

THE EVENING TIMES, ST. JOHN, N. B., MONDAY, AUGUST 14, 1906.

CALENDAR

Of Temple of Honor and Temperance of N. B.

Victoria No. 2 meets every Tuesday at 8 p. m. in the Temperance Hall...

THE WEATHER

Forecast—Moderate to fresh wind to north west, fine and a little colder today and Tuesday.

LOCAL WEATHER REPORT AT NOON

Highest temperature during past 24 hours 74. Lowest temperature during past 24 hours 64.

THIS EVENING

Quincy Adams Sawyer, at the Opera House. General meeting of the city laborers at Beryman's hall.

ADVERTISERS PLEASE TAKE NOTICE

That all copy for Saturday's Times must positively be in before 8 a. m. We are perfectly willing to change ads as requested, but we will be unable to handle changes received after 8 o'clock.

Local News

Donaldson line steamship Concordia from this port arrived at Greenock Saturday morning.

Mrs. Fannie Barron Mahoney left on the steamer Prince Rupert for Halifax this morning.

Friends of Gilbert R. Willet will be sorry to hear that he is dangerously ill at his home, Westfield.

Battle line steamer Pydna arrived at Sharpness last Saturday at 2 p. m. from this port with a cargo of deals.

Steamship Pontiac, Captain Meikle, arrived in port yesterday from Glasgow in company with the Queen of Kings.

George Robertson, M. P. P. spoke to the House for Ottawa last night, when he will meet the government members on Wednesday in respect to matters concerning the St. John Dry Dock Company.

The officers of St. David's beaver corps meet this evening in the school room at St. David's church to discuss business with reference to the commencement of drill. The meeting is called for 7 o'clock.

Dry goods sold at half-price at the big clearing out sale at the Walter Scott store. King square. Heavy dress goods, ladies' corsets and men's wool and fleece linens, shirts and drawers. See them at once.

In the golf match on Saturday between Woodstock and St. John, the local players were the victors by a majority of 16 holes. St. John had 28 and Woodstock 12. In the afternoon, foursomes were played to fill in time and the visitors won by one up.

The "Quincy Adams Sawyer" company, which is to appear in the Opera House tonight, has arrived in the city. Manager Adam, who is stopping at the Lansdowne, may be remembered by many St. John people, as he appeared here about twenty years ago in the Mechanic Institute.

The United States four-masted schooner Annie, 212 tons register, net, Captain Wall, arrived today from New York in ballast. This is a beautiful vessel. She is berthed at Lewiston wharf and will take away a large cargo of lumber for a United States port. She is consigned to Stearns, Guller & Co.

Allan Worden, the C. P. R. foreman who was so badly injured in the collision at Bay Shore on March 23, was yesterday removed to his home from the hospital, where he had spent nearly five months, when both his legs were broken in the collision, and one foot was so badly crushed that two of his toes had to be amputated.

Commencing at 7 o'clock tomorrow morning on the ground floor of M. R. & A's Germain street building will be shown a collection of carpets, cloths, linens, rugs, matting, etc., to be sold at rapidly clearing prices. There will be no reserve. Goods plainly priced. With full house cleaning coming on this is a grand opportunity to renew floor coverings at cost.

ANXIOUS TO DIE

Fotis Stora, the Greek who attempted suicide some time ago, and as a result was treated at the hospital for a short time, was yesterday found in a pitiable condition by Officer Thomas Sullivan in the same alley in which he attempted to end his life. The charge against him is vagrancy.

For some time Stora has expressed the desire to end his life, and when arrested yesterday morning between ten and eleven o'clock said he intended burning his clothes after which he would make off to the woods to die. This information was gained through an interpreter, Chris, Nicholas.

Food was given the poor fellow, but he refused to eat. In all probability he will be examined for insanity today.

HAMPTON VS. FRANKLINS

Hampton's best baseball nine seems to be the only substitute team of the season. On Saturday the Franklins from the winter were tried for the second time to lower their colors, but the task proved too much for their strength. Hampton winning an easy victory, 12 to 2.

The feature of the game was the pitching of Seely for the Hampton.

NEWS FROM NORTH END

Many Went to Bayswater

That Bayswater is growing to be one of St. John's favorite summer resorts is evidenced by the fact that over six hundred people went to that place yesterday.

