# PEACE OFFENSIVE WELL UNDER WAY

Speech of German Emperor Regarded as Insincere.

Washington, Sept. 12.—The German peace offensive is now recognized by officials here as being in full swing. A progressive campaign is clearly indicated to their minds by the apparently casual remarks by Baron von Hertling a few days ago, followed by the more formal statement to the visiting German newspapermen in Vienna by Count Burian, the Austrian foreign minister, the remarks of the German crown prince, and now the speech of Emperor William himself to the working people at Essen.

Peace proposals emanating from these sources would appear incongruous were the officials not firmly convinced of the insincerity of the movement, which again is recognized by continuous defension of the movement, which again is recognized by convinced of the insincerity of the movement, which again is recognized by convinced of the insincerity of the movement, which again is recognized by convinced of the insincerity of the movement, which again is recognized by convinced of the insincerity of the movement, which again is recognized by convinced of the insincerity of the convergence of the convergen Washington, Sept. 12.-The German

SMALL BOY STARTED FIRE. Montreal, Sept. 12.-A small boy with a match started a fire in the

yesterday was active and strong, with practically all classes of cattle in good demand at very firm prices. The run demand at very firm prices. The run was a light one, about 350 head, and with the insistent buying for anything of quality, the market was cleaned up early. Good butcher cattle are wanted, and the stocker and feeder trade is picking up, and the commission firms who specialize in this class of cattle say that the trade gives evidence of holding good and steady. Mikkers and springers are all right, and selling at from \$100 to \$140 apiece, according to quality. The common and medium class are selling at from \$60 to \$75 each.

The week thruout has been marked by more activity in the cattle trade than in a long time, the refreshing rains extending practically all over the province, having enormously improved the pasturage, and while it has had the effect of holding back the shipments of cattle, has been a godsend to the farming community as a whole.

The sheep and lamb trade is holding fairly steady, choice lambs selling yesterday from 17%c to 18½c, and good sheep from 14c to 15½c. Heavy sheep are selling from 10c to 12½c. There was a heavy run, nearly 1000 head.

Calves—The run of calves was light, 32 altogether. Choice calves are selling from 16%c to 17%c; good calves, 15½c to 18½c, but heavy fat calves are hard to sell, and are off from 1c to 1½c from the early part of the week.

The delivery of hogs was 696 with prices absolutely unchanged, 19½c fed and watered, 18½c to 18%c f.o.b., and 20c weighed off cars. A few lots sold as they always will at a little above and beyond this, but the bulk of the sales were made at this figure. was a light one, about 350 head, and

Analysis of the abstract of the emperor's remarks reported by cable fails to disclose any new feature; there is the same oft-reiterated denial of responsibility for the continuance of the war, and the same warning to the German people that the purpose of the enemy is to destroy them.
