Harold Hagermark

UNITED STATES

Mr. Harry Horne, Canadian Consul General, San Francisco

Congress of the United States, Energy Research and Production Subcommittee, Washington, D.C.

Congressman Mike McCormack, Chairman
Staff of the Subcommittee

Congressional Research Service, Washington, D.C.

James E. Mielke, Analyst in Marine and Earth Sciences
J. Glen Moore, Analyst in Energy Technology
Lani Hummel Raleigh, Energy, Aerospace and Transportation Section Head
Migdon Segal, Analyst in Energy Technology

Department of Energy, Washington, D.C.

C. Worthington Batemah, Under Secretary of Energy
Paul Brown, Director, Electric and Hybrid Vehicle Program, Office of Transportation Programs, Conservation and Solar Energy
Ambassador Halsey G. Handyside, Deputy Assistant Secretary for International, Nuclear and Technical Programs, International Affairs
James S. Kane, Associate Director for Basic Energy Sciences, Energy Research
Richard Passman, Director, Office of Coal Resource Management, Resource Applications
Michael Roberts, Director of Planning and Projects, Energy Research
Jack Solsberry, Deputy Director, Geothermal Energy Division, Resource Applications
Joel Weiss, Executive Assistant to the Deputy Assistant Secretary for Solar Energy, Conservation and Solar Energy

Electric Power Research Institute, Palo Alto, California

Ed DeMeo, Solar and Wind Energy

Shelton Ehrlich, Program Manager, Fluidized Combustion, Coal Combustion Systems Division
Walt Esselman, Manager, Strategic Planning Department
Neville Holt, Coal Gasification
Evan Hughes, Project Manager, Advanced Geothermal Systems
R. Rhodes, Member, Technical Staff, Policy Planning Division
Robert Scott, Program Manager, Fusion Power Systems Program
Ron Wolk, Coal Liquids

Georgetown University, Washington, D.C.

Dan Farrell
G. Shaff, Power Plant Manager
S.E. Winberg, Service Engineer, Foster Wheeler Energy Corporation

H-Coal Plant, Catlettsburg, Kentucky

James K. Farley, U.S. Department of Energy
Harold H. Stotler, Technical Manager

Lawrence Livermore National Laboratory, Livermore, California

Roger Batzel, Director
John Cooper, Co-principal Investigator, Metal-Air Battery Program
John Emmett, Associate Director, Laser Fusion Program
Mortimer L. Mendelsohn, Biomedical and Environmental Research Division
Richard Post, Deputy Associate Director, Magnetic Fusion Energy Physics
Erik Storm, Assistant Associate Director, Laser Fusion Program
Kenneth Street, Associate Director for Energy and Resource Programs

Office of Technology Assessment, Washington, D.C.

John Gibbons, Director
Lionel Johns, Assistant Director, Energy, Materials and International Security Division
Nancy Naismith, Project Director, Energy Program, Energy, Materials and International Security Division
Marvin Ott, Director, Congressional and Institutional Relations
Richard Rowberg, Energy Program Manager, Energy, Materials and International Security Division

Pacific Gas and Electric, The Geysers Geothermal Electric Development, California

Jack Trotter, Public Activities Representative, Geysers Project

Plasma Physics Laboratory, Princeton University, Princeton, New Jersey

K. Bol, Head, Princeton Demonstration Experiment (PDX)
H.P. Furth, Program Director
M.B. Gottlieb, Director
