WINDSOR FARMER

Money Matters.

Man Mangled on G. T. R. at Merritton-Chapter of Casualties.

WIDOW KILLS SON AND HERSELF

Windsor, Cnt., May 17 .- Moses Labute, a farmer, living on the Banwell road, who committed suicide on Wednesday night by drowning himself in a well, was ill with typhoid fever two months ago and had since suffered melancholia. Since his illness money has been his craze. He owned the 12-acre farm on which he lived and made a comfortable livelihood, but he seldom had any money in the house, and this worried him. Labute leaves a wife and seven children. He was 45 years of age, and was born at Tecumseh.

DROPPED DEAD. Ottawa, May 16.-Geo. Bradshaw, a carpenter employed by ex-Ald. Hope-well, dropped dead this morning while engaged sawing a board. Heart failure was the cause of death.

FOOT CUT OFF. Hamilton, May 17.-Harold Marsh, the 10-year-old son of Henry Marsh, tried to cross the street in front of a trolley car Thursday night and fell on the fender. One of his feet was badly crushed by the fender, and it was found necessary to amputate it today at the hospital. It is probable

TOOK PARIS GREEN. St. John, Que., May 17 .- Hubert Mailloux, aged 48 years, died yesterday at Union Hotel from the effects of a dose of paris green, taken during the night. No cause can be assigned for the rash

KILLED HER SON. Burlington, N. J., May 17 .- Mrs. Helen Sharp, widow of Henry B. Sharp, who committed suicide four months ago, shot and instantly killed her 15year-old son on Thursday and with a razor cut her own throat, almost severing the head from the body. The tragedy was discovered yesterday. Miami, Man., May 16 .- D. A. Peters, B.A., an Englishman, aged 34, committed suicide last night. His body was found in a field a short distance from town. It is supposed he took

FATALLY HURT AT A FIRE. Chicago, May 17 .- The lard refinery of Armour & Co. was destroyed by fire yesterday, and during the fire a number of accidents occurred by which Mamie R. Gifford, Harry Jenning Roch were hurt. The loss of the company is estimated by its officers at between \$750,000 and \$900,000. By far the larger number of those who were hurt met their injuries by the falling of a hog-run way upon which they were standing to obtain a better view of

FOUND ON THE G. T. R. TRACK. Merritton, May 17 .- The mangled remains of a man were found on the G. T. R. Railway track, just west of the Merritton tunnel yesterday. From pepers found on the body the man appears to be Ned MacKenna, 622 Pine avenue, Niagara Falls, N. Y., of the firm of Hancock & MacKenna, insur-ance agents, of that place.

FIVE POLICEMEN AND FIVE NEGROES KILLED

In a Bloody Battle at Atlanta, Ga. State Militia Called Out.

Atlanta, Ga., May 17. Three policemen and five negroes were killed this morning in Pittsburg, a suburb of Atlanta, in a battle, as a result of the attempt to capture the negroes, who had waylaid and held up a policeman. The state militia have been ordered out with artillery to attack the houses where the negroes have gathered and entrenched themselves. The entire police reserve in the city is on duty. Later it was reported that five policemen were dead.

The names of the men killed are: City Policeman Tom Grant, City Policeman Ed. Crabtree, County Policeman Bob Osborne, Bailiff Battey.

Fatally injured-Owen Heard. The officers burned the house which the negro who was doing the shooting was barricaded, but the desperado escaped to one adjoining. Call Officer Spradin was shot through

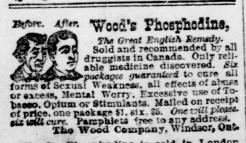

the arm by the negro as he darted out of the burning house. Every policeman in Atlanta, armed with a Winchester, is on the scene. The excitement is intense, and there are many

