**NO SUCH CURE
SAYS B. BONIFACE**

Denies Any Benefit to Neuritis From Hickson, the Healer.

A report in an evening paper to the effect that a Ben Boniface of Mass street has been cured of neuritis, thru the spiritual efforts of Mr. Hickson, was emphatically denied last night by Mr. Boniface himself in an interview with The World.

The evening paper in question states the cure was so pronounced that a man who has been laid off for three months is now able to return to work. Mr. Boniface, however, stating that he has not been cured, is not able to start work and that no improvement that has taken place is due to the ministrations of his doctor and not those of Mr. Hickson. He went on to say that he had been slowly getting better for several weeks before Mr. Hickson's arrival and that he has improved no faster since the "laying on of hands."

Mr. Boniface is still receiving treatment at Davisville Hospital and says that he has nothing to say against Mr. Hickson, but believes in giving credit where it is due, and in this case it is due to the Davisville authorities. "The Telegram man," concluded Mr. Boniface, "would know if I were cured if he could feel the pain in my left elbow."

**HOME SMITH FETES
WOMEN'S PRESS CLUB**

Toronto scenery at its best was enjoyed by a large number of the Women's Press Club, who last night enjoyed the hospitality of Home Smith at the Old Mill tea room. The party drove out in motor cars and arrived at the pretty grounds exploring was in order. The background of history was nearby, in the shape of the Old Mill, the great stone walls of which, standing intact, were picturequely festooned with ivy. The wooded banks of the Humber and the winding stream upon which the mill was built, and a row of willow trees, were all part of the attractions. Bouquets of wild flowers were gathered before the members sat down to a delightful tea, which was thoroughly enjoyed by the party, who were unanimous in expressions of enjoyment and appreciation for the outing.

**O. T. A. SUPPORTS
BOOTLEG INDUSTRY**

So Says J. D. Flavelle, Chairman of the License Board.

"No, we have no more information about that Detroit case than was afforded us thru the press," was the quick reply of J. D. Flavelle, chairman of the board of license commissioners, to a query of The World respecting the alleged haul of ten thousand cases of gin and rum, which was reported to have been seized at the Detroit border. Flavelle said that he was instituting full inquiries in the matter, and hoped to have fullest information very shortly.

"There is no doubt that this traffic is rampant on both sides of the border and will remain so until the act is amended," said the chairman of the board. "As matters stand liquor may be imported into Ontario under law, and thus protected by Ontario law, bootleggers of every description naturally take every advantage of the situation."

Investment Involved

Is indeed small compared to the results (which are very gratifying).

Just imagine, only a Heaping Teaspoonful in a Dishpan of Warm Water will wash up the Dinner Dishes, the Pots and Pans, and make the glassware sparkle.

DINNER AND DANCE.

A most enjoyable private dinner and dance was held at the Albertonia Hotel on the Toronto-Hamilton Highway, on Thursday evening last. The occasion was an entertainment of the traveling staff of Debenhams, Canada, Limited, wholesale dry goods and silk warehouse, Toronto, together with other friends.

A sumptuous chicken dinner was served, and after songs and speeches, the party retired to the well appointed dancing pavilion, where music was furnished by the Ashton Orchestra, and dancing was indulged in until 12 o'clock. The affair was most enjoyable and much credit is due the host and hostess of the Albertonia for their attention in providing everything possible to make such gatherings an unusual success.

The honorary governors who will visit the Toronto General Hospital during the week commencing on July 11 are: Robert S. Gairly and Thomas B. Greening.

FELL FROM SCAFFOLD.

Falling from a scaffold in the old Red Triangle Club building, Victoria and Richmond streets, yesterday afternoon, W. Cameron, 119 Chester street, sustained a dislocated shoulder. He was removed to St. Michael's Hospital in the police ambulance.

