MRS. VANDERBILT'S WEDDING

To Occur Very Soon-Her Husband Will Also Wed Shortly.

New York, Jan. 8.—The Press this morning says:
Mrs. W. K. Vanderbilt told a representative of the Press that her marriage to O. H. P. Belmont would take place on Jan. 28. On the following day she and her husband will sail for Europe on the steamship Teutonic. On Jan. 22 there will be a musicale in the home of Mrs. Vanderbilt at Seventy-third street and Madison avenue. This will serve as a sort of farewell. Mrs. Vanderbilt has asked her personal friends and the friends of Mr. Belmont to be present. Madame Melba, Madame Nordica and others will sing. It was also announced at Mrs. Vanderbilt's house yesterday that after the wedding the house in Madison avenue will be practically deserted for a long time. The family will go to Europe with about three of its servants. The rest have been informed that their services will not be required after the first of next month. Mr. Vanderbilt will remain in New York until after the wedding. It is reported that then he will become the husband of Amy Bend, the daughter of Mr. Geo. After that he will take a long cruise on his steam yacht, the Valiant. He has asked to accompany him on this cruise his close frame, Fred Beach, Winnie Hoyt, Louis Webb, and probably Creighton Webb and Mr. and Mrs. James M. Waterbury. The Valiant dropped down off Stapleton, S. I., yesterday afternoon. Mr. Herit, who was on board, said that Mr.

Vanderbilt's party would board the yacht at some southern port. COLIC AND KIDNEY DIFFICULTY -Mr. J. W. Wilder, J.P., Lafargeville, N. Y., writes: "I am subject to severe attacks of Colic and Kidney difficulty, and find Parmelee's Pills afford me great relief, while all other remedies have failed. They are the best medicine I have ever used." In fact, so great is the power of this medicine to cleanse and purify, that diseases of almost every name and nature are driven from the pody.

THE GRAVITY INCREASING.

London, Jan. 8.-The gravity of the political crisis here is increasing instead of diminishing. The attitude of Emperor William towards Great Britain in the matter of Dr. Jameson's freebooting expedition into the Transvaal upon closer study seems to have been deliberate and long and carefully planned. The Transvaal incident, it would appear, was only the pretext

seized upon by the Emperor in order to enter the field as an executive opponent of Great Britain's policy of aggrandizement in Africa. It has served to incense the British to a degree not witnesed since war with Russia was threatened some years ago. To make matters worse, it is now reported that the Transvaal Republic will demand an indemnity of £500,000 (\$2,500,000) from Great Britain as one of the results of Dr. Jameson's invasion of the little Dutch republic. If this turns entertained that Emperor William, in his recent interviews with Dr. W. J. Leyds, the Secretary of State for the Transvaal, prompted this demand and may also have announced his intention of supporting it. Under these circumstances, and in view of the war preparations by land and sea now being rigorously pushed by Great Britain, it is not astonishing that there was an ominous drop in consols, which, as much as anything, is a clear indication of peace. that the gravity of the political situation is not newspaper exaggeration. Dispatches from Berlin announce that Booker, Ernest Baxter, Ruby Campbel, Bessie Dealey, Pansy Dyson, Elsie Kayser, chief of the German Colonial Office, and that further dispatches have been exchanged between Berlin and Pretoria. Great Britain is evidently determined not to be caught unprepared for war. The report that orders have been sent to Portsmouth, Devonport and Chatham for the im-

mediate commisioning of a FLYING SQUADRON OF WARSHIPS is confirmed this afternoon, and has caused a profound impression in all circles. The flying squadron is ordered to be ready for sea by Jan. 15, Tuesday next. It will consist of the

following ships: Revenge, first-class battleship of 14,-150 tons, four 67-ton guns, ten six-inch quick-firing guns, 36 smaller rapid-firing guns, 18 inches side armor;

speed, 17 1-2 knots. Royal Oak, first-class battleship of 14,150 tons, four 67-ton guns, ten sixinch quick-firing guns, 36 smaller rapid-firing guns, 18 inches of side ar-

mor; speed, 17 1-2 knots. Gibraltar, first-class steel cruiser of 7,700 tons, two 22-ton guns, ten six-inch quick-firing guns, 24 smaller quick-firing guns; speed, 19 5-10 knots.

