## Nova Scotia Interior as Moose Pasture

Nova Scotia is a country of lakes and streams, offering many ideal canoe trips, and the interior is a great moose pasture. Moose hunting, because both the canoe and automobile are used by hunters and guides, thus saving many miles of weary hiking through the wilderness. On the Liverpool chain of lakes reached from South Milford via Annapolis Royal or Digby, and on Lake Kedegamakooze, Lake Rossignol, Lake Munro, Lake and the Liverpool River expert Indian and white guides use the canoes for long distances and even call the moose to the shore with their birch bark horns. When some distant point is to be reached from "Del" Thomas' South Milford camp, canoes, guides, hunters and duffle are loaded upon a big motor truck for the journey.

South Milford is 15 miles from Annapolis Royal and is a favorite outfitting point. So is the Kedegamakooze Rod and Gun Club, on famous Lake Kedegamakooze, in the heart of the wilderness 36 miles from Annapolis Royal. Both of these camps have ample accommodations and plenty of canoes and reliable guides.

The Nova Scotia moose season lasts from Oct. 1 to Nov. 15. Deer are as plentiful as moose, and the open season for this game lasts from Oct. 16 to Nov. 31.

## SLASH BURNING AGAIN PERMITTED

Fall slash burning in New Brunswick with under permit and supervision is again being allowed by the Department of Lands and Mines. While the extent of the period during which slash burning may be conducted will be governed entirely by weather conditions, upon which the degree of forest fire hazard is dependent, it is anticipated that considerable slash refuse will be disposed of.

It is pointed out that no slash burning will be allowed during the spring and summer months of 1924 in view of the danger past experiences have shown of forest conflagration commencing from such sources. Many operators have already taken advantage of the fall supervised burning periods to dispose of large quantities of slash on their limits. After October 15th permits for burning will not be required as the fire hazard is practically negligible after that date.

## Symptoms Of Anaemia Canada's Total Export for August

Some people have a tendency to become thin-blooded, just as others have an inherited tendency to rheumatism, or to nervous disorders. The condition in which the blood becomes so thin that the whole body suffers comes on so gradually and stealthily that anyone with a natural disposition in that direction should watch the symptoms carefully. Bloodlessness, or anaemia, as the medical term is, can be corrected much more easily in the earlier stages than later. It begins with a tired feeling that rest does not overcome, the complexion becomes pale, and breathlessness on slight exertion, such as going up stairs, is noticed.

Dr. Williams' Pink Pills are a home remedy that has been most successful in the treatment of disease caused by thin blood. With pure air and wholesome food these blood-making pills afford the correct treatment when the symptoms are noticed.

You can get these pills from any dealer in medicine or by mail postpaid, at 50c a box, from the Dr. Williams Medicine Co., Brockville, Ont.

## Canada's Total Export for August

The value of Canada's total exports for August exceeded the value of total imports by over two and a half million dollars, as shown in a report compiled by the Dominion Bureau of Statistics. Value of total imports is given as \$78,357,900 and total exports as \$81,330,300. Of the imports \$22,200,000 worth was dutiable goods and \$23,201,000 on the free list. The main product accounted for 10 per cent of the total value of goods exported during the month.

**Famous Old Trees.**  
The New York State College of Forestry takes exception to the statement attributed to H. G. Wells to the effect that the famous Bo tree of Ceylon is the oldest of living trees. Mr. Wells is reported to have said that "in Ceylon there is a tree which is probably the oldest living thing in the world. It was planted from a cutting of the Bo tree, the tree under which Buddha had his remarkable spiritual experience, and it has been tended with extraordinary care through the centuries. Its limbs are supported by pillars. How many more generations of men it may look down upon we cannot foretell, but we know how many it has already seen come and go. It was planted in 245 B. C."

While it is impossible to tell the age of trees until they have been felled and their rings counted, it is quite possible, says the College, that trees as old as any that have been examined still stand in the great Sequoia forests of California, and that many of them are as old as and older than the famous Bo tree of Ceylon. The Sequoia requires no props and no codding by human hands. It reaches a height of 350 feet and a circumference of 78 feet, and has remarkable vitality.

**Neighbors Included.**  
Little Mary, six years old, was industriously applying the unheated curling iron to her doll's hair, when Mrs. McCarty, a neighbor, dropped in.

"You don't know anything, do you, Mrs. McCarty?" asked Mary bluntly, indicating that she could be doing one thing and thinking another at the same time.

"No, I don't, Mary," said Mrs. McCarty, amused and curious as to what was on the child's mind. "Why do you ask?"

"Cause Johnny (her brother) said he knew everything. Nobody knows everything but God and the neighbors, do they, Mrs. McCarty?"

## PHYSICIANS RESTORE DEAD GIRL TO LIFE

London, Sept. 24—A remarkable story of a child dying during an operation and then being brought to life for a short time was told to a Coroner at Westminster last night at the inquest on the death of a nine year old girl.

The girl had undergone several operations and recently underwent another. Her heart stopped beating. She died. Massage and other remedies were applied and her heart began to beat again. The heart kept on beating for an hour and a quarter and the girl began to breathe. Thereupon she was taken back to the ward in the hospital from which she had been brought for the operation but she collapsed there and died.

The hospital doctor said the girl's death was due to heart failure. She had been suffering from a blood disease. The Coroner said a miracle had been performed and had not been for the condition of the girl's blood the chances were that she might have recovered completely.

## WANT GOVERNMENT INSPECTION

At a meeting in London, Ont., on Saturday night, of western Ontario Home Bank depositors at which over 200 persons were present, immediate action was urged on the part of the government for investigation into all Canadian Banks. The meeting was unanimous in demanding a complete probe of the Home Bank affairs and that every chartered bank in Canada be inspected by government auditors.

## WILSON'S FLY PADS

Kill them all, and the germs too. 10c a packet at Druggists, Grocers and General Stores.

## The Value of a Guarantee

lies not so much in its protective penalty as in its satisfying assurance. No firm selling goods with a guarantee attached, expects to be called upon to pay the penalty. For it is naturally the intention to so carefully guard the quality that dissatisfaction will be impossible.

Throughout its many years of service "King Cole" Tea has consistently been sold with a guarantee—a guarantee definite and substantial. It is printed on every "King Cole" package.

It carries to the buyer an evidence of good faith—a confidence in ability to serve—a determination to serve well.

"You'll Like the Flavor."
