service. H. Penick, prop. 4912

## Melotte Cream Separator.

Farmers, don't fail to see the famous  
"MELOTTE" Cream Separator, on ex-  
hibition in the building. The recog-  
nized king of all cream separators, it  
gives greater profits with less labor,  
skins 20 per cent more cream, gives  
warm and sweet milk, prevents ac-  
cidents in calves, filters milk and removes  
all bacteria and other disease germs.  
In fact, the notable success obtained by  
this cream separator in beating all  
other competitors in all the different  
nations of the globe is a sufficient  
guarantee of its excellence, and our  
courteous and obliging manager, Mr.  
S. A. Listen, will be pleased to give  
Exhibition visitors every information.

## A New Invention.

A wonderful new invention that is  
controlled by the St. Thomas Acetylene  
Gas Manufacturing Co. of St. Thomas,  
Ohio, is now on exhibition. It is a  
water exposed to the atmosphere.  
Possibly no odor or waste of gas, in-  
stead of explosion. Must be the gas  
you use it. No gasometer. Cannot  
freeze. Low price. Highest city and  
country references. Immediate deliv-  
ery. Prices for table, machines, heat-  
ers, stoves, etc., furnished by the man-  
ager at implement building. 623.

Exhibition visitors see the beautiful  
display of buggies and cutters manu-  
factured by the Stephenson Carriage  
Co. of Canmington in the centre of  
the carriage building. Honest dealing,  
superior work, secure materials and  
honest prices have placed this company  
at the front ranks. First-class equip-  
ment employed, 6 and 8 Rebeca-street,  
off Dundas, near Queen. 523

Exhibition visitors and citizens don't  
fail to see, at his old stand, W. P.  
O'Donnell, of the Public Works Department,  
and Arthur E. Kendleton, of  
Hamilton. The ceremony was per-  
formed by Rev. Dr. Tracey, and was  
witnessed by a large number of friends.  
The wedding march was played by  
Miss Le Maitre, and Miss Annie Foley  
rendered an appropriate solo. The bride  
was assisted by Miss Blanche O'Donnell,  
and John Hancock officiated as  
best man. Mr. and Mrs. Kendleton will  
spend their honeymoon in a trip to the  
"Thousand Islands."

**Brown-Barber.**  
A very pretty wedding occurred at  
the Sorabau-avenue Methodist Church,  
Nelson J. Brown of Midland and Miss  
Agnes Barber of Waukegan, were the  
contracting parties. Rev. Thomas Dun-  
lop officiated. The happy couple left  
for Buffalo, and will make their home  
in Midland upon their return.

**Wyld-Darling Co., Limited.**  
We direct our readers' attention to a  
cut of the warehouse occupied by Wyld-  
Darling, Limited, in the advertising col-  
umns. This company has increased its  
warehouse space 50 per cent, during  
the past year, and the able and effi-  
cient manager of the company (Mr.  
Andrew Darling), Glasgow, is in the  
leading factor in the success of the  
company is the thoroughness of the  
systems under expert management in-  
augurated and directed by the man-  
ager, which has resulted in the com-  
plete and ready for operation, in every  
aspect of customers, and to be polite and  
civil, rendering to all "the best service  
possible." The company's representa-  
tives cover Canada from the Atlantic  
to the Pacific. Since the opening of the  
Exhibition every member of the staff  
has been working at high pressure, and  
car loads of merchandise have been  
shipped.

**Implement Makers Meet.**  
The implement section of the Cana-  
dian Manufacturers' Association held  
their annual meeting on Monday after-

chairman, Harry Cockshutt, Brantford;

**Straw Board Berry Boxes.**  
In reference to the different methods  
of shipping berries and other perish-  
able small fruit Alva E. Grimsom,  
fruit grower, exporter and postman,  
Prince Edward County, says: "I have  
been actively engaged in growing  
and shipping all kinds of fruit for  
twenty-five years. I think I know what  
I am talking about when I say that the  
straw board berry box is the best for  
putting a berry basket on the market  
that is destined to completely do  
away with all previous methods of  
shipping berries, and their exhibit in  
the agricultural hall is interesting to  
grower and shipper."

**Gas Fitting Manufacturers.**  
The James Morrison Brass Manu-  
facturing Company, Limited, have an ex-  
hibit in the electrical building that is  
decidedly well worth seeing. The  
industrial side of the Exhibition has  
no better attraction on the grounds.  
Their display of manufactured goods,  
particularly of electrical building ma-  
terials, is a fine example of the progress  
in this line. There is a marvel  
about the products of this well-known  
manufacture that commands them to  
all purchasers. The engineers and  
plumbers' supplies of most favor-  
able through the trade and their  
name on anything is a guarantee of  
its worth. At their display on the

of the monster whale captured in  
Montreal harbor last November is on  
view. From the tourist's point of  
view, it is a splendid specimen, and to  
the casual spectator it will be found to  
be intensely interesting.

