## GOOD THINGS COMING TO THEATRES OF ST. JOHN

### CLEVER DANCING TEAM

Other Good Features at Opera House Tonight—The New Programme

Direct from the famous Winter Garden show—one of New York's standing sensations—came the clever dancing team, Beattie and Bloom, now the Opera House, as one of the features of the present vaudeville programme. If you are a dancer, or trying to be, see this graceful pair—you might learn a few new steps.

There are four other good acts on the bill as well as the serial picture, "The Man of Might." Tonight is the last time for this programme. Two shows, at 7.30 and 9.

The regular change of bill opening tomorrow evening offers Mar and the Dwyer Twins in classy songs, dancing and changes; Greene and Brown, two snappy colored comedians and dancers; Burton, comedy ventriloquist; George and Mac DeGlen, in comedy songs, chat and eccentric dancing; The Brissons, in comedy variety and acrobatic novelty; and the serial picture, "The Tiger's Trail," with Ruth Roland.

## FASHIONS AT OPERA HOUSE FULL OF INTEREST

The ladies are much interested in Fashions De Vogue, one of the features of the present vaudeville programme at the Opera House, as it gives them a chance to see the latest designs in evening gowns, put together in the twinkling of an eye by an expert costume designer, a man who has really been on the staff of some of the leading establishments in New York dealing exclusively in ladies' wear. Gentlemen who have often wondered why gowns cost so much real money can look this offering over and, after seeing how the material is put together, can wonder a little more. Tonight is the last night for the Fashion Show—it is a novelty and worth seeing. There are two performances, at 7.30 and 9.

## G. W. V. A. BAND TO PLAY AT MILITARY FUNCTIONS IN ST. JOHN

It is announced today by Major Cathbert Morgan, president of the G. W. V. A. band, that arrangements have been made whereby the newly formed band of the Great War Veterans Association will play at all military functions held in the city. The band, though organized just within the last few weeks, has now a membership of about forty members, and all are enthusiastic concerning success. An order has been given whereby the instruments of the 115th band will be given for the use of the "Vets," which will prove most helpful.

With the promulgation of the order regarding military engagements, comes the announcement that the Veterans' Band will play at the various functions connected with the visit of H. R. H. the Prince of Wales on August 15. They will play the greetings on his landing from the "Remora," at the ceremonies in the armory, at the garden party at Rosheay, and at his departure. The next band rehearsal will be on Tuesday.

## REGULATIONS FOR LIQUOR PRESCRIPTIONS

Victoria, B. C., July 17—Victoria prohibitionists have again taken up with the provincial government the necessity of stricter regulations governing the granting of liquor prescriptions by the medical profession. A delegation has interviewed the premier and told him that the prohibitionists view with alarm what appears to them to be an abuse of the provisions of the act by the medical profession. Some doctors, it was pointed out, were not confining their prescriptions for liquor for uses prescribed by the act.

It was stated that one doctor had issued 100 prescriptions for liquor in six days and another 525 in twenty-six days. Mr. Oliver pointed out that in the case of an act to which a large section of the people had a decided objection, his administration would always be fraught with more or less difficulty. He promised a full and thorough investigation. The prohibitionists made it clear to the government that they would welcome the prosecution of doctors who were exceeding the powers granted by the prohibition act.

## SELLING STORES IN ENGLAND.

U. S. Army to Dispose of a Billion Dollars' Worth.

London, June 16—(Correspondence of the Associated Press)—The last of the billion dollars' worth of stores purchased by the American army in England will have been disposed of on Aug. 1, in the opinion of Major-General J. G. Biddle, the American army headquarters were closed June 15 and only a small contingent of the quartermaster's department remained to co-operate with the liquidation commission in adjusting a few remaining contracts and selling supplies. Consequently by August the army will cease to have a war interest in England.

"Immediately the armistice was signed we began to cancel and adjust contracts, and in this work had such heavy co-operation from the British war office that the United States has been able to clear up its contracts very advantageously," said General Biddle. "Only a few of them remain to be adjusted."

"The last property on hand consists largely of aviation, engineer and ordnance stores. It was not deemed advisable to dispose of it too quickly and finally it was arranged that auction sales of all that was not disposed of privately should begin the latter part of June. There was demand for most of the material, and our early inquiries indicated that good prices would be obtained, and also that we would have little difficulty in getting rid of everything we had."

## POOR J. P. GAVE AWAY THE SENATOR'S UMBRELLA

Senator Lodge, while visiting in a rural district, dropped in on a boyhood friend, now justice of the peace. A couple came in to get married. The justice married the pair, and after accepting a moderate fee handed the bride an umbrella. Lodge observed the proceedings in solemn silence, but after the couple had gone he asked: "Do you always do that, Arthur?" "Marry them? Oh, yes; if they have the license."

"No, I mean give the bride a present?" "A present? Why, wasn't that her umbrella?" "No," said Lodge, peevishly. "It was mine."

"Two travelers met in the smoking room of a hotel and at once commenced talking shop. "How's business?" Getting many orders?" asked the stout man. "More than I can handle," said the short man. "How is it with you? Had any orders lately?"

"Well, business is pretty good," said the stout man. "I haven't had an order for a year and a half, but expect to get one next spring."

"At this point the curiosity of a bystander got the better of him. Calling the short man aside: "Who's your stout friend?" "A traveler," was the brief reply.

"Well, he certainly has puzzled me. "What's his line?" "Suspension bridge."

New York Globe: "Undeniably alcohol did not have such a terrible grasp upon us as to make its comparative or even its absolute prohibition a matter of life and death. As long as we could get alcohol easily many of us would drink. When it ceased to be easy to get many of us stopped drinking. We would have done the same had tea or coffee been prohibited after a similar campaign to prove their harmfulness. Drink has been a convenience and a solace, but it has never gone clear to the roots of the lives of most men, certainly not of most women. Remove it and life goes on much as before."
