## THE SUNDAY WORLD INTERVIEWS

tions by bankers, and others, that the severe business depression that set in about the middle of 1913 would soon be over; that Canadian industry would soon recover the ground it had lost since the close of 1912, owing to the stringency in themoney market.

What has happened? Spring is here. This is the season when men are naturally optimistic, and look hopefully forward to better things. Now, if ever, there should be evidence of better things in store for the manu- that if officers are given the chance of facturers, the workmen, and the several millions in general who make up the population of Canada.

In an effort to ascertain exact conditions, The Sunday World has interviewed the men in Toronto who are most in touch with the situation, and their opinions follow:

Firstbrook Box Co., is the head of a provement as time goes on. The ncern that manufactures boxes for manufacturers have evidently advarious large companies. When gen- opted an atitude of conservative operal business is good, many boxes timism. Everything depends on this are required, hence the box indus- year's crop in the west.