## Attractive Offerings of Women's Cloaks

The news is about sample Cloaks, Jackets and Ulsters—nearly three hundred of them—and a more tempting assortment we've never had for you. These sample garments are the product of two of the foremost manufacturers in Berlin, Germany, and represent the leading styles for Fall and Winter. Being samples we, of course, bought them under value—as a matter of fact they came to us at next to half price. A very pleasing feature about this lot of sample garments is the splendid size assortment, ranging from 34 to 40 bust. Here are the details:

**Garments, \$5.**  
Women's Stylish Tailor-made  
Jackets, lengths 24 to 30 in.,  
box backs and half-fitting  
styles, a few close-fitting,  
double-breasted, and with  
mercured satin, velvet and  
silk, and some in shades of  
fawn, dark Oxford, black,  
regular \$8.00 and \$10.00 jackets,  
Wednesday, 4.00.

**Garments, \$8.**  
Women's Three-quarter jackets,  
of fine beaver and homespun  
cloths, semi-fitting and box  
backs, silk serge lined, storm  
and coat collars, belt and  
sleeves, finished with rows of  
fine stitching, shades of fawn,  
Oxford and black, regular  
values up to \$15.00,  
Wednesday, 8.00.

**Garments, \$10.**  
Women's Attractive Three-  
quarter jackets and Long Ul-  
sters, of cheviots and fine Eng-  
lish heavy cloth, semi-fitting  
and box backs, velvet and  
silk, and some in shades of  
fawn, Oxford and black, regu-  
lar \$20.00 and \$25.00, on  
sale Wednesday at 12.00.

**Garments, \$12.**  
Women's Handsome Three-  
quarter jackets and Long Ul-  
sters, of English beaver and  
cheviots, satin lined, double  
front, box backs and semi-  
fitting shawl and coat collars,  
velvet and silk, and some in  
shades of fawn, Oxford and  
black, regular \$25.00 and  
\$30.00, on sale Wednesday at 12.00.

**Rich Silk Velvets 50c Yard.**  
Here's an item that will stimulate velvet buying to a  
wonderful extent. The offering amount, of course,  
come at a more advantageous time for you, because  
the velvet season is just approaching. There's a  
splendid range of colors—navy, cardinal, garnet,  
scarlet, brown, and heliotrope—in 13.5  
there's not a good shade missing. Then there are  
twenty boxes of black—about 500 yards—a rich, lust-  
rous black. These velvets are suitable for millinery  
and dress trimmings, worth 75c and 85c a yard,  
on sale Wednesday in the basement, at per yard, 50.

**Alaska Sable Scarfs, \$5.**  
The manufacturer had only twenty-one of these Scarfs—  
all that were left of several hundred made up to sell  
special at \$8 each. We thought if we could get the  
little lot to sell at \$5 each that we would be doing a  
good turn to twenty-one customers, and made our offer  
publicly, which was accepted. We wish the quan-  
tity could be quadrupled—yes, three or four times  
over, for we could easily sell 300 of these fur scarfs at  
\$5 each—made of Alaska sable, full and fluffy shaggy  
collars, Alaska sable tails—worth \$8, on sale  
Wednesday, fur section, each \$5.00.

## HAIR AND BRAINS

Are after all very closely allied.  
The one is on the outside and the other is on the inside of a man's head  
The one helps his appearance—the other makes his success in life.  
To go further. A man's appearance counts very largely nowadays in  
his fight with the world, and if he lacks half  
of course his appearance suffers proportionately.

We cannot supply a man with brains, but  
we can with hair.  
We can fit any gentleman who has lost his  
hair and would be the better of a toupee with  
an article that is made to resemble nature so  
closely that after it has been worn for a week  
or so even the wearer forgets its presence.

A strong statement, but one we are able to back up.  
If you are interested we shall be glad to demonstrate to you privately in ten minutes that  
our statement is correct, and that a toupee will remove from ten to twenty years from your  
appearance.

**PEMBER'S, 127 and 129 Yonge Street**

grounds samples of the various pro-  
ducts of their factory are shown, the  
whole forming an exhibit of excep-  
tional interest. Anyone who con-  
templates the installation of modern, up-  
to-date fixtures in his or her home,  
plumbers who would be abreast of the  
times and architects who wish to please  
their clients, would all do well to call.  
Courteous attendants are constantly in  
waiting and are happy to furnish  
all information. The company's city

premises are at 80 to 97 West Ade-  
laide-street. An American visitor who  
is engaged in brass manufacturing  
saw Messrs Morrison's exhibit on Mon-

ration of it. He was more than sur-  
prised, he said, at the splendid work  
he saw, and added that it was the  
equal of any he had ever seen, and
