To A Boy Stamp Collector.

Build up your "Album-Beautiful" it is a kindly cut; An album may be wonderful with rare and rich result. Of foreign bird or foreign stamp without a cataput. Of foreign kings on foreign thrones, from youngsters to adults. Each creature of heraldic arms. Each creature of the sea. Each feature from domestic farms. Act teacher unto these!

The beetle-stamps of Borneo, Australian Kangaroo. The eagle and the lion-stamps will make a little Zoo; The games of Greece, the sets of stamps from Persia and Peru! Columbus and his venture far, America to view; Your album-page, like trellis-work. Supports a varied show. The Jap, the Tank, the Frank, the Turk, The stamp from Mexico. Our good King George—most popular of Royal root and flower. Is of our Hortus Silecus now the regal guardian power. His garden philately is bright as Eden bower. Complete and fine, superbly grand, a philatristal tower! The centre of our rainbow arch. Philately's strong crown—The leader of our "globe-trot" march. In cult of wide renown. It is a giant culture grown, of universal grip. An album, filled from every land, is like a tourist trip. It bears a freight of previous stores, like any chosen ship; A fount of learning, Babel-tongued, "whereat a lad may sip. Look! what vignettes of land and sea. Of temple, map and tower; Transferred far away you'll be. For many a quiet hour.

What range of panoramic views a handsome album shows; All scarlet, orange, fawns and pink, maroon and ruby-rose; From mauve to purple, violet, turquoise to deepest blue; Gold, copper-spricot, and buff, and lemon, primrose too. Blank albums favour new designs (instead of formal sets). Original—on colour-lines; Or collis, and wreaths, and fret.

Not all your boys in wintry gloom have hot-house blossom gay. With range of colour bringing joy, just like a summer day. Philately will guarantee perennial colour play. A bush of everlasting leaves, frost-proof from snow away. And artist, and historian, Accountant, tutor fool. The linguist, and the idle man. Philately will be glad to lead. E. G. CAMPBELL. Thoughts Upon the Times

(By PATRIOT.)

These are strange days in which we live. Nothing seems to count for much except money and the transient pleasures which money can buy. Not over four years of ghastly war with all its attendant horrors and terrors have made more than a passing impression upon us. Our young men—the best and bravest we had—have offered up their lives in thousands to help make the "world safe for democracy," but we regard it little more than a dream.

Four years ago Russia was our greatest and strongest ally. To-day if the pall that is hanging over Russia could be lifted the civilized world would recoil in horror and abhorrence at the scenes disclosed. Trotsky and Lenin have performed their brutal task well and have more than satisfied their Hun employers. A few years ago they were political agitators and their disciples believed that their life was to mark the death of the downtrodden and the oppressed, but like all other human agitators, right down through the ages, they fell down and worshipped the golden image.

There is an old saying which says "you cannot make a silk purse out of a sow's ear." In plain Anglo-Saxon you cannot make a gentleman out of a clown or a churl. You may have honors and knightships conferred upon him but if he is the brightly dignified is not there, he is like the building of old, "bedaubed with untempered mortar." The recent disreputable attack, made by the Editor of the Evening Herald, upon his colleague of the Upper Chamber, without sufficient grounds or justification calls for severe censure from the public. If it were made in the heat of a political campaign it would probably be overlooked. But there was no provocation to justify the attack and the author of it had not even "street gossip" enough as evidence to make such a charge against a shoebuck. There is only one other case parallel with it in recent years, and that was the pushing of Rt. Hon. Sir Robert Bland into the water by the agent of the man who now virtually rules this country.

Let us mark well the position which this individual holds among us, and ask ourselves if his actions do not compromise us. He is the President of our Legislative Chamber, a position which certainly should be filled by a gentleman. He also fills other important and responsible positions and has recently been elevated to the honor of a Knight of the Order of the British Empire. It may be said in our defense that these honors and favours have not been bestowed upon him by popular behest, or for any meritorious services rendered to the Country or Empire; but because he happened to be one of the leaders of a political ring, who have succeeded for the time being, by intrigues, to get control of the Government of this country. But he has dragged the Military Service Board into this unseemly and disreputable matter and caused an investigation to be held without having a kernel of evidence upon which to base his charge. This has taken up the time of the gentlemen sitting on this Board which should be given to affairs of the Regiment. Let us mark, too, that this is the same man who has defended the delinquents in the recent, Custom House scandal, and refused to publish the report of the Auditor-General being of the matter. He has done his best to prevent an investigation into the alleged disappearance of thousands of dollars from the public treasury. Let those who bear rule over us take note of this incident, as men are known by the company they keep.

