"Eat More Bread"

Of course you should "eat more bread"—and less meat—but be sure your "bread" contains all the body-building material in the whole wheat prepared in digestible form. The only "bread" that fulfills all these requirements is

SHREDDED WHEAT

It is made in Canada of Canadian whole wheat steam-cooked, shredded and baked. It is a natural, elemental food and is not treated or compounded with anything. Its purity, cleanliness and food value stand unchallenged, being endorsed by the highest health and dietetic authorities in Canada and the United States.

Always have the Shredded Wheat in over to restore crispness. Two Shredded Wheat Biscuits with hot milk or cream will supply all the energy needed for a half day's work. Try Toasted Toasts, the Shredded Wheat wafer, for luncheon, with butter, cheese or marmalade.

FURS ARE SEEN IN QUEER COMBINATIONS THIS FALL

Ermine is the fur of royalty, and is one of the most expensive of pelts, and to own an entire coat of ermine like the one pictured here is to be very well indeed endowed with money. Combined with the regal ermine is the fur of the pheasant stunk, and it must be said that the combination is really a fetching one.

The Glenwood Ash Chute

No more ashes to carry, no clumsy ash-pan to spill, dust or dirt on the kitchen floor.

The GLENWOOD ASH CHUTE solves the problem. It is situated just beneath the grate and connected by a sheet iron pipe, straight down through the kitchen floor to the ash-barrel in the cellar.

No dust can escape, just slide the damper, once each day and drop the ashes directly in the ash-barrel.

This is only one of the splendid improvements of the plain PLAIN CABINET GLENWOOD, the range without ornamental or fancy nickle.

At least one-half of the GLENWOODS are sold through the enthusiastic recommendation of a satisfied user.
