trust him

You want Scott's Emulsion. If you ask your druggist for it and get it—you can trust that man. But if he offers you "something just as good," he will do the same when your doctor writes a prescription for which he wants to get a special effect—play the game of life and death for the sake of a penny or two more profit. You can't trust that man. Get what you ask for, and pay for, whether it is Scott's Emulsion or anything else.