"To err is human, to forgive is divine." Let us see whether the man who can sink so low as to make a charge of this nature against another, can rise to the occasion and muster up courage enough to apologize. An anonymous writer in Wednesday's Advocate, writing in favor of the Housing Scheme and the means whereby the laborer may be able to get to and from his work, asks for the endorsement of His Grace Archbishop Roche, His Lordship the Bishop of Newfoundland and the Hon. Drs. Jones and Curtis. Mr. everyone knows an attempt has been made by certain parties to drag this respectable question through the mire of politics (the writer referred to included) they who should the above named estimable clerics be expected to participate in this discussion? This is a question for such hard-headed business men as Hon. John Anderson and Mayor Gosling to handle.

The efforts that are being made by the Ladies of the Patriotic Association to give our returning heroes the right royal reception on their arrival should be backed up by the whole community. After all these boys have gone through and suffered for us, the least thing we can do for them is to give them a rousing "Welcome Home."

GOVERNMENT SUSTAINED.

PARIS, Aug. 1. (Havas. Agency.)—Premier Clemenceau's Government to-day was given a vote of confidence in the Chamber of Deputies, the ballot standing 312 to 164. The vote of confidence was asked on the question of an amendment providing for the calling up of the 1920 class of recruits.

AUSTRIAN STATEMENT.

VIENNA, via London, Aug. 1. The following official communication was issued by the war office to-day: On the Albanian front the Italians have been forced to cede their first lines northwest and northeast of Berat and a considerable belt of territory on a front of twenty kilometers. Our troops are pursuing the enemy.

ITALIAN OFFICIAL.

ROME, Aug. 1. At a few points on the front, local fighting activity has been brisker. In the Ledro Valley, a large enemy party was driven back and a few of the men were taken prisoners. On Monte Corone enemy parties were repulsed. On Monte Asolone in a brilliant raid, an enemy advance post was surprised and fourteen prisoners were taken. Three hostile machines were brought down.

AERIAL OPERATIONS.

LONDON, Aug. 1. The official communication on aerial operations says: On July 31st heavy fighting took place in the air, with the result that twenty-six enemy machines were brought down and nine others were driven down out of control. Four of our machines failed to return. Although observation was again difficult, many photographs were taken and fifteen tons of bombs were dropped by us with good effect. During the night over 23 tons of bombs were dropped by us without the loss of a machine. Several railways, including those at Cambrai and Lille, suffered very heavily, many direct hits being obtained and a number of large fires started.

THE GERMAN SUB.

LONDON, Aug. 1. Andrew Bonar Law, government spokesman in the House of Commons, stated in the Lower House to-day that German submarines were being sunk at a far greater rate than heretofore.

PLANES BROUGHT DOWN.

WASHINGTON, Aug. 1. Eleven enemy airplanes were brought down by the Italians on the front in Northern Italy on Tuesday, and raids were made with planes which bombarded enemy railroad plants, according to an Italian war office statement received from Rome to-day.

PORTUGUESE VESSEL SUNK.

WASHINGTON, Aug. 1. The Portuguese barque Porto was sunk by a German submarine 550 miles off the Atlantic coast on July 27th. The Navy Department announced to-day that the crew of 18 men had been landed at an American port by a British steamer. After overhauling the barque the submarine's crew destroyed it with bombs placed in the cargo of cotton. No further details were given, but it was assumed that the crew was permitted to take to the small boats. The Porto was bound from Savannah, Ga., for Oporto. This is the first official word of a submarine operating off the coast received here since a sea wolf appeared suddenly off the Massachusetts seaboard eleven days ago and shelled a tug and some barges it was towing.

DOCTOR URGED AN OPERATION

Instead I took Lydia E. Finkham's Vegetable Compound and Was Cured.

