CONTO WHOLESALE MARKETS WEEKLY REVIEW. THURSDAY, December 2.

all, it seems extent to the seems of nearly everything all. It seems probable that with the exception barley there has been but little of the crop livered; certainly stocks in store are small. season of the year. They stood on Monfor this season of the year. They stood on Monday morning as follows:—Flour. 3,600 bbls.; fall wheat, 40,852 bush.; spring wheat, 52,302 bush.; cats, 2,100 bush.; barley, 327,565 bush.; peas, 21,185 bush.; and rye, 7,923 bush. against on the corresponding date last year—flour, 12,050 bbls.; fall wheat, 149,783 bush.; spring wheat, 77,929 bush.; oats, 240 bush.; barley, 181,388, bush.; peas, 14,325 bush.; and rye, 365 bush. English advices show a receding tendency in prices: red. red winter and white, wheat in prices; red, red winter, and white, wheat, are down id., and club 2d., and corn 3d. since our last. Cargoes have been declining steadily this week, and the same tendency seems to have prevailed in the country. Markets were unsettled during last week, rising early in the week, and subsequently declining in sympathy with advices from this side. Millers were doing a and-to-mouth trade, and seemed confident of a tion, which has since been partially realised. Offerings of home-grown wheat were on the increase, but without any improvement in its quality, and inferior samples seem to have become almost nominal in price. The total supply for last week was again large. Sales of ome-grown wheat were 184,045 quarters, and apports were 295,000 to 300,000 quarters of wheat, and 175,000 to 180,000 barrels of flour, making a total supply of equal to 577,481 to 585,294 quarters total supply of equal to 577,481 to 585,294 quarters of wheat, against a weekly consumption of 454,000 quarters. The quantity of flour and wheat in transit on the 25th ult. showed an increase, and was 1,975,000 quarters, against 1,942,000 on the IIth ult., and 2,438,000 on the corresponding date last year. The total quantity of wheat in sight on this continent and in transit for Europe on the 12th ult. was 48,443,000 bushels, against 56,142,000 last year, and 39,331,000 three weeks ago. Mall advices to the 13th inst. state that the net imports of wheat and flour into the United King. Mail advices to the 13th inst. state that the net imports of wheat and flour into the United Kingdom from August 29th to November 6th, 1830, amounted to 3,279,027 qrs., against 3,996,129 qrs. last year; and the total deliveries from farmors in the whole of the United Kingdom from September 1st to November 6th were computed to have amounted to 1,704,560 qrs., against 221,576 qrs. last year, making the total supply in the above time 4,983,587 qrs., against 4,917,705 qrs. in the corresponding period of the harvest-year, being an increase of 65,882 qrs. in the first ten weeks of the harvest-year. Continental advices state that in France there had been no general activity in the wheat trade, but values had somewhat improved, in sympathy with the rise in the state that in France there had been no general activity in the wheat trade, but values had somewhat improved, in sympathy with the rise in the American and English markets. The level of values was still somewhat below those in the United Kingdom for the ruling descriptions of foreign wheat. At Rouen, Nantes, and Bordeaux, red winter was quoted at 48s. to 68s. 6d. per 480 lbs., free on railway waggon, duty paid, whilst the value off the English coast was just about the same. Foreign wheat in the ports met a very slow sale. The Paris flour market was steady, but rather quiet, prices closing with very little change on the week. In Belgium wheat was rather firmer; and at Antwerp both wheat and rye were firm, red winter being quoted at about 47s. 6d. per 489 lbs. The quantity of wheat on passage to Antwerp by sallers had increased to 184,200 qrs., against 96,000 qrs. at this time last year. German markets were quiet but firm. At Berlin wheat for forward delivery improved 5 marks, but closed quieter. Rye remained quiet on the spot, but was rather active for forward delivery, particularly for the spring term. The fact that values for the latter are only is, to 2s, per qy below the spot price, indicated that the opinion was for continued high prices of this article. At Danzig and Konigsburg very little business was being done; at the former port the supply continued small, and was likely to continue so, as values in the interior were high. The stock of wheat on November 1st, was about 39,000 qrs., and that of rye only about 1,200 quarters, At Hamburg the supply of wheat was amall, and high prices were being paid by millers. Russian advices state that the

50,896,806 48,239,778 50,728,904

off, though extra No. 3 brought 60c. f.o.e. There was no improvement yesterday; the feeling indeed seemed rather more dull, as holders were better inclined to sell, but could not find buyers; prices were nominal at quotations. On the street from 80c. to \$1.03 was naid.

PEAS—Offerings have been small, the demand active, and prices firm; a mixed lot, half No. 1 and half No. 2, sold on Thursday at 704c. f.o.c., and cars of No. 2 changed hands on Tuesday at 70c. f.o.c., which price was again paid yesterday. Street prices 67 to 70c.

RYE—Quiet, but with cars worth 88c, and 87 to 83c paid on the street.

