pills, and note the steady improvement that follows their use. A case in point is that of Mrs. J. P. Rolston, South River, Ont., who says:—"About two years ago my system was in a badly run down condition; and I kept growing worse all the time until I could hardly do my housework. I had severe headaches, and pains across my back and under my left shoulder. I did not sleep well and would feel just as tired when I got up in the morning as when I went to bed. Life seemed a burden. I had taken doctor's medicine for a long time, but it did not meet my case, at least it did me no good. Then as a result of reading about Dr. Williams' Pink Pills I decided to try them. When I had taken a couple of boxes I felt much better, and when I had taken five boxes more I felt that I was again a well woman. I have not since felt any return of the trouble and I advise all women who are broken in health to give Dr. Williams' Pink Pills a trial."

These pills are sold by all medicine dealers or will be sent by mail, post paid, at 50 cents a box or six boxes for \$2.50, by The Dr. Williams' Medicine Co., Brockville, Ont.

"Your Teeth"

By Rea Proctor McGee, M. D., D. D. S.
Editor ORAL HYGIENE.

SECOND STAGE OF THE DECAY OF THE TEETH

When that sharp little pain warns you that another tooth is going, it always seems "so sudden", so unreasonably sudden. The enamel is not sensitive but the dentine that forms the body of the tooth and fills all of the space between the enamel and the nerve, is full of thrills.

Where the enamel and the dentine meet, the tooth is more sensitive than at any other place except on the nerve; the teeth are particularly sensitive at the margin of the gum.

As the little bacteria of decay get further into the dentine, they send scouts out ahead along the fibres that extend from the nerve. That is why the dentist seems to do such a tremendous lot of drilling in a cavity. If he didn't go well beyond the farthest particle of decay, his filling would be a failure.

The decay spreads out underneath the enamel as the acid produced by the bacteria eats away the lime that forms the hard part of the tooth. This causes the cavity to be larger usually on the inside than it is at the entrance.

Food and mucus and a remarkable line of debris collect in the cavity. An ash can has nothing on a hollow tooth. This mass decomposes and then the owner of the tooth wonders why his friends take a backward step when he talks to them.

Even at this stage the tooth may be saved without the nerve being destroyed, but it is rapidly getting to the point where long and patient treatment will be required to keep it where the Lord intended it should be.

In the mouth are more than two hundred different kinds of bacteria. Most of them thrive upon decaying food. In addition to the pain and destruction these cavities cause, they mix this poisonous mass with every bite of food and help wreck the delicate machinery of digestion.

A new note has it that Ex-kaiser Bill Woimhellschollerin has presented a hospital in Amerongen as a memento of his stay there. It would have been more in his line if he had handed out a bunch of bombs, some poison gas and a few million anthrax germs.

Minard's Liniment for Diphtheria.

The Nurse told Her to Give

OLIVEINE EMULSION

THE GREAT HEALTH RESTORER

South Brookfield, Queens Co., N.S., Oct. 1919.

"Our little girl was very sick with Stomach Trouble and different foods were recommended, but everything failed until a nurse told me to give her OLIVEINE EMULSION. She is now a big, healthy baby and I would not be without it in the house. For coughs and colds and as a health builder, it is the best to be had. We recommended OLIVEINE EMULSION to quite a few who were suffering from the effects of influenza and they used it with good results."
(Name on request)

OLIVEINE EMULSION is more than an ideal cough remedy, to pave the way for a quick recovery from heavy colds and deep-seated coughs. It is a body builder—gives strength to the weak—tones up and invigorates the whole system. It is pleasant to take and is agreeable to the most sensitive stomach.

Sold everywhere.
