(Canadian Press Despatch)

Dublin, July 4—For three hours today, Eamonn De Valera, the republican leader, Arthur Griffith, founder of the Advice of Sir George Bury, Earl Middleton, Sir Maurice Dockrell, Who Made Inquiry Into Sir Robert Henry Woods, and Andrew Jameson, conferred on the Irish situation with a view to preparing the way for possible negotiations with the British prime minister and the Ulster pre-

St. Johns, Nfid., July 5—Premier Squires, after submitting to the legislature a report by Sir George Bury, a Canadian railroad authority, upon. the condition of the railway system in Newfoundland, announced that he would introduce resolutions setting forth the government's policy on the railway problem.

Sir George was asked by the government to conduct an investigation into the situation which has resulted in refusal of the Reid Newfoundland Company, lessees to continue operation of the system without government aid. He reported that the system from 1904 to the present time had cost to operate five and three quarters million dollars, more than the railroad has earned.

He said that earnings were falling. He advised against government ownership and recommended that the government contract with the Reid Newfoundland Company to operate the railway for one year, the government agreeing WOMEN BOYCOTT ALLIES.

ment contract with the Reid Newfound-land Company to operate the railway for one year, the government agreeing to pay operating losses up to a million and a half dollars and any losses above that amount to be borne by the company. He suggested creation of a public utilities commission with powers similar to those of the Canadian Railway.

APARTMENTS TO LET IN DUF-

Road Policy.

Galt, Ont., July 5—A large audience, representative of all classes, manufacturers, business men, mechanics and farmers, listened to Hon. F. C. Biggs, Provincial Minister of Public Works, outline his good roads policy. There was little new in his address, except for the statement that within a month or six weeks he expected to announce a new system of financing his road-building programme by capitalizing the fees collected for automobile licenses to carry out a system of borrowing to pay for roadways.

He declared that at present eighty-two contractors were working on provincial roads on advertised contracts, while the department owned and was operating 25 crushing plants and had practically cornered the gravel supply of the province in the purchase of pits, which were the property of the people, and on which a great saving was being effected.

SITUATIONS VACANT

Tilley, 223 Germain St., St. John N. B., will file the same duly sworn to with the undersigned executor. All persons indebted to the said executor forwith. Dated this 27th day of June A. D. 1921.
