

PART III.—STATISTICS OF TIME RATES OF WAGES AND OF NORMAL HOURS  
OF WORK IN MINING AND MANUFACTURING INDUSTRIES

*Article 13*

Statistics of time rates of wages and of normal hours of work of wage earners shall be compiled for a representative selection of the principal mining and manufacturing industries, including building and construction.

*Article 14*

1. The statistics of time rates of wages and of normal hours of work shall show the rates and hours:

- (a) fixed by or in pursuance of laws or regulations, collective agreements or arbitral awards;
- (b) ascertained from organisations of employers and workers, from joint bodies, or from other appropriate sources of information, in cases where rates and hours are not fixed by or in pursuance of laws or regulations, collective agreements or arbitral awards.

2. The statistics of time rates of wages and of normal hours of work shall indicate the nature and source of the information from which they have been compiled and whether it relates to rates or hours fixed by or in pursuance of laws or regulations, collective agreements or arbitral awards, or to rates or hours fixed by arrangements between employers and wage earners individually.

3. When rates of wages are described as minimum (other than statutory minimum) rates, standard rates, typical rates, or prevailing rates, or by similar terms, the terms used shall be explained.

4. "Normal hours of work", where not fixed by or in pursuance of laws or regulations, collective agreements or arbitral awards, shall be taken as meaning the number of hours, per day, week or other period, in excess of which any time worked is remunerated at overtime rates or forms an exception to the rules or custom of the establishment relating to the classes of wage earners concerned.

*Article 15*

1. The statistics of time rates of wages and of normal hours of work shall give:

- (a) at intervals of not more than three years, separate figures for the principal occupations in a wide and representative selection of the different industries; and
- (b) at least once a year, and if possible at shorter intervals, separate figures for the main occupations in the most important of these industries.

2. The data relating to time rates of wages and of normal hours of work shall be presented, so far as practicable, on the basis of the same occupational classification.

3. Where the sources of information from which the statistics are compiled do not indicate the separate occupations to which the rates or hours apply, but fix varying rates of wages or hours of work for other categories of works (such as skilled workers, semi-skilled workers and unskilled workers) or fix normal hours of work by classes of undertakings or branches or undertakings, the separate figures shall be given according to these distinctions.
