For some time he was in failing health, and his death was not altogether unexpected.

HOW A DYNAMITER IS MADE. The Feoria Call gives to the world the history of the dynamite sensation in which Pat W. Crowe, a lamp lighter of that city, was the conspicuous figure of a few years ago.

and his infernal machines that their fertile imagination could suggest, Pat meanwhile engineering the matter with a steady and to the full. When the sensation became no longer interesting or profitable they dropped it, and Pat sunk into his original obscurity.

AMERICAN. The President, Mrs. Cleveland and Col. Lamont left Washington at 11.30 this morning for Holland Patent, N. Y.

The United States Custom House collector at Port Huron, Mich., this morning stopped thirty Canadians from working on the Grand Trunk railroad. A number of these are employed in permanent positions.

The Parliamentary Fund Association, at a meeting yesterday, resolved, in accordance with instructions given two weeks since, to present an address to Lord Aberdeen on his arrival in New York. Other attendees will possibly be extended to Lord and Lady Aberdeen while in New York city.

Queen Kapoliani arrived in New York yesterday from Europe. Her Majesty was much pleased with her visit to England and no way alarmed by the rumors as to the Hawaiian Islands relative to the political condition of things there. The Queen will leave for San Francisco en route to the Hawaiian Islands on Wednesday or Thursday.

Fourteen bodies have been recovered from the ruins of the Alcazar theatre at Hurler, Wis. Identification is utterly impossible, as nothing but the trunks of the bodies and an occasional article of clothing were found. Thirty persons were fatally injured by jumping from the upper story of the building, making the total list of fatalities seventeen. The total loss is now estimated at \$4,000,000. Five blocks, embracing seventy buildings, are in ashes.

The liabilities of the Oxford Copper and Sulphur company, of 27 Wall Street, New York, in London, Constable Hook, N.J., and Casselton, Canada, which has been placed in the hands of a receiver, was reported to be about \$600,000, with nominal assets of twice that amount. It is understood that A. M. Thompson, who is general manager of the company, has made a proposition to President Estlin to assume all the debts, excepting those to Estlin and those which Estlin is liable as endorser, and to take all the mines in Canada. It is thought that the remaining property would be sufficient to pay Estlin and leave about \$250,000 for the stockholders. It is said Estlin has accepted the proposition.

CANADIAN. The Ottawa Evening Journal has a rumor that the Government has passed an order-in-council disallowing the Public Works Act passed by the Manitoba Legislature last session, which gives extensive powers to the Government. The rumor lacks confirmation, but it is most probable that not only this but other acts of the Local Government will be disallowed, as the Manitoba Government took its self power under several acts to build the railway to the boundary, and if one of these bills is disallowed it follows as a matter of course that all of them will be disallowed.

DREADFUL RAVAGES OF DIPHTHERIA.—AN AFFLICTED FATHER. QUEBEC, July 11.—Diphtheria is said to be making great havoc in some of the surrounding municipalities. Some forty cases are reported in the parish of Notre Dame de Lesis alone, and many families are sending away their children to the country. The disease has also made its appearance at the Riviere Jacques and at St. Pierre de Charlesbourg. In the latter named locality an unfortunate farmer, named Poulin, has lost the whole of his six children from diphtheria within the past fortnight. The oldest was fifteen years of age. As nobody will approach the house to assist him, the poor father was obliged to prepare all his little ones for burial himself and then drive them to the cemetery.

THE U. S. CROP REPORT. CHICAGO, July 11.—The Farmers' Review says: During the last week refreshing rains were experienced, quite generally throughout the States of the Mississippi valley, though many of the best localities suffered from the drought. The winter wheat harvest is now so nearly completed as to furnish a safe basis of the estimate of the yield. Estimates of the yield per acre reached by summarizing the reports of correspondents are as follows:—For seventeen counties in Illinois, 17 bushels; nine counties in Indiana give an average of 12.3 bushels per acre. Twelve counties in Kansas, 13 bushels, which former reports incline us to think as too high; four counties in Kentucky, 11 1/2 bushels; three counties in Michigan, 13 bushels; seven counties in Missouri, 18.4 bushels; twelve counties in Ohio, 15 bushels; and four counties in Wisconsin, 16 1/2 bushels. The reports on the condition of spring wheat are quite uniform from Dakota, Nebraska, Minnesota, Iowa and Wisconsin. The lowest percentage as compared with an average crop is 70 from Nebraska, and the highest 78 from Wisconsin. The spring wheat is rapidly approaching maturity, a now in spite of the drouth and insect injury gives promise of about the quantity of an average crop. The same condition and prospective yield of oats. The conditions of drought and heat have favored the development of injurious insects and to these two causes can be attributed the loss of fully 25 per cent. of the crops of spring grain. Corn generally is in a very promising condition and fully two weeks ahead of the season. There is already some complaint of chinch bug depredations and there is danger that as the spring wheat and oats are harvested the bugs will move in force to the adjacent corn fields and do much injury.