Suicided Through Worry Over Chicago, May 17.—The Sabbath of the Jews is dead. Let us bury it. God never ordained the Sabbath. It is an institution of man. Only millionaires and peddlers can observe the Jewish Sabbath in these days of activity. Sunday, to all intents and purposes, has

become our day of rest. The inspiration of the Sabbath canbe restored only by participating in the flood of life about us and recognizing as our day of rest the day set apart by the nations in which we live. These declarations were made last evening by Dr. Emil G. Hirsch, in the course of a sermon at Israel Temple, in which he urged the substitution by the Jews of Sunday for the Sabbath

THE KIND OF WORK DONE BY PAINE'S CELERY COMPOUND

Mrs. S W. Sullivan, of Orillia, Ont., Had Rheumatism So Bad She Could Not Raise Her Hands to Her Head, and Could Not Walk Owing to Pains and Stiffness of Joints.

Paine's Celery Compound is today the only spring medicine asked for and bought by thoughtful and discerning people. For the treatment of serious diseases, such as rheumatism, neuralgia, nervous disorders and blood troubles, Paine's Celery Compound has no

equal. The credft of Paine's Celery Compound has advanced to such a high eminence that among the millions who use it we find the names of millionaires, bankers, professional men, wealthy merchants and women of note. All have made it their chosen remedy for the cure of all chronic diseases and for the banishment of the little ailments that often make life miserable. Paine's Celery Compound, in the opinion of the leading druggists and physicians, has displaced nearly all seventeen people were injured, four of the common advertised medicines of whom will probably die. TRADE IS MORE ACTIVE, MOVEMENTS IN THE

But Warmer Weather is the One The Candidates and the Prehibition Thing Needful.

Canadian Industries in Good Form-Over the Border.

Toronto, May 16 .- Bradstreet's trade

review, weekly summary: Canadian trade is a trifle more active, but warm weather is the one thing needed. Industry is active, and railroads and the principal lines generally are active. Failures for the week number 22, against 22 last week, and 24 in this week a year ago. Clearings for the week aggregate \$46,691,614, a decrease of 11 per cent from last week, but a gain of 11 per cent over

last year.
At Montreal this week there has been a fair amount of activity in wholesale trade circles for this season of the year, considering the backward weather. The shipping business is very active, and the railways are busy bringing grain and other produce from interior points for export. Values of staple goods continue to be very firmly held. Mills refuse to make concessions on cotton goods.

Wholesale trade at Toronto has been moderately active this week. A change to warmer weather would make a great difference in the demand for goods in certain important departments of trade. On other wholesale lines trade has been very fair. The conditions of trade are generally healthy. Country remittances are very fair.

At Quebec the cool weather has had

a dampening effect on the demand for summer goods. General trade conditions are healthy, and the prospects generally point to a good summer's trade. Some of the shoe factories are

busy. Shipping is active.

Business at Hamilton is fairly active. Travelers' orders are quite numerous and well distributed, and reports of the condition of business throughout the country appear to be satisfactory. Values of goods generally are firmly held. Payments are fairly good. There is a good active demand for

staple goods at Winnipeg. The outlook for trade is promising, and with a good spell of fine weather trade would show a marked improvement. Trade at the Pacific coast circles has been quiet and collections are dis-

appointing. The prospects for trade, however, are encouraging. The various provincial industries are busy, good wages are being paid, and values are firmly held in most lines. At London this week there has been a fair inquiry in jobbing circles from the retailers, and considerable shipments are being made. The demand at retail centers is restricted by the

fact that farmers are busy with spring work. The deliveries of grain are light for the same reason. Payments are fairly good for this season. Business at Ottawa has been moderately active. The inquiry for goods from the country continues good, considering the weather conditions. The outlook for trade is bright.

Footwear manufacturers at the east report an increased volume of orders from western jobbers, but wholesalers in the principal eastern centers are placing few fall contracts. Bradstreet's report-Conditions of track lack uniformity and explain irregularity in advices from different sections. The pre-eminent feature is, of course, the favorable character of nearly all crop advices (winter wheat excepted), but even here the improvement since May 1 has neutralized much that was unfavorable before. The shadow overhanging eastern trade in the shape of a general anthracite coal strike, has deepened with the formal suspension of work and the Cool strike announcement. hitherto has retarded retail demand, population has been busily engaged. Hence, present demand has suffered. Cash wheat, flour and corn are all higher on the week; hog products have advanced; hides are at about the highest point in years. The strength of hides furnishes support to leather, which is rather quiet in the east but reports more activity at western points.

