THE 'REVIEW'

THE BEE-KEEPERS' REVIEW for December has four extra pages — twenty in all. Upon the first page is a brief history of the REVIEW; also an excellent

PORTRAIT OF ITS EDITOR,

One of those beautiful Ives reproductions. The special topic of this issue is: "Sections and their adjustment on the Hives," and it is handled by such men as Jas. Heddon, Dr. C. C. Miller, R. L. Taylor, Oliver Foster and Dr. G. S. Tinker. A copy of this issue will be cheerfully sent free to all who apply.

Price of the REVIEW 50 cts. a year.

The Production Of Comb Honey !

Although this neat little book contains only 45 pages, it furnishes as much practical, valuable information as is often found in a book of twice its size. It is 'boiled down.'

It begins with taking the bees from the cellar and goes over the ground briefly, clearly and concisely, until the honey is off the hives; touching upon the most important points, and especially does it teach when, where and how foundation can be used to the best advantage; when combs are preferable and when it is more profitable to allow the bees to build their own combs.

Price of the book 25 cents.

SPECIAL OFFERS.

For 65 cts. we will send the REVIEW one year and "The Production of Comb Honey." For \$1 we will send all the numbers of the REVIEW for the past year (1888), the REVIEW for this year (1889) and the "Production of Comb Honey;" or, for the same amount (\$1), we will send the REVIEW for two years from Jan. 1st, 1889, and "The Production of Comb Honey." Stamps taken, either U.S. or Canadian.
