## FIRE NINE WORKINGS

## ALL HOPE IS ABANDONED

Fate of More Than 300 Miners is Sealed—200 Widows and 1000 Orphans Mourn.

CHERRY, Ill., Nov. 15.—The three hundred or more miners who were trapped in the St. Paul coal mine by the last Saturday's fire are dead. Some of the bodies lie buried beneath thousands of tons of earth which came down upon them, and it is doubtful whether many of the bodies can ever be recovered.

This was the opinion expressed tonight when rescue work was temporarily abandoned. Plans employed in an effort to carry fresh air and life down to the imprisoned men served only to enliven some embers which sprang into flame. Soon the heat and smoke became so dense that it was necessary again to seal the mouth of the hoisting shaft.

Rescuers descended four times into the hoisting shaft to-day, on one occasion, 300 feet to its bottom. Then groping their way with electric lamps and kept alive by oxygen carried with them, they penetrated 150 feet into the bottom of the gallery. But none of the miners, dead or alive, were found.

As a result of the disaster there are in this town of only a few hundred inhabitants at least 1000 orphans and 200 widows. The St. Paul Coal and Coke Lodge, the most important organization in town, had a membership of 75 last week. To-day there are only six left.

The United Mine Workers' executive have ordered \$5000 to be contributed to the relief fund at once.

## MANGLED BY CAR

Essex Woman Killed in Caring for a Grandchild.

WINDSOR, Nov. 15.—(Special.)—Anxiety for the safety of her grandchild tempted Mrs. Charles Bartosh of Essex to sacrifice her life this evening.

As she heard one of the big cars in operation on the Windsor, Essex, and Lake Shore Railway approaching, she ran from her home near the Town of Essex, and crossed the tracks, fell in front of the car. She was mangled almost beyond recognition. She was forty-eight years of age, and the wife of a farmer.

## IN MEMORIAM.

DOUGLAS—In loving remembrance of Alonzo Wilbert (Lonnie), beloved son of Mr. and Mrs. Matilda Douglas, who died Nov. 16, 1908.

Dearest Lonnie, one year has gone, but our love for you is still the same.

None but loving hearts can tell. Friends may think the wound is healed, but they little know the sorrow lies within our hearts concealed.

Day by day we miss you more, and gently sink away.

Yet often in our hearts we pray, that you might longer stay.

That you might longer stay, and that you might longer stay.

So good a son, so kind a brother, so good a son, so kind a brother.

## MR. WHITNEY'S SUCCESS.

The Big American Owner Proposes to Continue His English Campaign.

Harry Payne Whitney, who, all things considered, has done phenomenally well in England this year, stands seventh in the winning list, with upwards of \$45,000 to his credit, evidently proposes to keep up the campaign, for he has just shipped across the water twelve yearlings by Ham-burg, ten by Landingham and Mr. Corrihan's good horse Riley. All are well engaged in English stakes to be decided in 1910, and which have been well tried before shipment. They do not by any means deplete the crop at Br. Withers' old farm, Brookdale, and later Col. Thompson's, but, on the contrary, there are a score of good ones left that are expected to worthily represent the stable in America next year. By the way, Irving H. Whitney, who has been prominently to the fore this year, has been in Europe looking over the ground, and it is said, has some idea of making a venture in racing thenceforward.

## GRAIN STEAMER'S ESCAPE

Cargo Shifted and Ship Nearly Turned Turtle.

PORT ARTHUR, Nov. 15.—(Special.)—The steamer Glenmound had a very narrow escape from disaster last night. She left for Port Arthur yesterday with a cargo of grain, and when about 20 miles outside Passaic Island, the ship was encountered by heavy seas. Going into a trough, she rolled badly and the grain shifted to such an extent as to give her a list of seven feet. She managed to turn around and came to port this afternoon after the cargo trimmed again at the elevator. The steamer was also covered with ice.

