Although Sanitary Arrangements in Post Office are Better Than Before They are Not Perfect Yet.

WEARY WILLIE WALKER

The C. P. R. people say that when the steamship Empress of Britain leaves Quebe on Saturday next she will have a record number of passengers, every bethering occupied. On her recent trip from Liverpool to Quebec she made the entire passage, 2,838 miles, at a speed of 17.66 knots.

Another big rush at M. R. A.'s today-curtain sale and school closing bargains in boys' wash suits and pants. Both those events will be carried along until the goods are all sold, but it is not expected they will last until Saturday. The boys' pants and wash sailor suits are the best effers M. R. A. have made in those lines for years. They come at the right time, too.

Eight of the crew of the wrecked eteam er Etolia, ashore at Cape Sable Island (before reported) arrived here last evening by the steamer Senlac from Barrington, N. S., and will be earth home to England by the agents, Wm. Thomson & Co. The crew say that the vessel has been smooth, but the first wind storm will break her up. Some of the cargo of deals has been taken out and saved.

WEARY WILLIE WALKER

From the spectacular opening chorus to the reatting grand finale. Weary Willie Walker furnishes unmistakable evidence of its utter suptemacy, as a musical entertaining combining all that is desirable. in a wide range of diversified melody. It is quite easy to understand how the many song innovations have made such an enormous hit wherever heard. If it were not for the splendid aggregation of vocalists for which "Weary Willie Walker" has won great renown there would perhaps be less occasion to expatiate upon the really won-define effects produced in rendering the spirited programme of music however, this big musical comedy is a more than noteworthy example of what results can be attained in harmonious blending of cultured voices and as such it will undoubtedly command special consideration and will probably prove a total lors. The weather the vessel has been taken out and saved.
