BUSINESS has been fairly active during the past week, but in iron, as in other things, trade has been not a little interfered with by the political excitement now general throughout the country in view of the approaching elections, and the occurrence of holidays more or less generally observed.

We make no change whatever in our price list, and have nothing special to report concerning any article in it. Stocks are now well-assorted, but quotations are firmly maintained, and there is little or no pressure to sell on the part of holders of heavy goods.

FLOUR.—The general buoyancy noted at the date of our last was maintained for a day or two, but since the turn of the week a perceptible slackening off has taken place, owing, in fact, to the unsettled state of the Western and New York markets, liberal arrivals here, and the near approach of what promises to be an abundant harvest. Till to-day, former rates were well sustained, though less changed hands; but while little of the business done at the close was allowed to transpire, the sales reported were at some ten to twenty cents below previous rates. Old ground superfine sold to a small extent at \$7.25 to \$7.40, and fresh at \$7.50 to \$7.60. Extras are only taken in a retail way for city consumption, rates being various, according to sample, quantity, &c. No. 2 and the lower grades are in fair request within the range given. BAG-FLOUR is again dull and lower. Sales of good are effected with difficulty at \$3.50 to \$3.60, while poor is entirely neglected. RYE-FLOUR has engaged more attention, and prices have improved, closing moderately active at \$5.70 to \$5.80; most recent sales being at \$5.75 for good samples.

Much uncertainty seems to be felt in relation to prospects, and the prevailing disposition is to operate cautiously, and only for immediate wants.

OATMEAL.—Little business can be noted lately, and quotations may be considered nominal.

GRAIN.—Wheat—Rates are purely nominal in the absence of transactions. Prices are unchanged. There is, however, little or no business doing, arrivals having almost ceased. Oats—A single cargo sold for the Lower St. Lawrence trade, besides which only retail parcels have changed hands.

PORK.—Remains without change, the demand is merely by retail, and until an export enquiry springs up little improvement can be looked for.

LARD, HAMS, AND CUTMEATS.—Are all very dull, the consumption has been smaller than anticipated, and stocks, though not heavy, are ample for the demand.

BUTTER.—Arrivals are light, but in the absence of any export more than sufficient for the existing demand, which is the merest local retail. A good even quality in prime order, if to be had in shipping parcels, would command attention, but the bulk of the receipts are too poor in quality to meet the views of shippers, when the quality improves towards the fall there will probably be a brisk trade in the article if prices have receded to a safe shipping point.

ASHES.—Pots have remained without much fluctuation during the week, a decline in Britain causing them to droop somewhat here; the market closes dull at quotations. Pearls—Have slightly rallied in price, and are in rather better demand towards the close of the week.

REMARKS.—There were 190 Northern and 221 Western Cattle at market. It being understood that there were some 2,000 head at Brighton, which were purchased at lower rates, dealers found that last week's prices could not be maintained, and good Steers were sold at \$13.00 to \$13.50 per cwt. We quote prices \$1 per cwt. lower, and at this reduction there was a fair market.

Sheep and Lambs.—The market was dull, with a large supply, there being nearly 4,000 head more at market than last week; quite a portion was sold on drift, quotations are 1c to 1 1/2c per lb. lower. The arrivals at Medford were mostly spring Lambs.
