

Estimates Provide for Four Large Armored Ships and Eight Light Cruisers-Increase in Personnel of 2000

LONDON. March 12 .- The estimates presented to the House of Commons today provide for the construction of four large armored ships, eight light armored cruisers, twenty destroyers and a number of submarines. The personnel will be increased by two thousand men.

On April 1 there will be under construction ten battleships, six cruisers. eight second-class protected cruisers, thirty-one destroyers and fifteen sub marines.

A dramatic scene was enacted in the House of Commons tonight. The gov-ernment was being censured for its alleged unpreparedness for war. The Rt. Hon. J. B. Seeley, under sec-

retary for war, held up a sealed envelope which contained, he said, information which any member could have under pledge of secrecy, as to how within a few days of an order for a mobilization 150,000 men could be despatched abroad with ammunition and stores for three months.

STEAMER TOTAL LOSS Isleworth Goes Ashore Off Chebucto

Head, N. S .- Crew Escape By Life Line

HALIFAX, N.S., Mar. 13 .- The new steamer Isleworth, under charter to the Dominion Coal company, went ashore tonight off Chebucto head, at the entrance to this harbor and will be a total loss. She had a crew of forty men and they, with Captain Redding, with difficulty got to land.

The Isleworth left Boston last Thursday. On Sunday she ran into ice and three of her four propeller blades were broken off. With a single blade she slowly made her way since Sunday and when she struck she was trying to find the harbor for repairs. Darkness was coming on and the Captain determined to abandon here. A boat was sent ashore with a line and this was used to get all the crew ashore. Five trips we're made, the boat being pulled to and from the steamer by the line, the pass-

ages becoming more difficult as the time went on and the last was especially dangerous, the seas having become uch heavier. There is no accommodation at Che

bucto head and the men will have to stay tonight in the fog alarm building. No supplies of food can be sent until tomorrow.

GRACE COMPANY

# **ORDERS A STEAMER**

#### Cramp Yards at Philadelphia Will Build Vessel 400 Feet Long For Green Funnel Fleet

W. R. Grace & Co., operating a line of steamers from Puget sound to the West coast and from the North Atlantic to the West coast, have let a contract to William Cramp & Sons, ship and engine building company of Philadelphia, for the construction of a 10,000-ton steel steamer. She will be the first vessel owned by the Grace company to have American registry. The Grace line owns a number of

steamers and operates a large fleet of chartered vessels. The steamers own ed by the company are under British and Norwegian registry. The Norwe gian steamer Cuzco, which operates from this port to the West coast was originally British, but two years ago while in port here her registry was

changed to Norwegian. The new steamer just ordered from the Cramp company will be 400 feet in length and will have passenger accommodations. Whether she will operate exclusively in the merchant line from New York to the West coast, or will include this port in her itinerary when the Panama canal is opened is not known. She will be built in excess of the underwriters' highest requirements and so constructed that she can burn coal or oil. It is understood that she will be ready for delivery in 11 months Grace & Co. also have three 10,000ton liners building in foreign yards which are to be used in the West coast

trade when the Panama canal is opened Realty Movement at Sooke-Real estate in the Sooke district has been changing hands to a considerable extent during the last fortnight. No less than four farms have been sold in the last week, including considerable acreage, and waterfrontage on the north of the harbor is growing correspondingly scarce.

The wreck occurred on a sharp curve a mile west of McCarthy in a blinding snowstorm which obscured the view of the engineer from an extra freight train. The work train was standing on the main line, and because of the storm, all the laborers were aboard at the time of the accident. Those killed were eating dinner in the rear car of the work train.

Section foreman Ward, his wife and the assistant foreman were killed outright. The five children of the Ward's in the same car were tossed a hundred feet into a field nearby, all being injured seriously. A score of Mexican laborers in the bunk cars were buried in the wreckage. A special train brought the dead and injured, numbering twenty, to this city tonight.

Morocco City, where the people have revolted as a result of the actions of Said Mtougi, one of the chiefs, who was reported in 1908 to have proclaimed himself Sultan of Southern Morocco. The movement is assuming an anti-foreign character and a German engineer has

sledging, and Dr. Mois, a Swiss, who is an adept with Skils, are included in the expedition. Australians and New Zealanders complete the complement. MINERS DETERMINED Operators in Anthracite Fields of U. S. A. Befuse Demand for Increased Wages NEW YORK, March 13 .- The Anthracite coal operators and the United Mine Workers of America professed today unyielding adherence to their attitud

for refusing the miners demands "The situation looks blue and the indications point to a strike," declared Mr. White of the miners. "The operators say they will not make concessions.' With the formal rejection of the miners' demands and the counter proposition that the present agreement which expires on March 31 will be continued for three years, the operators' committee of ten adjourned until Friday. Adjournment was taken upon request of the miners' officials who meantime wil meet, consider the operators proposals and plan their procedure. Their decision

it is expected will be announced at a joint meeting. "It is out of the question to advance wages," reads the reply, "unless we can in some manner realize from the

sale of coal produced a sum equal to the increase in wages." This increase, it is said, would aggre

gate \$28,000,000 a year, and the whole advance, which would average about 67 cents per ton, would be borne by the domestic users of coal.
