SLATE ROOFING PAINT!

AGENTS WANTED IN EVERY TOWN.

A Roof may be covered with a very cheap shingle, and by application of this slate may be made to last from 20 to 25 years. Old roofs can be patched and conted, looking much better and lasting longer than new shingles without the slate, for ONE THIRD THE COST OF RE-SHINGLING. The expense of slating new shingles is only about the cost of simply laying them.

The Paint is Fire-Proof

cainst Sparks or Flying Embers, as may be easily tested by anyone, and appears from the fact that Insurance Companies make nearly the Same Tariff as for Slated toofs. For Tin and Iron it has no equal, as it expands by heat, contracts by cold, not NEVER CRACKS NOR SCALES. For Fences it is particularly adapted, as it will not corrode in the most exposed places. Roofs covered with Tar Sheating Felt can be made water-tight at a small expense. The Slate Paint is

EXTREMELY CHEAP!

Two gallons will cover over 100 square feet of shingle root, or over 400 of tin or iron.

To The is Used in this Courposition, therefore, ii does not effect the water from the roof, if turned off from the cistern before the first few rains. On Decayed Shingles it fills up the holes and pores, hardens them, and gives a new, substantial roof that will last for years. Curled or Warped Shingles it brings to their place and keeps them there. It fills up all holes in tin or felt roofs, and STOPS THE LEAKS. The color of the slate when first applied is dark purple, changing in about a month to a light uniform slate colour, and is, to all intents and purposes, SLATE. The Paint has a yery Heavy Body, but is easily put on, and, although a slow dryer, rain will not affect it in the least one hour after applying.

ROOFS EXAMINED. ESTIMATES GIVEN.

And when required will be Thoroughly Repaird.
