Wool.—The woollen manufacturers are still buying very sparingly and business in the wool market is dull. A few sales of Cape are reported at 17½ to 19c. per lb. Australian is quoted at 18½ to 21c.; domestic unassorted scarce at 23c.

Parties intending putting in High Class Economical Engines and Boilers, for Electric Lighting or Factory use, will do well to place their orders with us at once, as we are crowded with orders. Our works run night and day, and will continue to do so for balance of the season. We are now building Engines and Boilers for some of the largest electric light plants, and best manufacturing in Canada.

ward march of the thermometer, but it cannot be called a brisk demand. In accordance with the unnatural and unsafe practice that still prevails in this trade, fall goods are being sold thus early to anyone who is bold enough (or rich enough) to buy them. Remittances from the country are backward, but city retail trade is fair. As will be seen elsewhere, prices of textiles are well maintained in Britain.

Flour and Meal.—The flour market is dull and but little business doing, with a decline in values in some brands of from 10 to 25c. per bbl. We quote patents, winter and spring, from \$4.75 to 5.00, a reduction of 25c.; straight roller, \$4.50 to 4.60; extra, \$4.20 to 4.25, in both brands a lessened value of 10c. per barrel; strong baker's continues unchanged in price. Oatmeal is dull, with values remaining as last quoted. Bran is weaker and now sells at \$11.50 to 12.00 per ton.

Grain.—In wheat there is no change in price to report; the market, which has been dull during the past week or more, is becoming firmer, with every prospect of present quotations being fully maintained. Locally a good deal of the dullness is attributable to the falling away of the milling demand, movements by rail for mill supplies being contracted more and more. Manitoba hard continues firm at \$1.17 to 1.22. In barley there is nothing doing, prices are purely nominal; with the advent of warm weather malting ceases until the new crop comes in again. Oats are easier and show a decline of one cent per bushel. Peas are steady and unchanged. Rye and corn purely nominal. The English markets for wheat are reported firmer this morning, with an increase of sixpence per quarter.