SAVE THE CHILDREN

Mothers who keep a box of Baby's Own Tablets in the house may feel that the little ones are reasonably safe during the hot weather. Stomach troubles, cholera infantum and diarrhoea carry off thousands of little ones every summer, in most cases because the mother does not have a safe medicine at hand to relieve these troubles. Baby's Own Tablets are especially safe for children, as they contain no harmful drugs, and are guaranteed by a government analyst to be absolutely harmless, even to the youngest of infants. They are especially good in summer, because they regulate the bowels and keep the stomach sweet and pure. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Company, Brockville, Ont.

THE TORONTO WORLD
**PROTEST AGAINST
MILITARY DRILL**

Women's Organizations Out To Stop School Children Taking It.

The Women's International League for Peace and Freedom is sending a letter to Canadian women which is described as an appeal to the heart and brain. The letter follows in part: "The war's heritage of horror for little children is indeed a terrible one, but we have another and a more fatal heritage from the war—a heritage of hatred, a hideous thing which is breeding intolerance and brutality, handicapping human progress in many and varied ways and steadily preparing the way for future wars."

"It has always been the privilege and the duty of women to stand for comfort and to care for humanity; therefore it would seem that the efforts to change this spirit of hatred into a spirit of understanding must surely be our immediate duty."

"Let us help in the work of true reconstruction by seeing to it that the children of Canada are trained, first of all, to respect human life and to this end we should protest against military drill in our schools, because it places emphasis on might and not on right—we should urge instead a system of physical training which will benefit girls as well as boys; also we should discourage the teaching of anything which tends to rouse hatred or scorn for other peoples."

"The action of the women of Central Europe who have asked their governments to prohibit military drill in military toys, such as tin soldiers, submarines, etc., might well be followed by us, and a campaign against the purchase of such toys in the meantime, would be of educational value."

Alderman Risk Anxious to See Isolation Hospital Completed.

More public ownership—the municipalization of the milk industry in Toronto. This is the proposal of Alderman Risk, as made at yesterday afternoon's session of the board of health. The suggestion arose out of the discussion of the subject of milk, which was held by Dr. Hastings, as information given out in the M.O.H.'s monthly report, to the effect that de-hydration of milk, and had been found at least as good as the ordinary stuff, and far healthier. Dehydration, he said, would become the fashion of the morning.

The M. O. H. also mentioned the cause of hospitalization of those suffering from communicable diseases, as against the tendency of many families to keep their invalids under eye and care at home.

Board Favors Danforth.

The board will confer with the board of control relative to proposed sites for the new isolation hospital for Toronto. The board evidently favors the site on Danforth avenue, and Ald. Risk stated that he would not accept the site on the stage, which is at the corner of Broadway avenue and Gerrard street if it was offered as a gift. "Because," he said, "the isolation hospital is finished before he died. There was no sign of this at present, especially in view of the fact that the police department would have to find new quarters before the hospital was opened over to the board of health. Also the buildings at the jail farm were unsuitable, in that they did not admit of sufficient sunlight for all the dormitories."

**VICTORIA PARK FINE
RESORT FOR PUBLIC**

On Monday next the waters of the Niagara will surge once more about the Dufferin Islands. The construction of one of the power company's intake works into the river from this part of the Niagara Falls park system. The park commissioners took advantage of the opportunity this afforded to make some necessary improvements with a view to the public welfare. There is to be a sandy bathing beach for the young people and later on a Venetian gondola fleet on the lower ponds among the islands.

The Dufferin Islands were so called after the distinguished governor-general of Canada, who first advocated in public the throwing open of Niagara's attractions to the public. As a result of his appeal the governments on both sides of the river bought out the concessionaires, who used to rob all comers. It should be added that the park commissioners have taken on the Venetian gondola fleet, which will attract a great deal of interest, as will also the gold fish which are to be placed in the pond in the near future. Island Pond, in the same park, is undergoing improvements designed to make it more attractive.

BADLY HURT BY AUTO.