Is there anything more annoying than having your corn stepped upon? Is there anything more delightful than getting rid of it? Holloway's Corn Cure will do it. Try it and be convinced.

COMMERCE.

Weekly Review of Montreal Wholesale Markets.

FLOUR, GRAIN &c. FLOUR.—The market during the week has been very unsatisfactory, holders having been compelled to sell prices in order to do business to any extent. The intense heat of the past week has caused buyers to exercise great caution in their purchases. We quote:—Patent \$4.15 to \$4.70; Strong Bakers' (Manitoba) \$4.10 to \$4.35; Strong Bakers' (Canada) \$4.00 to \$4.05; Superior Extra, \$3.95 to \$4.05; Extra Superior, \$3.80 to \$3.90; Patent, \$3.60 to \$3.75; Spring, Extra, \$3.50 to \$3.60; Superfine, \$3.30 to \$3.40; Fine, \$3.10 to \$3.20; Middlings, \$2.90 to \$3.00; Pollards, \$2.50 to \$2.60; Ontario bags (strong) b. i., \$1.70 to \$1.85; Ontario bags (spring extra), \$1.70 to \$1.75; Ontario bags (superfine), \$1.45 to \$1.60; City Strong in sacks of 140 lbs. (per 199 lbs.), \$4.40 to \$4.45. (Ontario).—The market quiet, but some loss being still reported at \$3.85 to \$3.90 for jobbing lots at \$4.05 to \$4.25; granulated, \$4.25 to \$4.50; in bags, \$1.80 to \$2.00 for ordinary, \$2.10 to \$2.20 for granulated. Cornmeal, \$2.50 to \$2.65.

BARLEY, &c.—The market for bran continues quiet, sales on track reported at \$13 to \$13.50 per ton. Smaller lots \$13.50 to \$14.00 per bushel. Shoyes, \$14 to \$16.

WHEAT.—A good through business has been done but there have been few transactions on spot, and prices have been more or less nominal as follows: Manitoba wheat at 87c to 88c for export; Canada red and white spring, 85c to 86c.

CORN.—Remains more or less nominal at 46c to 47c in bond.

WHEAT.—The market rules very quiet and prices range from 60c to 67c for float and 61c to 62c for Oats.—There is a decided improvement in oats. We quote 26c to 27c.

BARLEY.—Maltng barley, 50c to 55c; feed do, at 45c.

RYE.—Prices are quoted nominally at 55c to 56c.

BUCKWHEAT.—There is very little demand and prices are quoted at 40c to 42c per 49 lbs.

MALTS.—Trade is still quiet at 51c to 50c per bushel for Montreal, and at 70c to 80c for Ontario.

SEEDS.—Business at this season of the year is usually dull, and prices are more or less nominal. We quote as follows:—Canadian timothy \$2.75 and American at \$2.60. Red clover seed is nominal at \$5.25 to \$6 per bushel, and Alsike at \$5.50 to \$6.50. Flax seed \$1.10 to \$1.25.

PROVISIONS, &c.

PORK, LARD, &c.—There has been quite an absence of activity in the market during the past week, the principal business reported to us being the filling of a few country and city orders for Montreal short cut at \$16.75 to \$17. We quote:—Montreal short cut pork, \$17, \$16.50 to \$17.00; Canada short cut clear per lb., \$16.50 to \$16.75; Chicago short cut clear per lb., \$16.50 to \$16.75; Hams, city cured per lb., 11c to 12c; Hams and flank, green, per lb., 10c; Lard, Western, in pails, per lb., 9c to 9 1/2c; Lard, Canadian, in pails, per lb., 9c to 9 1/2c; Bacon, per lb., 10c to 11c; Tallow, common, refined, per lb., 4c to 4 1/2c.

