ARE SELECTEDFive New Members of Diaz's  
Cabinet are Named Unofficially—  
Senor Limantour Re-  
mains in Office

MEXICO CITY, March 25.—Although no official announcement has been made, it is known that five of the new members of President Diaz's cabinet have been selected, and it is almost certain that Jose Limantour will remain as minister of finance. Other selections besides that of Senor De La Barra are: Pemtro Sodi, judge of the supreme court, minister of justice, succeeding Justino Fernandez; Noerberto Dominguez, postmaster-general, succeeding Leandro Fernandez; Manuel Marquez, well known civil engineer, department of fomento, succeeding Olagiro Molina; Jorge Estanol, an attorney, minister of education, succeeding Justino Sierra.

So far as announcements are concerned, Mexico City is an ignorant to-night as it was yesterday.

Officials expected to be able to give out the names of the men appointed, but at 7 o'clock tonight it was said the administration would make no announcement before next week. It is barely possible, changes may be made then in the list of those now selected.

For the heads of the departments of war and interior no hint has been given. Sen. Bernardo Reyes, now in Italy, who by many was thought to be slated for the post of secretary of war and marine, is returning to Mexico, but not to serve in that capacity. According to a high authority, he will return to serve in the army.

With the exception of General Diaz himself, there is no man in Mexico whom the Mexican people credit with greater military genius than General Reyes, and it is believed the mere knowledge of the fact that he is to be sent into the field will do much to break the spirit of the revolution.

With the changes in the cabinet, reforms will be enacted, which will include changes in the electoral system, effective suffrage in the election of state governors and a reformation of the powers of the federal police.

It is said a full programme of these reforms will be given in the president's message next Saturday at the opening of Congress.

That the administration's policy of reform now has an excellent chance of being carried out successfully is currently believed, but no alterations in its attitude towards the rebels as far as the war is concerned is expected.

"I hope earnestly that the present differences will soon be solved in the best interests of the country and to the satisfaction of all reasonable patriotic persons," said Senor Limantour today.

"I feel that I may say that the administration of President Diaz is prepared to take such measures and implement such reforms as will satisfy the best public opinion on this subject, meeting force with force, and while nothing undone in the present circumstances to unite all good Mexicans."

The Mexican people and the government friendly to us must believe and I say this in all solemnity of verity—that the government is determined properly and progressively to satisfy all legitimate demands for reformative measures, and that it is doing this in its line of duty as a representative government, honestly, sincerely and fearlessly."

Of the men leaving the cabinet, none is better known to Americans than Enrique C. Creel, both because of having filled the post of ambassador to Washington and his dealings with Americans at Chihuahua while serving as governor.

LEAP TO DEATH  
OR BE BURNED  
(Continued from Page 1.)

window. A moment later her body came whirling after them to death.

At the ninth floor window a man and woman appeared. The man embraced the woman and kissed her. Then he turned her to the street and jumped. Both were killed.

Almost at the same time a man summersaulted down upon the shoulder of a policeman holding the tarpaulin. He placed off, struck the sidewalk and fell dead.

Within the building a man on the ninth floor stationed himself at the door of one of the elevators, and with a club kept back the girls who had stamped to the wire cage. Thirty were admitted to the car at a time. They were taken down as fast as possible.

The call for ambulances followed by successive appeals for police, until over ten patrolmen arrived to cope with the crowd numbering tens of thousands—a mixture of the morbidly curious and of half-crazed relatives and friends of the victims.

COLONEL FAVORS  
BRITISH GAMERoosevelt Endorses Form of  
Rugby Adopted by California  
University—Advises Keep-  
ing Down Hazard

BERKELEY, March 25.—Col. Roosevelt interrupted a baseball rally of California university students on Friday night to talk football to praise the Rugby game of the Pacific coast and to condemn the game as it is played in the East. More than a thousand cheering undergraduates were gathered in Harmon gymnasium, mapping out a campaign for the baseball game with Sanford next Saturday and practicing their yell, when the colonel, escorted by President Wheeler, entered the building. The noisy welcome seemed to delight the colonel, who beamed his broadest smile. The leader of the shouting students called for "Col. Roosevelt—sir" and the cheers were given with a vigor. President Wheeler also came in for an ovation as he came forward to introduce the guest.

"I'm glad," said Mr. Wheeler, "that my boys love Theodore Roosevelt. He's the kind of man I want you to believe in. He doesn't believe in mollycoddles, but if strong men who have the courage to do the right thing. If you like him, you're all right."

Keep Hazard Down to Par With War  
Col. Roosevelt, after a good-natured chaffing of the boys' orchestra, said: "I do wish I could see the Rugby football played here. I admit that I'm not especially qualified to speak for football just now, as none of my off-spring has distinguished himself at the game, though one of my sons had his nose broken once and his collar bone several times."

"Now, as Mr. Wheeler has told you, I don't believe in mollycoddles. I neither do I believe in the rough game of football as it is played in the East. I wish the game there were a little less homicidal. I wish the Eastern teams would get in touch with the game as it is played here and substitute it for their own. I want to see the game kept up and I am not in sympathy with the old ladies of both sexes who want football abolished. I am glad to see that the game out here is how shall I say it?—not safe, but no more fraught with hazard than the average war."

