Had a Most Peculiar Complaint-His Physicians Wanted to Operate on Him for Tumor-The Pains in His Stomach at Times Were Almost Unbearable.

He Found Relief in Nature's Own Remedy-Celery King.

Peculiar diseases are sometimes acted on through the stomach. A healthy stomach will do more towards curing roubles seemingly remote than local treatment. Get at the root of the disease. Ailments which have anything of mystery as to their origin can be removed quickly by taking Celery King. The following letter speaks for

"For ten years I have been troubled with my stomach. I had pains that I could not describe which could only be relieved by the application of hot water bandages, and as those pains captured me at times when it was impossible for me to procure hot water, life to me seemed hardly worth living. The doctor wanted to operate on me for tumor, but I was afraid to undergo anything so severe. I was at that time a messenger for the Canadian Express Company, on a long run, and then continual riding making the pain worse, caused me to give up my position. Sometime later I saw Celery King advertised in the Mail and Empire and seeing a case there something similar to my own, determined to start taking it. The result was marvelous, and it was not long before the pain stopped completely, and I now can say that I am practically a cured man. Yours very truly,