DAIRY PRODUCE. BUTTER.—The chief feature in this market of late has been the extensive purchases of creamery which have been made in the country for Montreal houses. Sales of creamery west of Toronto have been made at 17 1/2c to 18c, and in this province sales have transpired at 19c to 20c, nearby creameries having sold at 19c to 20c. We quote as follows:—Creamery, 18c to 20c; Townships, 15c to 17c; Morrisburg, 14c to 17c; Brookville, 13c to 16c; Western, 14c to 15 1/2c; low grades, 10c to 12c.

CHEESE.—The prices are run up to 9c for low and 9 1/2c for colchester. The cheese going out by this week's steamers cost from 9c to 9 1/2c on board vessel, some colored as high as 9c. There is an immense make going on, present high prices being an inducement for farmers to cart every pallful of milk to the factories.

COUNTRY PRODUCE. EGGS.—The former feeling noticed in our last report developed into a much stronger one, sales being made of a few cases as high as 13 1/2c to 14c.

LIMEY.—There is no important change in this article although holders say that to effect sales they would have to accept lower prices. We quote as follows: Comb 11c to 14c, and strained 8c to 10c.

MAPLE SUGAR AND SYRUP.—The sale of a lot of about 8,000 lbs. of sugar in boxes and barrels is reported at 7 1/2c, and we quote 7c to 7 1/2c as to quantity and quality.

FRUITS, &c. APPLES.—New Southern apples are about \$1.50 to \$2.00 per bushel, and the week, with some change, at \$3.00 to \$6.00.

PINE APPLES.—A good reasonable demand is experienced with business at \$2 to \$3.50 per dozen. Very fine stock would probably bring \$4.

LEMONS.—The market is firm, higher and excited, sales having been made of good reported fruit at \$4.00 to \$4.50, choice having sold at \$5 per box.

ORANGES.—Under a very good enquiry a considerable amount of stock has been worked off, and prices are firmer with sales at \$5 per box. Holders anticipate still higher prices in the near future.

STRAWBERRIES.—The supply of Canadian berries in this market has been very short this year. A few crates of good berries were reported on Monday and sold at 8c to 9c per quart.

BANANAS.—A fair reasonable demand obtains with sales at \$1.50 to \$2.25 per bunch as to size. Aspinwals are higher.

CHERRIES.—Sales of white have transpired at \$1.50 to \$1.75 per basket, which are considered very good prices. The demand is good and receipts meet with ready sale.

POTATOES.—New potatoes are coming in more freely, and old in consequence are neglected. Prices of new crop are declining, but we hear of no quantities being offered.

COCONUTS.—There is no change in the market, latest sales being reported at \$5 to \$5.50 per dozen.

GENERAL MARKETS. SUGAR.—The market is firm under a steady enquiry and fair turnover, granulated reported higher, nothing being obtainable, it said, under 6c, and we quote 6 1/2c to 6c. In yellow the feeling is steadier at 5c to 5 1/2c. Raw sugar steady at 4c to 4 1/2c. Barbadoes molasses firmer at 29 to 30c.

SALT FISH.—Nothing is doing in this market, except in dry cod, a few small lots occasionally changing hands at \$4 per quintal.

A MERCENARY LOVER.

JAMAICA, L.I., July 7.—John Hoey, a young man of this village, has just received a cheque for \$200 from P. H. Cassidy, auditor of the New York, Woodhull & Rockaway Railroad, under somewhat peculiar circumstances. Hoey sent in a bill of expense for his room, laundry, rides, dinner, etc., during his courtship of Margaret Semars, an accomplished young lady, who has just been married to Mr. Cassidy. Hoey intended forbidding the marriage and talked of a breach of promise suit against the young lady, but being advised that he had no legal claim upon her he made out the bill as above stated and sent it to her on the day of her wedding. As soon as Mr. Cassidy heard of the matter he sent his cheque for the amount, which Hoey accepted as a slight bribe for his lost love.