On two trips the horses had to be taken out of the shafts of the carriage and driver of the bus were obliged to go with the three small hotels were only able to send twenty people at the table on each.

The bus service to Milliderville could be greatly improved upon. Last evening many were obliged to stay there until 9.30 before they could get a drive to the city. There were only six buses and five carriages on the route last evening, and with such a limited supply of vehicles it is difficult to drive hundreds of people to the city before 9.30 o'clock.

LOST A HORSE

James Smith, Liveryman, Let Out a Horse and Buggy Friday and Has Not Since Seen It.

James Smith, who conducts a livery stable on Sydney street, is missing a horse and buggy, since Friday afternoon.

Herbert Watcott, who is said to belong to Fort Howe, stated that he would be glad to see the horse and buggy, and that he is ready to have seen at any time.

Friday evening he failed to return the horse, and the police were notified. A sharp lookout was kept, but to no purpose.

Mr. Smith stated that he had seen a man and a negro in possession of a horse, which he described as being a bay horse with a white blaze on its face, and a white saddle blanket.

Mr. Smith and one of his sons, on learning the information, set out for the place where his rig was last seen, but their drive was without success.

Watcott had been for ten days employed at Mr. Smith's livery stable, and he stated that he had been absent from the stable on Thursday night and collected about \$100, but did not return with the money to the office.

Friday morning he went to work, but stayed only ten minutes, stating that he would soon return. That was the last Mr. Smith saw of him.

Watcott is said to be a married man. He is described as smooth-faced, rather good looking, of medium height, and of a well-to-do appearance.

The missing horse is a small bay mare with a white blaze on its face, and a white saddle blanket.

HONEST AND CLEANLY

These Qualities and Its Humor the Chief Charms of "Quincy Adams Sawyer."

A prominent American dramatic critic concluded a recent play review with this sentence: "If a wholesome, honest, cleanly play that alternates pathos and laughter with galling gun rapidly is what these men want, they will go to see Quincy Adams Sawyer, and it is quite evident they are going."

In these few words he summed up the facts and the reasons thereof that epitomize the success of the great rural play that for three years has been touring the country to record-breaking houses every where.

The great masses of the people want that drama to be wholesome and cleanly; they leave the highly seasoned dramatic pabulum to the so-called society school where they want no "problemas," no suggestive discussions upon topics that, outside the theatre, are not discussed in public.

"Quincy Adams Sawyer" gives them an honest story of wholesome people told brightly and with great human interest. The pathos is of the decent sort and is never overdone. The fun, while fine and funny, is always cleanly.

In addition the play is given the most complete and elaborate production possible to the modest stage. The company has been selected with special reference to the fitness of the players for the work they are to perform and the reasonable shows that completeness which is welcomed by theatregoers.

When the play is seen here at the Opera House tonight, the proof of all these statements will be so self-evident as to be indisputable.

OBITUARY

Miss Gertrude A. Leighton

Miss Gertrude A. Leighton died on Saturday last at the residence of her husband, Mrs. R. D. Clark, No. 28 Wright street. Deceased had been ill for about three months and three weeks ago arrived in this city from her home in Malden (Mass.), in the hope that a change would prove beneficial.

Her mother, one brother and one sister survive. The former makes her home in Malden but is in this city at present. The latter is Miss Mary M. Leighton, of St. John, and the brother, Mark F. Leighton, of A. L. Goodwin & Co. Deceased was the niece of E. A. Goodwin.

Mrs. Robt. C. Thorne

Mrs. Robt. C. Thorne, second daughter of the late R. W. Thorne of this city, died in Chicago yesterday. She is survived by ten children, six girls, and four boys.

Mrs. R. W. Thorne, mother of deceased, is living in this city, as are also the following sisters and brothers: Mrs. W. F. Fleming of Boston, Mrs. E. C. Knowles of Boston, Mrs. J. W. Snider and Mrs. James S. Marne, and R. Ward Thorne, Stephen S. Thorne and J. L. Thorne of Thorne Brothers.

SAN TOY'S SUCCESS

San Toy, who comes to the Opera House Tuesday, is again duplicating former success. The cities are again singing the praises, and it is no wonder for it is one of the cleanest, jolliest and liveliest comedies that has ever satisfied the masses.

