Work of Tourist Association

60,000 to 70,000 Visitors With 9,000 to 10,000 Cars Expected to Come to Province in 1924.

(Telegraph-Journal)

The New Brunswick Tourist and Resources Association has recently launched an extensive advertising campaign. In addition to their regular advertising, in various journals and periodicals of Canada and the United States. This campaign is meant to serve a double purpose, that of increasing the membership of the association and also to advertise the beauty of and the sport to be obtained in our province.

C. C. Aard, of Sackville, president of the New Brunswick Association, has recently returned from P. E. I. where he has made arrangements with the Tourist Association of that province to advertise in conjunction with that of N. B.

These two tourist associations intend to advertise their attractive features in the newspapers of Montreal, Ottawa, Toronto, Boston, Detroit, Brooklyn and Chicago, and in 12 or 15 Canadian and United States magazines.

These advertisements will consist of special articles written by C. B. Allan, secretary-treasurer of the N. B. Tourist Association, and will deal with various phases of the work of our association and its object in advertising.

Special campaigns are being conducted in Moncton, Chatham, New-castle, St. Stephen, Milltown, Campbellton and Edmundston. In all these towns letters, containing "baby

drafts" for the sum of one dollar, payable to the St. John branch of the Bank of Nova Scotia, were mailed to the business men.

By the payment of the dollar these men become members of the N. B. Tourist Association for the year 1924. Payment of these drafts will furnish the association with money to carry on their advertising campaign. Still assist the association in their effort to foster and develop the tourist business, the increase of which will mean greater prosperity for the province, the city or town, and the individual, it is urged.

It will mean that the business men have faith in their town or city, and that they stand ready to do their duty in promoting the worthy and commendable work of the association. Mr. Allan says:

Approximately 1,200 of these drafts have been issued among these towns, and 70 per cent have been honored to date. In St. John Mr. Allan issued 4,000 personal drafts, and it is estimated that upwards of 40,000 tourists visited the province by automobile, train and boat. This year the association has good reason to expect some 50,000 cars and 60,000 to 70,000 tourists. The roads of the province will be in the best condition this year, and the inhabitants of the north of New Brunswick, especially those around the Bay of Chaleur, are awaiting their opportunities and building small though comfortable inns. They are beginning to realize that the tourist business is a remunerative one and they are vying with other localities in the province to attract tourists and hold them there for the season. Mr. Allan says:

At the conference held in Moncton last March, there were present representatives of the N. B. and P. E. I. Tourist Association; of the N. S. Publicity Commission, and the C. N. W. The C. N. W. agreed to expend some \$5,000 on advertising the Maritime Provinces if the other associations would do theirs.

Those in charge of the campaign are endeavoring to have all completed before the annual meeting of the association takes place here in June. From every indication at the present time it looks as if the business of the tourist association will be doubled this coming season. Mr. Allan says:

Mr. Allan has recently received letters from the far western states, requesting information regarding hunting and fishing in New Brunswick, and to this end has caused to be printed very attractive booklets on these subjects. To date about 5,000 of these booklets have been mailed to prospective tourists.

Taken all in all, the tourist association of the Maritime Provinces are looking forward to a very prosperous season, and if the membership of the New Brunswick association becomes as large as hoped for, there is no doubt but that this province will profit greatly thereby. This is the firm belief of the secretary of the association.
