# THE "OPTIMATES" POWER HAMMER

Has no Equal for Simplicity in Operation

It is the **Only Power Hammer** ever made that the stroke of the ram can be set to travel any distance required between *zero* and *full stroke* by the manipulation of the *treadle only*, and whilst the progress of forging is going on.

It is the **Only Power Hammer** made that will give blows varying in force from a few ounces to the full force of the blow the hammer is designed to strike, *without any decrease in the number of blows given*.

It is the **Only Power Hammer** in which the power consumed is in proportion to the work done, therefore effecting a great saving over other hammers.

It is the **Only Power Hammer** in the world in which the ram can be made to travel the *full length of stroke* or *short strokes* for all thicknesses of metal the hammer is designed to forge, without the operator leaving the anvil or stopping the operation.
