Troubles Besetting Gladstone's Ministry-English Agitation Against Foreign Immigration.

Commercial Treaty Between France and Canada-Sensational Chapter in Panama Scandal.

LONDON, Nov. 26 .- Rt. Hoff. Gladstone will return from Hawarden on Thursday. Though the cabinet does not resume councils until January, the ministers and comprivate bills are being prepared for parliament. The cabinet has decided that parliament shall meet on January 23. John Morley, chief secretary for Ireland, has taken to Dublin a draft of Gladstone's Home Rule bill, which will be submitted to the Irish leaders. It is understood that the measure provides for the retention of the gth of the Irish party in the Im perial parliament and for strengthening the imperial veto. Should the Government's majority disappear on the first division, which appears likely to be the case when the vote is taken on the Uganda amendment, Government will be saved from co lapse by the Unionists, who support the Government's policy so far as Uganda is concerned. FOREIGN IMMIGRATION. Considerable alarm has been created among English working people by the report that the United States is about to pass law stopping immigration altogether. Its feared that as wages are higher in Engand than on the continent the tide will urn altogether in this direction. Alread the influx of foreigners, and especially of Russians and Poles, willing to work for small wages has had a perceptible effect upon the labor market, and many English-men feel that they are out of jobs while the Russians and Poles have found jobs. The only class that strictly favors free immigration is the manufacturtheir opposition to the reduced wages. As some of the newspapers are owned by or published in the interest of the manufacturers, such newspapers are very chary in dealing with the subject. The workingmen, however, are alive to this issue, and will pressit upon their Parliamentary representatives. Reading between the lines it endorsed the principles he had always urged, namely, an imperial council with matic, not an elective body, and consultive, not legislative; and further, the report in no way approves of the idea that the uld be required to contribute towards imperial funds for purposes of de-fence.
