THE COMMON MAN AND THE FRANCHISE

(By Professor Charles A. Beard.)

It is a favorite practice of privileged persons in all times to base their prerogatives upon natural law, divine will, right reason, or some other respectable foundation. King James I. of England, whose unhappy son lost his head during the Puritan revolution, ordered parliament and the judges to interfere with his affairs, saying: "That which concerns the mystery of the king's power is not lawful to be disputed; for that is to take away the mystical reverence that belongs to them that sit in the throne of God. . . . It is atheism and high contempt in a subject to dispute what a king can do, or say that a king cannot do so. . . . So it is presumption and high contempt in a subject to dispute what a king can do, or say that a king cannot do so. . . . Long afterwards, when the common men of England were demanding the right to vote, a clergyman wrote a book against them, in which he exclaimed: "What a certain that you would gain nothing but universal contempt, and a setting of workmen against each other. All workmen would then become politicians—they would neglect their vocations in life—spend their time, their strength, their talents in what would increase their poverty. With respect to having members of parliament paid and void of property qualification—really this is too absurd for an idiot to be the author of it. . . . The famous Chartist doctrine of Equality is diametrically opposed to Nature and the word of God."

If we go back a little more than one hundred years we find the common man everywhere in Europe excluded from all share in the government, save in some rare instances.

There is no time now to tell the interesting and moving story of the long struggle by which the common man everywhere in Europe excluded from all share in the government, save in some rare instances.

PRaise IT WHEREVER I SEE A CHANCE.

Messrs. Dearborn & Co., St. John, N. B. Dear Sirs,—I use your Baking Powder all the time, and praise it wherever I see a chance. In fact I would not use any other so long as I can get yours.

Wall Street Notes

New York, May 13—Americans in London, irregular, small changes. Their settlement begins today.

The hearings in the government suit against steel company go on today and the sugar suit begins tomorrow.

Roosevelt carries Minnesota.

Bank surplus reserves now about \$11,000,000.

Miners' convention at Wilkesbarre tomorrow.

Railroad equipment market has orders pending for \$20,000 cars.

Southern iron market strong and improving.

Supreme court meets today and the street will be looking for a decision in the coal case.

Years appear to be able to sell market down, but very little stock comes out.

The quick recovery of stocks brought heavy buying by the shorts. The feeling seems to be that nothing more than a setback can be expected unless we have some disaster. The copper stocks are expected to sell higher this week. Amalgamated is especially talked of. Reading will be nervous on account of a possibility of a decision, but is a purchase on the recovery. Profits will be taken on good bulges in all stocks.

Political Notes

Harland Observer—Premier Fleming has stated that he can be elected in Carleton county without a Liberal vote and without spending a dollar. He will have another guess coming after election day.

Moncton Transcript—R. B. Black, one of the directors of the Cape Tormentine Railway, whose employees are striking for living wage, P. G. Macdonald, M. P., Mr. Black and others should pay school tax on the wilderness lands, and O. M. Mahan, of the Public Utilities Commission, are calling a convention in the Hotel Hall, Sackville, for Tuesday, May 14, to discuss the matter.

Bank of Montreal—The attention of one of the Tory head hunting commissions is directed to the fact that Mr. McLean, who calls this party convention, is one of the provincial government's commissioners and of what should be a non-partisan public utilities body.

Fredrickton Mail—Almost the first act of the present local government upon coming into power was to increase the taxation for roads from twelve to twenty cents on the hundred dollars and the poll tax from \$1 to \$1.50. Have they given the people of the province better roads. No, they are as bad if not in a worse condition than ever.
