SALTS IS FINE FOR KIDNEYS, QUIT MEAT
Flush the Kidneys at Once When It Hurts or Bladder Bothers
No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

\$5,000 WANTED FOR PLAYGROUNDS WORK
Delegation Urges Increased Grant For Consolidated Social Work—Scope of Work Greatly Enlarged Under Permanent Superintendent
When the city commissioners met in committee yesterday afternoon a delegation waited upon them, consisting of W. B. Tennant, president; Walter C. Allison, vice-president, and A. M. Belding, secretary. The delegation asked a grant of \$5,000 as compared with a total of \$8,000 that had been appropriated to playground work last year, besides the special expenditure on the Rockwood playground. It was explained in the course of the discussion that \$2,000 had been made in one grant, and that another \$1,000 was expended by the commissioner of public works on the Victoria playground in the North End.

W. B. Tennant said that the association wanted to come down to a permanent basis for work. They proposed to do much more work than had ever been done in the city before.
The mayor explained that a certain amount of expenditure had been incurred in draining the playground section of Rockwood Park, and the result was that there was comparatively little water on that part this year.
Com. Russell mentioned that he thought the work done there had been done in the city before.
Mr. Belding added that circumstances that made for a change in the amount asked for this year were that a superintendent had been appointed by the association to extend the scope of the association's activities. It would result, he thought, in a good deal of benefit to the city.
He told of several cases that had been dealt with by Superintendent Howard. The superintendent was organizing the "big brother" movement in connection with the work, and the social work of the association would be vastly greater. The Girls' Association had also been taken over by them, and the Boys' Club. They had thus consolidated other social work, and the result was that the work of the young in the city with the association. Hence they wanted a greater grant, for the work would continue all the year.
The Mayor—"I think this will be the hardest year of all for taxation. I estimate that for cash tax collections we shall be about thirty per cent below last year's."
Com. Polts—"I don't know how it is. A few years ago you failed to get \$15,000 in bonds over the counter, and yet here you have just sold \$280,000."
Mr. Tennant said that he believed this would be a fairly good year for commercial collections.
It was stated that many of the features of the Playgrounds Association's efforts had been extended. A grant asked for last year for the Girls' Association would be included in the \$5,000 asked for.
Com. Russell—"I think the Girls' Association is one of the best works being done in the city."
Com. Polts—"You are just taking up general social work among the young in the city?"
Mr. Belding—"Just that."
The City Chamberlain—"You know the position the general revenue is in this year, and I think if you told these gentlemen they would turn round and go back."
Mr. Tennant—"We must get this \$5,000 or let most of the work drop. It is not likely that we shall be able to get it outside." Mr. Tennant contended that the city should assess for the whole of the work, and that the burden would be evenly distributed, and Mr. Belding mentioned the case of the city of Detroit where all the cost of the Recreation Commission, with large powers, came on the city assessment.
The delegation then withdrew.

RECRUIT IN CANADA FOR BRITISH ARMY
The London Chamber of Commerce Journal says that—"Should German South West Africa come under the British flag, the Karakul sheep industry of that colony is likely to prove an asset of increasing value. The Karakul sheep has been crossed with the native African sheep with the most satisfactory results, and it is now understood that the industry is an established success, the sheep having found on the higher plateaus climatic conditions not far removed from those of their original habitat."
Experiments have been made in Karakul sheep breeding in the maritime provinces with very satisfactory results. It has been shown that the climate of these provinces lends itself very readily to almost all forms of the fur-bearing industry.
Mushroom Sauce
Melt 1/4 cup of butter and wheat brown stir in 1/4 cup of flour. Add gradually, 1 cup of brown stock and 1/2 cup of liquor from a can of mushrooms stir until smooth and thick, cook over boiling water for 10 minutes, then add the drained mushrooms cut in thin slices 2 teaspoons of lemon juice and pepper and salt to taste. Cook two minutes, add the beaten yolk of 1 egg, remove at once from the fire, stir in 1 teaspoon of finely chopped parsley and serve.

Wrote to the War Office.
This man has on his own account written the War Office suggesting that numbers of men in Canada who are ready to serve, but who could not be dealt with by the Canadian government, should be medically examined and enrolled at Prince Albert. He is confident that if the Home Government advertised for recruits in Canada and arranged for their acceptance and transportation, they "would get thousands, while the Canadian government is tinkering along with ten and twenty from one district."
