"ALL HOT AIR," SAYS SENATOR EDWARDS

Who Strongly Criticized Commissions Dealing With Post-War Problems.

Ottawa, Feb. 17.—The tenth annual meeting of the commission of conservation, which will cover three days, opened yesterday morning with an address of welcome by Hon. Martin Burrell, secretary of state and minister of mines. Acting Premier Sir Thomas White, who was to have addressed the meeting, could not be present owing to a slight indisposition. The court was occupied by Senator F. E. Edwards. The reconstruction work being carried on was criticized by Senator Edwards. A lot of the commissions which had been established for dealing with the war problems, were, he said, "all hot air," and would do little good. A careful study of the national resources of the country, and a systematic development of them would do more to solve these problems than anything else. He could not agree with the previous speaker as to the value of the savings which had resulted from the war. It was as

nothing compared with the waste which had been caused. Mr. James White, assistant chairman, then read the report of the work of the conservation commission for 1918. The work in connection with lands, waters and water powers, mines, etc., was dealt with by Mr. White. He emphasized the fact that fuel shortages in the future were not a mere possibility, but a certainty, and that provision should be made for the fire prevention and conservation and wild life were also dealt with in the report.

ARE NOT BURYING SOLDIERS AT BONN

Permanent Resting Place to Be Decided at Peace Conference.

Ottawa, Feb. 17.—A recently published dispatch from Fred James, official correspondent with the Canadian Corps overseas, to the effect that Canadian soldiers who have died in Germany would be buried in a special cemetery in Bonn, has been the subject of enquiry by the director of public information here. In reply to a cable, the overseas authorities point out that the article was not intended to indicate that bodies of Canadian soldiers, buried in Germany, would remain there permanently, but simply to illustrate the care taken by the army of Canadians in enemy territory.

The permanent internment of the bodies of prisoners of war who died in Germany, is a question which affects all the allies and is a matter down for discussion at the peace conference. It had been announced that the bodies of Canadians who laid down their lives in the service of their country, on the western front, will be reverently collected and be buried to-

gether in cemeteries especially set aside by the French and Belgian governments.

GUELPH FLAX SPINNERS START BIG INDUSTRY

Guelph, Ont., Feb. 17.—The big plant of Flax Spinners, Ltd., of this city commenced operations today, and is producing wet-spun line yarns as sixty looms. These yarns, which are of a very superior quality, are being spun from Canadian flax, and are the first wet-spun yarns produced in Canada, and, as far as known, the first in America. The mill will commence operations of both dry and wet-spun yarns in the next ten days. When the balance of the equipment, now being manufactured in Belfast and Leeds, is installed, the plant will have a capacity of approximately 1,000,000 pounds of finished yarn per annum. This company is a subsidiary of Dominion Linens, Ltd., the plant adjoining their property.

CONDITIONS IN RUMANIA REPORTED AS NORMAL

Berne, Feb. 18.—Dr. Flonder and Capt. Radu have arrived as members of a mission from the Rumanian government. They report that normal conditions are being resumed and that work is beginning again in Transylvania, where there is not nearly as much distress as in Rumania. On the other hand, they say great difficulties are being caused by the attitude of the Hungarian government, which appears to be almost as reactionary as its predecessors, and is attempting to cause trouble to the Rumanian, Czech-Slovak and Yugoslav governments.

BAVARIAN GOVERNMENT IS FACING A CRISIS

Berlin, Feb. 17.—The Bavarian government of Premier Eisner is faced with a serious internal situation, according to dispatches received here. The Munich correspondent of The Lokal Anzeiger says that the garrisons in Munich and Nuremberg are recruiting troops for the express purpose of opposing Eisner, his Spartacist and Independent Socialist followers, and the soldiers' council. The Munich soldiers' council has issued a demand that the recruiting be stopped, and that the Bavarian war minister be made subject of its executive committee. The same report declares that the

SPARTACANS WHO ARE TEMPORARILY IN CONTROL AT NUREMBERG, WILL BE THROWN OUT BY TROOPS BROUGHT IN FROM THE OUTSIDE IF NECESSARY.

A Munich dispatch to The Vorwaerts says that a solution of the government crisis cannot be delayed longer.

LENINE FOR CONFERENCE; TROTSKY IS OPPOSED

Stockholm, Feb. 18.—Serious differences of opinion have arisen between the Moscow soviet, headed by Premier Lenin, and the Petrograd soviet, headed by Leon Trotsky, over the allied proposal for a conference on the Princes' Islands, according to a despatch from Helsinki. Lenin, it is said, wishes to accept the invitation for a conference on account of the economic situation of Russia, which is declared to be hopeless. Trotsky at Petrograd is declared to be of the opinion that the occupation of the Ukraine offers the possibility of food supplies for the soviet government. Trotsky, who is minister of war, is sending all available troops into the Ukraine. A Russian wireless despatch received in London and Paris on Feb. 6, and signed by Foreign Minister Tchitcherin, said that the Bolshevik government had accepted the invitation to the Princes' Islands conference.