HAY—Pressed has been easy at \$11 to \$12.50; cars sold at \$11.50. Receipts on the market have been large and fully sufficient; prices easier at \$3 to \$12.50, with the bulk going from \$10 to \$11.

STRAW—The supply has continued to increase,

\$8 to \$12.50, with the bulk going from \$10 to \$11.

STRAW—The supply has continued to increase, and has been equal to the demand. Prices easier, at from \$7 to \$8.50 for oat and rye straw in sheaves.

POTATOES—Cars have been quiet, but held higher, or at 40c., but buyers have refused to pay over 35c.; no sales. Street receipts of fair amount, but all wanted and taken at 45c. for loads and 50c. for single bags.

APPLES—Car-lots inactive, but would probably bring \$1.30 to \$1.40. Street receipts have dontinued large, but prices seem to be hardening; very few can now be had at \$1; really sound range from \$1.25 to \$1.75, and very choice ogcasionally bring \$2.

POULTEY—Has continued to come in with a rush, but to sell well when low prices will be accepted. Box-lots have declined to 4½ to 5c. per lb. for geese and fowl, and 5 to 6jc. for turkeys and ducks, with a few choice going to 7c. per lb. On the street fowl have been easy at 30 to 40c. ducks steady at 50 to 56c. geese abundant

	per lb. On the street fowl have been easy to 40c., ducks steady at 50 to 65c., geese abun at 45 to 60c., the latter for choice only, and keys scarce at 70 to \$1.25.	dant

FREIGHTS.

CATTLE.

Trade—Has generally been quiet, but at firm prices, since our last.

Beeves—Receipts have continued to consist almost entirely of inferior cattle; but the supply even of these has fallen off and been decidedly unequal to the wants of the market. Nothing has been done for export, but there have been buyers in the market who would have paid \$4.50 to \$4.75 readily could they have got up to their marks. The best cattle offering has been merely second-class, and those not of very fine quality; steers and heifers averaging from 1,000 to 1,100 lbs., and heavy cows were the best offered, and were readily taken at an advance, the range being from \$3.75 to \$4.25. Third-class likewise were scarce, and in default of better were quickly sold at from \$3 to \$3.50. There has been nothing doing in feeding cattle.

SHEEF—Offerings have continued to be small, but an improved enquiry has been heard, and all in have found a sale at rather firmer prices. There have been mone fit for export offered, but good sheep dressing from 125 lbs. upwards have been taken at about \$4 per cental. or from \$5 to \$6 per head. Any below this weight are slow of sale, but inferior range from \$4 to \$4.75.

Lambs—A steady demand has been maintained, not withstanding receipts of mutton on the street, and prices have been find all over. Really first-class dressing from 35 to 42 lbs. range usually from \$3.37 to \$3.76, and calls go off at from \$3 to \$3.25.

CALVES—Unchanged, with as many offered as were wanted, and prices usually easy at \$6.50 to \$7.50 for first-class dressing from 100 to 120 lbs., and \$3.50 to \$5.50 for second-class dressing not under 60 lbs., with inferior not wanted.

HIDES, SKINS, AND WOOL. TRADE—Has been fairly good at steady prices. Hubes—Green remain unchanged in price, and re consequently not much wanted by dealers. Jured have been offering slowly and selling as CALFEKINS — inactive and nominally unchanged.

SHEEPSKINS—A bundant and again advanced in price; the best green now bring \$1.50, but at this season there is a range in green, some of which still go at \$1.35. Dry have been offered freely; one lot of 1,900 skins sold at \$1.19; the range for them is from \$1 to \$1.30.

WOOT—Has been firmer, and in improved demand; sales of fleece are said to have been made at 30c. but it seems unsafe to rely on obtaining his price, as some of the leading dealers still refuse to pay it. Super has been more wanted at the factories; sales have been made at 30 to 31c., and of extra at 35 to 36c.

Tallow—Much as at our last, with offerings of fair amount and prices unchanged at 6 to 6jc. for rendered.

BY TELEGRAPH. ST. CATHARINES. Dec. 1.—Flour. No 1 superior at \$5.50 to \$5.75. Fall wheat, \$1.10; spring wheat, \$1.08 to \$1.12. Barley, 90c. Peas, 60 to 57c. Oats, 33 to 35c. Butter, 23 to 25c. Eggs, 25c. Cheese, 13c. Hay, \$12 to \$14 per ton. Potatoes, per bag, 70c. Corn, 57 to 60c.

Dec. 1.—Wheat—Fall white, \$1.07 to \$1.10; red.; \$1.07 to \$1.10; spring, \$1.10 to \$1.15. Oats it to 32c. Barley—65 to 30c. Rye—75 to 80c. ass—60 to 65c. Corn—56 to 60c. Clover seed—50 to \$5. Hay—\$8 to \$10. Straw—\$2 to \$3. our—\$2.75 to \$2.90. Butter—20 to 22c. Cheese—to 13c. Lard—12c. Eggs—20 to 25c. Tallow—66c. Potatoes—40 to 50c. Apples—40 to 50c.; dried. 80 to 90c.
