RIVIÈRE BEAUDETTE, QUEBEC—TOURIST INFORMATION CENTRE

Question No. 1,845—**Mr. Herbert:**

Did the government contribute to the construction or maintenance of a tourist or information centre off highway 40 near Rivière Beaudette, Quebec and, if so, what was the amount and were any conditions attached to the payment?

Mr. Ralph Ferguson (Parliamentary Secretary to Minister of State (Small Businesses)): In so far as the Department of Industry, Trade and Commerce is concerned: Under the terms of the government's Federal Labour Intensive Winter Works Project for the winter of 1971-72, the Canadian Government Office of Tourism contributed \$80,000 toward the construction of a permanent tourist information centre at Rivière Beaudette, Autoroute 20, County of Soulanges, Quebec. The following is the proforma for the project:

Objective: To give quick stimulus to job creation in the winter across Canada.

Method: By carrying out the clean-up, refurbishing, re-design or augmenting with special new facilities, features or equipment, of one or more travel/tourism attractions or facilities per province.

Provincial Contribution: The aim was for the provincial contribution to match the federal contribution as closely as possible (a minimum for provincial contribution would be 25 per cent of the costs of the projects selected).

Costs: Costs were to be predominantly labour-intensive, although a minor share of equipment or capital cost could be included, provided this could be related to job creating activities. Approximately 75 per cent of the federal share of the contributions was to be made for the FY 1971-72 ending March 31, 1972 and 25 per cent in the two months of April and May and ending May 31, 1972.