Never does it bring a blush, but instead creates laughter that is infectious. San Toy as presented here by John C. Phelan, will have the benefit of an exceptional strong cast and in the mounting will present stage pictures which for artistic value have not been equalled in any previous production of musical comedy.

The story of San Toy tells how Yen How, a Mendocino, to save his daughter from an emperor's harem rears her as a boy. An episode in the story is that the emperor, San Toy, falls in love with an English officer, when the secret leaks out and the mandarins are ordered to appear at the court of Pekin and bring the daughter with him. Yen How is in great danger of losing his head, but San Toy captures the emperor and saves him, and also gives his consent for her marriage to the English officer, thus causing the final curtain to fall on as agreeable a climax as was ever designed for musical comedy.

ADDING TO RESERVE

At a recent meeting of the board of directors of the B. C. Permanent Loan and Savings Company, the sum of \$5,000 was added to the reserve fund, bringing this fund up to \$25,000, an increase of \$10,000 since the first of this year.

THE NEW I. C. R. SHIPMENTS ARE LARGER

Although Fewer Deals Were Shipped This July Than Last, The Total Shipments Are Larger.

While deal shipments from St. John to trans-Atlantic ports during July were smaller than in July of last year, the total shipments both of spruce and birch for the season, to the end of July, show an increase over those of the like period last year.

The excess in spruce deals is over 2,000,000 feet, and in birch plans over 2,000,000 feet. The figures to the end of July for each year are:

1904. 1905. Spruce deals, 93,087,461 106,444,275 Birch plans (sq. ft.) 3,239,935 5,437,441

Spruce deals, 2,219 2,207 Birch timber (tons). 110 167

There are no improvements in the deal market, and shipments are now very light for this season of the year.

DECORATION DAY

Knights of Pythias Have Selected August 24 as the Date This Year.

The Knights of Pythias of St. John will observe Thursday, August 24th, as Decoration Day. As there are four additional graves to decorate this year it is to be hoped that the friends of the order who have on previous occasions made liberal donations of flowers will this year keep this year in mind and give as liberally as possible, that the last resting place of the departed brothers be fittingly honored.

Arrangements have been made for the use of the Queen's Park and as in previous years the flowers will be received there on Wednesday the 23rd and the morning of Thursday the 24th.

The turn out this Decoration Day is expected to be one of the largest in years. The two companies of the Uniform Rank No. 1 and No. 2 will be in line with a band. The route of march will be from the hall on Germain St. to Queen up to Charlotte, stopping at the pink for bouquets with flowers, resuming the march to Union St. and out Waterloo St. They will go out the Waterloo St. to the Church of England burying ground, thence to Fernhill, where the services will be conducted as usual.

COMING FROM BOSTON

Messrs. Mooney Will Have 140 Laborers Here Tomorrow to Work at Lock Lomond.

About one hundred and forty laborers will arrive from Boston by boat tomorrow morning to work for Messrs. Mooney on the addition of the new wing at Lock Lomond. The addition of the new wing will swell the force of workers employed by the Mooneys to over three hundred or over.

The contractors are determined to rush the work as fast as possible, and as they were unable to secure the men here they had to employ outsiders.

REV. J. A. MORISON

Rev. J. A. Morison of Chicago who has been occupying the pulpit at St. David's church for the past four Sunday's accompanied by Mrs. Morison, and daughter Josephine, will return home on Wednesday.

At the conclusion of his sermon last evening, Rev. Morison tendered his thanks to the St. John people for the kindness tendered to him and his family by them.

Rev. Morison was in the pleasant vacation that this was one of the pleasantest vacations he had ever had. He will always look to New Brunswick as his home, and will never forget the kind people who dwell there.

The Methodist ministers met in Centenary church this morning. Rev. H. Sprague presided. Rev. G. M. Campbell, who was in Berkeley, N. S., last week, gave an interesting account of the Camp of Missions. The regular business was transacted and the meeting adjourned at noon.

F. Wilson, of Boston, arrived in the city this morning.

NEW YORK STOCK QUOTATIONS

Monday, Aug. 14. Chicago Market Report and New York Cotton Market. Amalgamated Copper, 25 1/2, 25 1/2, 25 1/2