## The "Wizard" for the North-West.

A representative of The Wizard Fur Co., Limited, of this city, leaves shortly for the north-west, to the celebrated "Wizard" stoves. This is in response to urgent and persistent demand for the Wizard stoves, and at other points, where they must "see for themselves" if it is really true that a stove has been designed and made that will successfully resist the use of smoke or gas, burn the common soft coal and lignite which is to be had in many places for little more than the cost of loading and hauling.

The fuel question in the west is a most serious one. The cost of hard coal is prohibitive, and from ordinary sources mentioned, which is abundant, has been considered as unburnable in a stove. The Wizard will therefore be a boon to the homesteaders and firebrands of our great and growing prairie provinces.

## Door is Still Open.

WASHINGTON, D. C., Nov. 15.—The reason why the United States has not yet taken any action to the operation of coal mines along the South Manchurian Railway and the Antung-Mukden Railway, is that the United States does not want to create monopolies, and hence are not violations of the open door. This is the conclusion reached by the United States State Department.

## BIG STEEL-COAL-MERGER MENACE TO LABOR UNIONS

Glacé Bay Strike Endorsed by A. F. of L.—Assistance to Illinois Miners.

The afternoon session of the A. F. of L. yesterday was devoted to the adoption of the resolutions which have been in the hands of the various committees appointed for their consideration.

Previous to the adoption of the resolution endorsing the strike of the U. M. W. of America, at Glacé Bay, N. S., Delegate P. M. Draper of Ottawa said that the members of the U. M. W. had determined to strike the road to Cobalt and the Dominion Coal Company. He characterized the amalgamation of the Dominion Steel Company with the former corporation as the greatest menace to the interests of organized labor in Canada. He expressed his gratitude to his fellow unionists of the United States for their assistance, for he realized that without that help the local unions would have been annihilated.

The resolution meant much to Canadian organized labor. He was a Canadian, and thoroughly loyal to Canada, but he had no use for the cry of "Canada for the Canadians." If that phrase meant long hours and starvation wages, he would not be a Canadian. He urged the convention to endorse the resolution urging assistance to the United Textile Workers in their efforts to improve the conditions of the workers. He also endorsed the appointment of Joseph Alney as organizer of the A. F. of L. in the Province of Quebec.

Delegate John Kelly of San Francisco declared that the United States Government enlarge the Chinese Exclusion act and prohibit the entry of Asiatics from landing in the United States.

## Most Powerful Enemy.

By the adoption of the resolution yesterday the convention of the A. F. of L. declared that the United States Steel Corporation was the most powerful enemy of organized labor. This resolution was contained in a partial report of the organization submitted by Delegate Perham, and it stated that the corporation was waging a war with a view to the destruction of organized labor. As strikes of the affiliated organizations were pending, the resolution asked the executive committee to consider and plan organization among the employees of the Steel Corporation, and the delegates to the convention to endorse the resolution, pointing out that the corporation had about 100,000 employees, and of these 20,000 were still unorganized.

## Organized Farm Laborers.

The question of organizing hired men on farms was discussed, and also the proposition met with considerable opposition. It was finally decided to prove of the resolution to have organizers go among the farm laborers. Included with the farm hands will be unskilled workers. Regarding the proposition, Delegate Tanguay thought that such a step would be infringing on the Farmers' Union, and that the A. F. of L. should not start a dual organization.

There is no class of labor in the United States that has more experience of "overworked and underpaid" as the hired men on the farms, and when they are organized they will have made the greatest step in organized labor that has yet been made.

The "Pavers' Union" presented a resolution to affiliate the Blue Stone Cutters' Association with the A. F. of L., with his organization. The resolution was adopted, and the matter was finally referred to the executive committee for consideration and action.

The convention approved of Delegate John Manning's resolution, asking the executive committee to have organizers go among the custom laundry workers. It was suggested that women organizers be appointed.

## Voice \$5000 to Sufferers.

President T. L. Lewis of the U. M. W. has authorized the use of \$5000 from the national fund to be used for the immediate relief of the families because of the coal strike, and from which he will contribute \$5000 to pay the cost of the strike.