Thesus, first-class steel cruiser of 7. 350 tons, two 22-ton guns, ten six-inch quick-firing guns, 24 smaller quick-firing guns; speed, 20 knots. Charybdis, second-class steel cruiser of 4,360 tons, seven quick-firing guns, thirteen smaller quick-firing guns;

speed, 19 5-8 knots. Hermoine, second-class steel cruiser of 4,360 tons, two six-inch quick-firing guns, seven quick-firing guns, thirteen smaller quick-firing guns; speed, 19 1-2

knots. In adition, Admiral Sir Frederick George Denham Bedford, in command of the Cape of Good Hope and West Africa station, has been ordered to proceed to Delagoa Bay on board the flagship St. George, a steel cruiser of the same tonnage and equipment as the Gibraltar, and he is now on his way there, accompanied by another cruiser, with all possible speed. The German Emperor, it appears, had

planned to land A FORCE OF GERMANS at Delagoa Bay in order to assist the Boers against the British, and only desisted from so doing when he learned Dr. Jameson's defeat and capture. This, it is claimed, is proof that his nesage to President Kruger, congratulating him upon his victory over the British, and his Majesty's reported announcement that Germany refused Transvaal, were well-weighed moves and the result of a pre-arranged polinstructed to report immediately to are necessary to reinforce his squadron, and they will be sent to him as promptly as possible. Besides these preparations, the greatest activity is displayed at all the dockyards making RIGHT ready for a call for the commissioning of more ships as soon as needed, and the naval reserve lists are being prepared in readiness for an emergency. The military authorities no longer at-tempt to conceal the fact that they are actively pr paring for the

POSSIFILITY OF WAR. All the reg ments of the British army (army rese ve, volunteers, militia, etc.) have been ordered to make immediate returns of their strength for mobilization; but as yet no further steps in this direction have been deemed necessary. Among the volunteers and militia there is a strong feeling in favor of enrollment for active service, and on all sides the greatest enthusiasm is displayed. There seems to be a feeling here that Great Britain has endured about all she can stand in the way of studied opposition upon the part of Germany, even if the latter is backed by France and Russia, which is not considered to be by any means certain. The commanding officers of the different regiments of

volunteers have been overwhelmed with letters from men under their command, expressing the desire to be enrolled for active service.

At the War Office this afternoon it

was stated that the troops returning from India or bound for that part of the British Empire had been obliged to call at Cape Town before the crisis occurred, and all that is necessary is to instruct the commanding officers to land drafts at the Cape. It was further stated that detachments of troops are now on the way to Cape Town to be satisfactory to the Senate.' relieve the troops there, and that the latter will be instructed to remain at Quoted the explanation which had been the Cape for the present, so that double forces will shortly be available at Cape Colony, besides the Indian troops on passage, which can be landed there shortly. Without desiring to

ly be said that THE WAR SPIRIT is hovering over the British Empire, and that people of all classes are eag-erly supporting the attitude of the Government in resenting the attitude of Germany towards Great Britain. The press is unanimous in its approval of the preparations of the naval and military authorities, and the news-papers of all shades of opinion agree as to the manner in which Germany's

attitude must be met.

The Globe, for instance, says this afternoon: "There is absolutely no difference of opinion among Britons in their keen resentment of the wholly unprovoked affront put upon this proud land by Emperor William and his foolhardy councilors. Instead of working England harm with the Americans, the Emperor's insolent interference has revived the feeling of kinship, and is making easier a friendly arrangement of the Venezuelan ques-

made in the other House byMr.Foster in which it was stated that the quarrel the dissidents was not with policy of the Conservatives, but with the capacity of the Premier. "What deduction?" asked Senator Scott. 'What is the insimuation thrown out? That the Premder of this country is not mentally capable of leading the party which he was selected to lead a year ago? I scarcely think that opinion of the people of Canada will confirm the statement made by the ex-Minister of Finance. Certainly, the universal verdict will be that the time selected for the resignation was in all respects a most extraordinary one. and a very unfair and improper one. say it is most extraordinary and is entirely without precedent. English history affords but one instance of having occurred, and that was in the reign of Charles II.; but my recoilection is that in Canada no event of a similar character has occurred, except in reference to the manner in which the late Sir Allen McNab was driven from the Premiership; but in that case the circumstances were different, and there was no striking below the belt. Sir Allen McNab had been in feeble health, and not like the Premier, who has shown extraordinary vigor in the last few months. He was not able to remain in the Chamber for any length of time, and the public press of Upper Canada and Lower Canada demanded that a change should be made. A question came up in the House, not a very important one, in which the Covernment were defeated on what was known as the double majority; that is, they were unable to command a majority of members from Upper Canada and Lower Canada, and it was made the pretext for the change, and Sir Allen McNab reluctantly was obliged to retire in consequence of four of his Ministers resigning. Though charges may from time to time be brought against Ministers, it has never in the past been charged that they could be guilty of a conspiracy against the leader of the a matter of great regret, and when the future historian of Canada comes to refer to it it will be marked with severe censure. I think, therefore, it would be very much better if the leader of the House and the Premier of this country could have given his explanation of the causes that have given out to be the case, no doubt will be nations, as proposed by Justice Harlan in rise to this extraordinary revolt himself. It is not necessary for him to be obliged to comment upon the utterances of gentlemen who have made their statements in the other Chamber. We should have preferred to hear from himself what he believes to be the causes which have led to this extraordinary action.

