can learn whether to expect anything
additional from Berlin.
To Take Strong Stand.
It may be stated, however, that if
nothing comes of the German offer
of a modification of Germany's ex-
planation of an American note will
remain Berlin probably early next week,
which will set forth the views of the
United States in a brief and unmis-
takeable manner.

Germany's declaration that while
she regrets the loss of Americans she
recognizes no liability for indemnity
even if the submarine commander was
mistaken in believing the Arcturion was
about to attack him, and practically
offering to arbitrate the principle, is
regarded in official circles as leaving
the whole submarine question prac-
tically where it was left by the Berlin
Government's unresponsive attitude
toward the Lusitania negotiations, and
a remarkable confirmation of the
favorable view which state depart-
ment officials had been led to take by
the statement of the German ambas-
sador.

The president spent most of today
going over the German note. No of-
ficial comment was made at the White
House or the state department, but
the disappointment of officials was un-
disguised. The latest turn in the sub-
marine controversy almost over-
shadowed the Dumba case.

Von Papen Involved.
Captain Von Papen is involved in
the Dumba case because he forwarded
by James F. J. Archibald, the Ameri-
can correspondent traveling under an
American passport, a personal letter,
in which he made efforts to state
about American officials. Moreover,
Ambassador Dumba's letter to the Vi-
enna foreign office, found on Archi-
bald mentioned Von Papen as having
approved what the state department in
its note to the Austro-Hungarian Gov-
ernment characterizes as a "conspira-
cy to cripple the legitimate industries
of the United States." Consul-Gen.
Nuber is drawn into the case because
the Dumba letter discloses that he was
connected with this strike plan.

High officials indicate today that
the government would take steps of some
kind against the use of a foreign cor-
respondent in this country, from whom
a memorandum was enclosed in the
Dumba letter outlining carefully pre-
pared plans for putting into effect the
scheme for handicapping munitions
plants.

Count Bernstorff is involved techni-
cally, because Archibald carried a let-
ter for him, but as it was a copy of a
statement previously made to the am-
bassador by Secretary of State Lan-
sing, wholly of an innocuous character.

After Vacation Peel
Your Discolored Skin

Women returning from the seaside with
brown, reddened or freckled skins
will be wise in immediately taking
up the mercurized wax treatment. Wea-
ther-beaten skin has lost its glow, and
no amount of "beautifying" will ever
make such skin pretty to look at. The
safest, easiest, and most effective way to
depot the cuticle is with the treatment
suggested. Put the wax on before retir-
ing, as you would cold cream, and rinse
it off next morning with warm water.
Minute particles of wax will peel off
day by day, gradually showing the
healthy, youthful skin beneath. One
ounce of mercurized wax is obtainable
at any drug store, is enough to make any
discolored or spotted complexion clear,
white and satiny. Its action is so
gentle no injury is caused, and the face
shows no trace of its use.

Warning: heat, irritating winds and dirt
are such wrinkle-makers that the daily
use of the following mercurized wax
during this season is highly advisable.
It is a splendid wrinkle-remover and
preventing.

officials do not regard the German am-
bassador's status in the affair as ap-
proaching that of his military attache
or the Austrian consul-general.

Await Vienna's Reply.
It is quite probable that until the
Vienna foreign office replies to the
request for the withdrawal of Dr.
Dumba nothing further will be done
in the case, nor in the cases of Von
Papen or Nuber. If the receipt of
documentary evidence bears out the
information now in the hands of the
state department, officials would not
be surprised to see both men with-
drawn by their home government, or
at least, removed, dismissed from the
country.

The fact that Von Papen's letter was
a personal one would not alter the
situation. Secretary of State Lansing
said that while the department had
no official information on Von Papen's
case, it regarded the use of an Ameri-
can passport for carrying any sort of
belligerents as an abuse of that docu-
ment.

The copy of the German note on the
Arabic as received at the state depart-
ment varied from the copy cabled to
The Associated Press from Germany
only in that the former said the sub-
marine stopped the English steamer
Dunstable about 60 nautical miles south
of Kinshasa instead of 16. Otherwise
the two copies were pronounced by
state department officials as identical.

MORE CANADIANS FOR
ROYAL FLYING CORPS

War Office Will Accept Fifty
Additional Men for Active
Service at Front.

By a Staff Reporter.

OTTAWA, Sept. 10.—The war office

has notified the naval service depart-

ment here that it can take 150 men

for the British Flying Corps instead

of the 100 at first asked for. Some 40

or 50 men have graduated from the

aviation school in Toronto and have

gone to England to finish their train-

ing for active service. There is a

long waiting list of men eager to be

accepted and take the course at To-

ronto, but they are being carefully

selected, only those being taken who

are of high ability and who are

otherwise well qualified.

The prospect is that when the war

is over Canada will have enough train-

ed aviators to make a splendid flying

corps for the this country.

EX-PREMIER OF QUEBEC

IS DEAD AT MONTREAL

Sir Charles de Boucherville At-

tained Age of Ninety-

Three Years.

MONTREAL, Sept. 10.—The Hon.

Sir Charles Eugene Boucherville de

Boucherville, M.G., senator, former

legislative councillor, and formerly

premier of the Province of Quebec,

died here tonight at the age of 93

years.

Until recently Sir Charles took an

active part in legislative work and

the last sessions of the senate at Ot-

tawa, and the legislative council at

Quebec were the first he failed to at-

tend since he was a member.

From an authoritative source it was

learned tonight that not only had

Grand Britain and France com-

pleted a huge production in their

purchases here—in every line except

necessaries which they cannot buy

elsewhere—but that it had been de-

ecided that the reduction would be

the only alternative left them should

the commission fail in its mission to

the United States.

Five hundred million dollars is the

smallest sum which the commission

hopes to borrow. They would much

rather have a round billion, in view,

however, of the many difficulties which

lie in the way of floating a credit loan

in the business of handling

foodstuffs, preparing them, and selling

them.

An interesting incorporation is that

of Thomas Kelly & Sons, Limited, of

Winnipeg, with headquarters at Win-

ipeg and with a capitalization of \$1,

000,000. The firm of Thomas Kelly

was that which had the contract on

the legislative buildings there.

A new Toronto concern is the Uni-

versal Measuring Devices, Limited,

with a capital stock of \$50,000.

in Wayzata, near here last night.