Baltimore, Md.—"Nearly four years I suffered from organic troubles, nervousness and headaches and every month would have to stay in bed most of the time. Treatments would relieve me for a time but my doctor was always urging me to have an operation. My sister asked me to try Lydia E. Finkham's Vegetable Compound before consulting a physician. I took five bottles of it and it has completely cured me and my work is a pleasure. I tell all my friends who have any trouble of this kind what Lydia E. Finkham's Vegetable Compound has done for me."—NELLIE B. BATTENBROOK, 609 Calverton Rd., Baltimore, Md.

It is only natural for any woman to dread the thought of an operation. So many women have been restored to health by this famous remedy, Lydia E. Finkham's Vegetable Compound, after an operation has been advised that it will pay any woman who suffers from such ailments to consider trying it before submitting to such a trying ordeal.

This occurred several days after the United States cruiser San Diego had been destroyed off Fire Island, presumably by a mine planted by the submarine. There was no information to show that the submarine which sunk the Porto was the same one that attacked the tug and barges, but it was assumed that it was. There has been several unofficial reports recently of steamers sending radio messages that they were being attacked off the coast, but if they were destroyed their crews have not yet been landed on American shores so far as the Navy Department has been advised.

BERLIN REPORT.

BERLIN, Aug. 1. There has been fierce fighting northwest of Fere-en-Tardenois, says the German official communication issued this evening, but on the rest of the front there is nothing to report.

BRITAIN'S FINANCES.

LONDON, Aug. 1. Bonar Law, analyzing the expenditure under the various heads, the Chancellor explained that the increase of £3,000,000 in the army expenditure was due to the fact that the strength of the army was greater than at the time the budget estimate was framed. Regarding loans to the Allies, and the Dominions, Mr. Bonar Law said the debt due Great Britain at the end of the last fiscal year was £1,332,000,000 from Allies and £198,000,000 from the Dominions, while the debt due from the Allies now, he added had reached a total of £1,402,000,000, and from the Dominions £2,008,500,000. The Chancellor said the expenditure on the army showed an increase of £3,000,000 over the estimates. Loans to the Allies and Dominions had increased less than the estimates by £27,700,000.

NO INCREASE IN EXPENDITURE.

LONDON, Aug. 1. In asking for a vote of credit of £700,000,000 in the House of Commons, Andrew Bonar Law, the Chancellor of the Exchequer, said that the largeness of the amount was not due to increased expenditure but to the fact that Parliament was about to adjourn. He hoped, he said, that not more than one more vote would be necessary before the end of the fiscal year. The vote asked is the largest in the history of the country. It is intended for the carrying on of the war until the end of October.

The amount that has been loaned to Russia was £568,000,000, the Chancellor states, while to France, £403,000,000 and to Italy £213,000,000, and to Belgium, Greece and smaller nations £139,000,000. Mr. Bonar Law said that in 1916 Great Britain had agreed to give to the Italian exchequer a monthly credit to be used to help the Italian exchange. A similar contribution, the Chancellor added was being made by America and France. The rate of interest charged Mr. Bonar Law said, was five per cent, which was below the rate which the Government was paying.

Submarines Vs. U-Boats.

During a patrol off the east coast a British submarine sighted the double periscopes of an enemy craft some distance away to port, and made full speed for them, hoping to ram before the U-boat could dive sufficiently to evade the attack. Our boat got there in time and her stern cut through the plates of the enemy and remained imbedded. Both craft endeavoured to extricate themselves; and the German, by using his ballast tanks, came almost to the surface, bringing our craft with him. During the next minute and a half the U-boat drew away, apparently in great difficulty. He was apparently making frantic efforts to keep afloat. Once his periscopes and conning-tower came up on the British vessel's quarter in such a position as to show that he was very much down by the bows and with a nasty list to starboard. Then with a shudder the U-boat sank.

For twenty-five minutes, on another day, a British and German submarine played hide-and-seek, each manoeuvring for position to sink the other. Our boat eventually got her position and sent out a torpedo, which narrowly missed. Eight minutes later a second torpedo struck the enemy close to his stern, which, a few seconds afterwards, was seen to come clear out of the water with smoke hanging round it. Then the conning tower appeared, and the U-boat took a sudden perpendicular dive.—The Times.