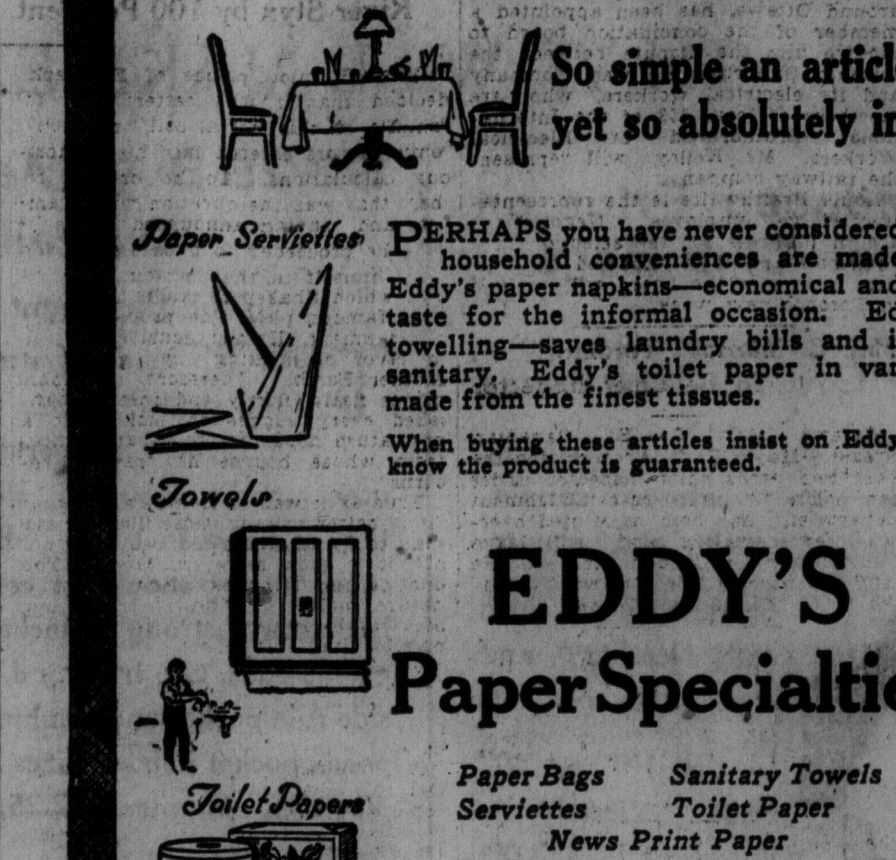

Struck by an auto at the corner of College and Bimewick streets last night, Alex. P. Schreiber, 317 Augusta street, sustained a fractured leg and head injuries. He was taken to the Western Hospital in the police ambulance. Heretofore, R. McLean, 34 Scarboro avenue, the driver of the auto, was not held by the police.

"Daddies"—Robins Players. Play fair with your public and your public will play fair with you; this is the motto of Edward H. Robins, who, thru the years has been at the head of the Robins Players, has striven to give his patrons the very best in the entertainment field. That he has met with success is proven by the crowded houses that greet each and every performance, and during the past week the sale of seats has been so large for "Daddies," the David Belasco comedy which he has been offering, that it has been decided to continue this play for one more week, commencing next Monday evening. The same great cast that has been appearing in the play will again be seen each in their original roles. Tom Wise, of course, will be the cynical bachelor who decides to adopt a baby because the other members of the bachelor club do. Edward H. Returned Men and Labor Men Uniting, Says Prominent Laborite.

Harry Kerwin, president of the Canadian section, Metal Trades Department of the American Federation of Labor, who left yesterday afternoon for an extended trip into western Ontario and Michigan, stated to The World that the needs of labor had been met this year with less contention between the workers and the employers than had been the case in several years. He knew of only two strikes among the metal trades, barring the iron molders, during the week ending last night. One of these was at London with the firm of George White & Company, employing 187 men. These had been out only two days, and gained an increase of 14 cents an hour after the wages received before the strike, which were 71 cents an hour. They were, therefore, now receiving 85 cents an hour.