Business failures for the week number 190, as against 179 last week; 192 in this week last year; 155 in 1900; 168 in 1899, and 211 in 1898.

The Death Record.

Toronto, May 17 .- The death occurred yesterday of Stephen Maule Jarvis in his 80th year. Mr. Jarvis had suf-fered from paralysis for a year. He was the third son of the late Col. F. S. Jarvis, usher of the black rod to the legislative assembly of Upper Can-ada. He came to Canada in 1834, and was one of the first boys in Upper Canada College. He was for three years an alderman. Dangers in Kidney Diseases. Any person who gives the matter even casual thought will realize the dangers that follow in the wake of kidney diseases, yet it is a fact that but very few people who are afflicted give the subject the careful consideration its dangers demand.

It is a matter of current knowledge that Bright's Disease and Diabetes are considered incurable. This is because even physicians have neglected the care and treatment of these diseases, except in a general way.

Dr. Albert Wesley Kahle, of 190 Delaware avenue, Buffalo, N. Y., has made a specialty of the kidneys and the diseases that beset them. He has mastered the intricacies of these organs and originated a system of treatment that makes cures not only possible, but eminently probable.

First checking the onrush of disease, he applies a system of rebuilding the strength to such a point that the disease may be beaten entirely out. Bright's Disease, Diabetes, and other kindred complaints, respond quickly to Dr. Kahle's treatment, so that the victim finds quick relief while a permanent cure is being effected.

Your Nerves Are Weak.

You sleep badly, appetie variable. You eat, but gain no strength. Morning tiredness makes you wish it were night. When night comes, refreshing sleep is hard to obtain. You're run down, your blood is thin and watery, your nerves have grown weak, the thought of effort wearies you. You need Ferrozone; it makes blood—red. strong blood. An appetite? You'll eat everything, and digest it, too. Strength? That's what plenty of food gives. Ferrozone gives hope, vigor, vim, endurance. Use Ferrozone and get strong. Sold by W. T. Strong & Co. Tell Me Somebody

Who Wants To Get Well.

Let Me Tell Him My Way. I Will Pay the Cost, If It Fails.

I want not a penny from you. All I ask is the name of a sick one-simply a postal, stating which book I shall send. I wish to explain a treatment that I spent a lifetime in learning. Then let the sick one decide if he wants it. If he tries it and fails, I will pay every penny of the

I will do this at the start: I will send the sick one an order on his or her druggist for six bottles of Dr. Shoop's Restorative. I will tell that druggist to let him test it for a month at my risk. If i succeeds, the cost is \$5 50. If it fails, I will pay the druggist myself. I will leave the decision to you.

Don't misjudge my offer, for I do just as I say. I leave the matter to your honor. You could cheat me if you would; but I trust you. I ask in return your confidence. There is no possible way in which I could

be unfair with you. In the past five years I have furnished my treatment to over half a million people in just this way. My records show that 39 in each 49 paid for it, thereby admitting that it did what I claim. That means that 39 in each 40 are cured.

This remarkable record results from the fact that I have learned how to strengthen the inside nerves. I do not doctor the organ that is weak. But I bring back the nerve power which makes that organ act. I give it the strength to do its duty-nerve strength. I know from a vast experience that in most chronic diseases there is no other way to get well. With any other remedy the plan which I offer would bankrupt the

Yet I cannot always succeed. Some of these troubles have causes, like cancer, which no man can cure. But those conditions are rare; and when a failure occurs I alone am the loser. The patient is at least as well as he was, and not a penny the poorer.

If a man promised you wealth without the risk of a penny, how quick you would grasp it!

I promise you health; how much better is that! Won't you merely write me about it?

Simply state which book you want, and address Dr. Shoop, Box 41, Racine, Wis.
