## NEWS OF THE MINES.

### THE BOUNDARY COUNTRY.

Mr. Ross Thompson, from the Boundary Creek country, is very favorably impressed with the Oro Denoro. He reports that some ore is being taken out of the property, so that it will be ready to ship on to the smelter as soon as the railroad is finished. The grading on the railway is done, and the next step will be to lay the track. About 200 tons can be taken out of the open cut which was made by the graders. Besides, there is another vein which is 100 feet in width, which it is the intention to explore. The compressor plant is installed and is in operation. The shaft is down to a depth of 200 feet, and a crosscut will be made to tap the big ledge 100 feet wide, which has been shown up on the surface by the railway cutting. It is thought it will be tapped when the crosscut has been run for a distance of about 100 feet.

### PAYNE WORK SUSPENDED.

As per instructions received from headquarters in Montreal, operations have been suspended in the Payne mine. There were seventeen miners and four carmen working underground, running the No. 5 tunnel east and west, and driving an upraise from No. 4 to No. 3. These men were all laid off and only a few men on surface work remain at the mine. When spoken to, Superintendent Hand stated that he did not know the intention of the company regarding future operations, but he gave it as his opinion that the lay-off was on account of the action of the miners' union in inducing the men recently imported from Montreal to come down the hill.

### IN OKANOGAN,

A letter from Mr. A. S. Edgcombe, superintendent of the Okanogan Free Gold Mines, near Oroville, stating that two important strikes had been made on the property of the company. One was in the open cut on the east and west vein. At the time of writing the entire face of the cut was in ore of good grade. The other strike was in the tunnel, which is being run from the shaft at a depth of 50 feet to tap the north and south vein. At the time of writing the entire face of this tunnel was in high-grade ore. The intention is to sink on this find.

### LONDON CABLE.

O. Meredith & Co.'s Cable gives the following London quotations:

Grand Trunk, guaranteed 4 p.c.....	94
"    1st preference.....	84½
"    2nd    "    .....	53½
"    3rd    "    .....	21½
G. T. R. Com.....	.....
O. P. R.....	83½

### DEVELOPING THE JIM BLAINE.

Driving South on Ledge From Republic Tunnel.

(From the Republic Miner.)

The development of the Jim Blaine has been quietly recommenced and a shift is now engaged in driving south into the Jim Blaine ground from the No. 3 level of the Republic. It is about 40 feet from the tunnel to the end line of the claim and about 15 feet remains to be traversed before the Blaine ground will be entered. The portion of the ledge now being opened has no special features in connection with it. Work is being carried on by hand.

The work now in hand gives a depth of nearly 400 feet.

### TORONTO MINING EXCHANGE.

Toronto, October 11.
