

Garbraid.

In HER HUNDRETH YEAR—The oldest resident in this section of Ontario passed away at the residence of Joseph Morris on Nov. 30th. Mrs. Catharine Winters nee McGill, was born on Feb. 1st, 1788, and emigrated from Argyle-shire in 1833, settling in Beverly township. She was married to James Winters shortly after that, and her husband was killed by being thrown from the conveyance in which he was riding on train on day June 4th 1838. Mrs. Winters continued to live in Beverly until 1860, when she removed to Colborne, and took up her residence at the home of her niece, Mrs. Joe Morris, where she remained until her death. Deceased was the eldest sister of the late Mrs. Dunlop. Her father died at the advanced age of 90 years. She was buried at the family plot in Garbraid.

Dungannon.

There was a social held in the Orange hall here last week under the auspices of the Episcopal church Sabbath school. There was a good turn out and those present enjoyed themselves. We presume it is an introduction to others in the near future.

Another call reminding us of the uncertainty of life occurred here recently. A young man named John Fowler, son of the late Thos. Fowler, W. Wawanosh, aged over 28 years, and a victim of consumption. He was interred in Dungannon cemetery on last Sabbath afternoon the remains being followed by a very large concourse of sympathizing friends and acquaintances. Rev. J. Carrie conducted the impressive obsequies in connection. We extend our sympathy to the surviving relatives.

Municipal matters, except payment of taxes for the current year, are very quiet this week.

Collector R. H. Anderson is still on the beat. All concerned are hereby reminded.

Patience Rumor has it that our popular and veteran reeve, Chas. Girvin, Esq., is about to tender his resignation. Time will develop.

Weather here at present is delightful, taking into consideration the time of the year.

The Correct Time.

There are very few men who don't pride themselves on a watch having the correct time; and wonderful and delicate mechanisms are devised to enable them to do so. But the more delicate a chronometer is made, the more subject it becomes to derangement, and unless it is kept always perfectly clean, it soon loses its usefulness. What wonder, then, that the human machine—so much more delicate and intricate than any work of Man—should require to be kept thoroughly cleansed. The liver is the main spring of this complex structure, and on the impurities left in the blood by a disordered liver, depend most of the ills that flesh is heir to. Even consumption (which is lung scrofula), is traceable to the imperfect action of this organ. Kidney diseases, skin diseases, sick headache, heart disease, dropsy, and a long catalogue of grave maladies have their origin in a torpid, or sluggish liver. Dr. Pierce's Golden Medical Discovery, by establishing a healthy, normal action of the liver, acts as a cure and preventive of these diseases.

Notice has been given by the Superintendent that navigation through the Welland Canal will close on Dec. 10, if not closed sooner by ice.