oldest Orangemen in the western district. -Conrad Miller, a young shoem ker from the village of Clifford, in the county of Wellington, was before the police magistrate today on a charge of obtaining goods under false pretenses. Mr. R. F. Lacey, of this city, was the complainant. He alleges that in July, 1894, Miller wrote for some supplies, representing that he had no outstanding debts. On the strength of the representations Mr. Lacey supplied Miller with leathers and shoemakers' supplies to the extent of \$94 59. Millar subsequently assigned, and asked Lacey to accept 25 cents on the dollar. The accused elects trial by the magistrate, pleads not guilty, and will be tried tomorrow. Miller wept like a child when told that he would have to go to jail for a day. Thomas Murray, drunk, was fined \$5 or twenty days. He has a bad character. The charge of non-payment of carter's license, preferred against W. M. Waldock, was withdrawn. Angus Morri son, drunk and disorderly, was discharged. HIGHWAY ROBBERY.

James Connor, a well known farmer, of Caradoc, was stunned and robbed by an un known desperado on Monday night. He was returning home from the village of Delaware between eight and nine o'clock, and when walking his team up the hill a short distance west of the village, he was suddenly struck from behind with a club on the side of the head and rendered insensible. When he recovered consciousness he was bleeding from the would in his head. His pockets had also been rifled of \$27 50. A tramp is suspected.

FREE LIBRARY BOARD. At last night's meeting of the Free Library Board a deputation from the geological section of the Entomological Society consisting of John Law, Dr. Woolverton and Rev. Mr. Sherwood, was present and requested a room in the Library building in which to display collection and hold meetings. The board dacided to take no action at present. The board will acknowledge the receipt of the collection of specimens o minerals, rocks, etc., presented by the Geological Survey of Canada. Donations were received from Mr. Wm. Coyne of 25 volumes, "City of London" directories, and from C. A. Colt, of three volumes, Pitman's shorthand system; from the Educational DODD'S KIDNEY PILLS Department, catalogues for public libraries. The electric light bill for December was \$35 12, and the board will consider the advisibility of burn-

ing gas. Accounts amounting to \$131 76 were passed. THE WELLAND CANAL MISSION. The friends of the above mission will be pleased to see Mr. Bone, the veteran missionary, again in the city. He is now visiting the churches and Sunday schools and giving brief addresses, reporting the progress and prosperity of the mission and the several branches of the Tract Society's work. Personally he has made 550 visits to vessels and propellers; 227 to houses and shanties; 27 to the city market, and 90 to religious services in different places. He has also made a free distribution of literature as follows: Religious and temperance tracts, 10,230; periodicals, 3,525; booklets, 1,605; Bibles, 8; Testaments, 2; portions, 240. He has sold: Books, 149; scripture mottoes, 85; Bibles, 4. This noble mission is unsectarian and reaches a large class who are deprived by reason of their calling of the religious privileges enjoyed by others. It is sustained by the liberality of the Chris-

tian community.

Barrie Bay, Jan. 8.-Universal interest has been taken throughout this newly settled region in the cure of Mr. Hudson, of Combermere, hunter, trapper and lumberman. Personally well known to every man, woman and child, his case, both before and since the cure, has created much talk. The accident occurred over eight years ago when he fell upon a protruding knot in such a way as to enter the body from beneath, injuring the bladder and affecting the kidneys. Speaking of his sufferings and cure, he says:

"I was confined to my bed for six weeks to commence with, have suffered from pain across the back, weakness and loss of time for over eight years.
"I have taken one box of Dodd's Kidney Pills, and since taking the first four doses have been free from pain.
"One box to me has been worth more than one hundred dollars, as only one was necessary to complete my cure.

'I have not had the least symptom of any return and am able to work as well as ever I could in my life."

World, London, Eng. Affectation is trying to make brass pas for gold. Free and easy expectoration immediately relieves and frees the throat and lungs from

viscid phlegm, and a medicine that promotes this is the best medicine to use for coughs, colds, inflammation of the lungs and all affections of the throat and chest. This is precisely what Bickle's Anti-Consumptive Syrup is a specific for, and wherever used it has given unbounded satisfaction. Children like it because it is pleasant, adults like it because it relieves and cures the disease.

In the collecting of perfumes two processes are employed. In one the grease process, boxes with glass bottoms are prepared, the bottom being covered with purse grease, or suet. and the flowers, gathered fresh every day during the season, are laid on trays in the box, the grease being left to absorb their fragrance. When the world can't understand a man

it calls him a crank. A Prominent Lawyer Says:

"I have eight children, every one in good health, not one or whom but has taken Scott's Emulsion, in which my wife has boundless confidence."
