BROTHERS ARRESTED

Case May Involve a Violation Of The Liquor License Laws

Two brothers, James and Joseph McElheney, of Moore street, aged 25 and 23
respectively, were found this morning between 12 and 1 o'clock wandering about
North street by Policemen Crawford, McCollum and Marshall, and they were
taken in custody, as the story they told
did not altogether please the police. Marshall said this morning that the two men
had been in company with another, and
had gone into a wedding, where they
were not wanted, in Carleton street.
James, the elder, had a bottle of whiskey,
and Marshall said he had not had it at
10 o'clock, but must have secured it after
the bars were closed.

McElhenney, senior, said he had given
81 to a stranger, and the latter had secured the liquor for him. He and his
brother had been in a pool room for some
time last night, but had left a little before
midnight. He told the court he was a
married man.

"Well, it has always been a healthy
rule for a married man to stay at home
with his family," said His Honor, "Those
pool rooms and bowling alleys are being
filled too much with men and even boys
in knickerbockers, up to late hours at
night." They were remanded.

South Bay Wanderer is John Thirty-Nine Coasters Tied Up In St. John and Much Earning Power Not in Use

One man who was found wandering about in the vicinity of South Bay yesterday by Samuel Linton, has been identified as an Englishman, John Maxwell, aged about 60 years, who came to this country about two or three months ago, and was in search of work at the new woodworking factory. He was cared for teday by Adjutant Carter, of the Salvation Army Metropole, and will be taken to the hospital later.

The man had a tough experience yesterday. He left the Metropole and went towards the new factory, but lost his bearings. He wandered about through fields, and was finally found by Mr. Linton, who madle him as comfortable as possible, and took him to the store of J. J. Hennessey, in Fairville, where Mr. Hennessey, and most through both his hands were frozen. He refused also to give his name. He was put on a street car, and started to Prince William street, where, he said he was booking for someone.

The "someone" was probably Adjutant Carter of the Metropole, for it was 4to him he went, and he was bking cared for there this morning.

Power Not in Use

The largest number of vessels laid up in St. John, in proportion, in many years, dre tied up at the present time. The agregate tonnage is 6904 and value \$143,200. These figures have been obtained by totalling of the tonnage of thirty-nine vessels that are in port "not working" and the values have been placed on each vessel by owner or agent.

As one of these, a schooner of 240 tons, earned for her owners in nineteen months \$5,000, it will be seen that the earning powers of this combined tonnage is no small thing. As one shipping man suggests that \$800 might be a fair and conservative average, and in view of the one example given, it would seem to be, the total earning power for the amount of tonnage would be \$31,200 per annum. The unprecedented slump in the American market is responsible for this condition of affairs.

On Monday there was little water to be had, yesterday the supply was limited and this morning there was not a drop. In one house, where a pump is installed, even this failed to bring any results.

This water trouble has been referred to in the papers more than once in the hope
