Parliament for Vancouver, has been appointed Postmas er f that city. He is number seven y a of mem- Manitobs, British Columbia and bers and former members of Parliament who have taken office, most of them having sat in the House supporting the Government with a premise of office in their pocket. It may be remembered that number 77 and 78 are lingering about Ottawa awaiting their turn.

THEY ARE DROPPED.

A large number of Government supporters of the last Parliament have failed to obtain a nomination from their party. Among these are Mr Kennedy from New Westminster, Mr Hall of Peterboro, Mr Wright of South Renfrew, Mr Stewart of Ottaws, Mr Ross of North Cape Breton, and Mr Wilson of Rassell. These changes have made trouble in nearly every case. In other constituencies as North Renfrew, the man who was counted on to make some show of fight against the ourrent of public opinion has refused the sacrifice. The grafters are on

AN AMUSING BACK-DOWN.

Two amusing episodes have oc curred in the party press. Just before the close of Parliament the woolen manufacturers whose industry is in a bad way, asked for tariff relief. The Toronto Globe, chief organ of the Government party, attacked the manufacturers for their demands, and praised Laurier for rejecting them. But the Government candidate in North Lanark is a woolen manufacturer, and it was necessary to conciliate him. So the day after his nomination, the Globe devoted a leading article to the woolen industry, praising the Lan. ark candidate as a model of noble unselfishness, and promising that since the woolen industry required

ANOTHER OF THE SAME.

The other case is that of a Government organ at O tawa which attacked Mr Foster for speaking time of falling revenues with huge favorably of the Prince Edward Is. borrowings in the world's money land tunnel, declaring that he work would cost fully \$160,000,000 and was the worst kind of wild cat scheme. This made trouble in we may not escape serious temporary Prince Edward Island, and the Free embarrassmen', and we shall be Press was seen, with the result that short handed for great constructive in less than a week it published an other article, stating that the first agement we could have faced with a one was not to be taken sericusly and that the only hope for the Prince Edward Island tunnel was from the Liberal Governmen'.

Why Should Sir Wilfrid Receive a Renewal of the Public Confidence.

A former editor of the Toronto Globe, the chief liberal organ, makes this southing arraignment of grafter aggregation:

The electors in the contest which is at hand will not test with the faults and failures of the Conservative government, which was deleated twelve years ago.

All Stuffed Up That's the condition of many suffer

from catarrh, especially in the morning. Great difficulty is experienced in stearing the head and throat. No wonder catarrh causes headache, mpairs the taste, smell and hearing, pollutes the breath, demanges the stom-ach and affects the appetite.

To cure catarrh, treatment must be constitutional—alterative and tonic. constitutional—alterative and tonic.

"I was ill for four months with catarra in the head and throat. Had a bad cough and raised blood. I had become discouraged when my busband bought a bottle of Hood's Sarsaparilla and persuaded me to try it. I advise all to take it. It has cured and built me up." Mas. Hugh Rubolff, West Liacomb, N. The All Red Route.

At the Imperial conference held in London last spring a resolution was passed to improve the fines of communication between Great Britain, Canada, Australia and New Z-saland. The resolution provided for the bonusing of lines by the sev eral countries interested so as to fur nish the best possible means of mail communication. Sir Wilfrid Laurier moved in the Canadian parliament that the project be endorsed and that Canada should assume her 'fair share" of the expense. In the course of the discussion which followed it appeared from the remarks of the prime minister that he considered that the best possible speed fingers. would be 20 or 21 knots. As a matter of fact, Canada is now getting an 18 knot service and it is likely before the All Red route could come into existence we will have a 20 knot service without any necessity of extensive bonusing. Last month the end I occupied the lower." warehip Indomitable went across at over 25 knots.

It will be recalled that for many years past the present administration has been coquetting with a proposal to secure a 20 knot service on the Atlantic. While they were talking the Canadian Pacific put on 18 knot ships. It is more than likely that the same thing will happen in connection with the All Red Route and get married.', that before the state-aided lines reaches the 20 knot mark private everything else." enterprise will have anticipated the government.

But the serious part of the matter is Oanada to an expenditure of \$1,500,-24 knots on the Atlantic and 23 mosquitoes. knots on the Pacific. Mr R L Borden pointed out at the time that though the member for Brandon used as an argument that the best and quickest passenger and freight service from here to Great Britain goes through the United States and from Australia and New Zealand pertation of freight. He could see Pills." Price a box soc. no advantage to Canada pledging itself to an enterprise so exceptional and at the same time so vague that those who are advocating it did not know what speed the vessels were to attain nor whether they would carry freight, in fact the attitude of New Zealand was that the Atlantic liners should not carry cargoes, only mails and passengers. Mr Borden moved an amendment to the effect that favorable freight rates and a thoroughly efficient system of cold storage were essential to any such transportation project so far as Canada is concerned; and also that the government should not commit the Deminion to such a large expenditure of public money until something more definite in the way of information as to the service to be secured should be forthcoming. This amendment was voted down by the gov-