The colonel was having such a good time with the boys that he lingered to hear their yells and a song by the glee club.

Forty girls were brought down to safety.

Hyman Mezger, a cutter, slid down the elevator cable ten stories and was found alive at the bottom, standing in water up to his armpits. His hands were lacerated and his forehead was cut, but otherwise he was unhurt.

Just how many trips were made by the elevator will never be ascertained. There are varying reports of heroism at the elevator, but it was impossible tonight to learn if the lifts were operated up to the last moment.

City officials announced that the usual investigation which follows such disasters would be started at once.

Due to Neglect  
Said Fire Chief Croker: "This calamity is just what I have been predicting. There are no fire escapes on this building. I have been agitating that for several months, all of which, they say, occurred in the shirtwaist factory. The others were trifling. The factory, incidentally, is said to be the first in which operators struck during the widespread shirtwaist strike settled several months ago."

By today's disaster the total of shirtwaist operators who have perished in New York and vicinity recently is raised to nearly 200.

Many weeks ago, twenty-five girls met death under somewhat similar conditions in Newark, N. J.

Talk on Reciprocity  
LONDON, March 25.—At the Liberal Colonial Club dinner today Sir J. Simon said that such is the depth of ignorance of the Canadian farmer that he thought if the tariff on imported steam ploughs were removed they would get cheaper. If the foreigner paid the import duty why should the farmer desire to throw down the import wall to get anything for nothing? Sir J. Simon suggested that annexation of Canada by the United States was a bogey laughed at by all thinking Canadians and said that Britain had no right to restrict Canada in her bargain.Racetrack at Portland  
PORTLAND, March 25.—Capitalized at \$100,000, and organized by over a score of Portland's prominent business men, the Portland Club Racing and Exhibition association was incorporated today. The object is to concentrate a racetrack, motordrome and aerodrome, together with buildings within which to hold livestock shows on a large scale. The location of the grounds will be 12 miles east of this city, and it is so situated as to be reached by two interurban electric lines and the main line of the Oregon-Washington Railroad & Navigation company. The premises will be completed in time for the season of 1912.Consider Proposition to Purchase  
At a meeting of the directors of the Nevada Marble Company, Limited, last night a proposition from the Earth Trusts, Limited, was considered for the lease of the marble properties for three years at a rental of \$500 per month, with option to purchase for \$150,000, payable \$50,000 within three days of election to purchase, and the balance in three equal annual instalments with interest at 5 per cent until paid. An extraordinary general meeting of the company is set for April 6 to take this and other matters into consideration. The extensive holdings of the Marble Company are well known, and many enquiries have been made during the last few months as to their price. This is just one more indication that the eyes of the investor are being turned to British Columbia.COLONEL FAVORS

Roosevelt interrupted a baseball rally of California university students on Friday night to talk football to praise the Rugby game of the Pacific coast and to condemn the game as it is played in the East. More than a thousand cheering undergraduates were gathered in Harmon gymnasium, mapping out a campaign for the baseball game with Sanford next Saturday and practicing their yell, when the colonel, escorted by President Wheeler, entered the building. The noisy welcome seemed to delight the colonel, who beamed his broadest smile. The leader of the shouting students called for "Col. Roosevelt—sir" and the cheers were given with a vigor. President Wheeler also came in for an ovation as he came forward to introduce the guest.

"I'm glad," said Mr. Wheeler, "that my boys love Theodore Roosevelt. He's the kind of man I want you to believe in. He doesn't believe in mollycoddles, but if strong men who have the courage to do the right thing. If you like him, you're all right."

Keep Hazard Down to Par With War  
Col. Roosevelt, after a good-natured chaffing of the boys' orchestra, said: "I do wish I could see the Rugby football played here. I admit that I'm not especially qualified to speak for football just now, as none of my off-spring has distinguished himself at the game, though one of my sons had his nose broken once and his collar bone several times."

"Now, as Mr. Wheeler has told you, I don't believe in mollycoddles. I neither do I believe in the rough game of football as it is played in the East. I wish the game there were a little less homicidal. I wish the Eastern teams would get in touch with the game as it is played here and substitute it for their own. I want to see the game kept up and I am not in sympathy with the old ladies of both sexes who want football abolished. I am glad to see that the game out here is how shall I say it?—not safe, but no more fraught with hazard than the average war."

The colonel was having such a good time with the boys that he lingered to hear their yells and a song by the glee club.

Forty girls were brought down to safety.

Hyman Mezger, a cutter, slid down the elevator cable ten stories and was found alive at the bottom, standing in water up to his armpits. His hands were lacerated and his forehead was cut, but otherwise he was unhurt.

Just how many trips were made by the elevator will never be ascertained. There are varying reports of heroism at the elevator, but it was impossible tonight to learn if the lifts were operated up to the last moment.

City officials announced that the usual investigation which follows such disasters would be started at once.

Due to Neglect  
Said Fire Chief Croker: "This calamity is just what I have been predicting. There are no fire escapes on this building. I have been agitating that for several months, all of which, they say, occurred in the shirtwaist factory. The others were trifling. The factory, incidentally, is said to be the first
