Yesterday was a day of more than usual interest in the Presbyterian synod, now in session in the First Presbyterian church, statistics, finance, home missions, church life and work being the principal matters discussed. Presbyterians have the happy knack of combining a large amount of practical wisdom with fervor and spiritual culture, and this was well illustrated by the sessions of yesterday. It is a thousand pities that ferer's best friends. yesterday. It is a thousand pities that some of our struggling provinces cannot avail themselves of the talent for dealing with financial and cognate questions that the synod possess. Here are the makings of numerous chancellors of the makings of numerous chancellors of the exchequer, who can make the dry figures glow with fire and life, and mean something.

Better late than never, and the Presbyterian church is none too early in catching up on this great subject. Of all their ems, this is the most pressing, and the investigations of the synod may lead them farther than they think. At any ceeding important debate on the need rate the report given in by Rev. J. Knox Wright, of Vancouver, giving a comparative statement of the churches' givings and increases during the past few years, brought up an earnest discussion. It was gratifying to find that all along the well as for spiritual benefit.

Tonic Treatment For Indigestion-New Strength For the Stomach From New. Rich Red Blood.

The Tonic Treatment—that is the latest and only scientific cure for indigestion. All the leading doctors of Europe and America are using it with sensational pepsin, no more patent foods, no more long diet lists saying "Thou shalt not eat this or that." No more of all this— nothing, in fact, but plenty of new, pure, rich red blood to tone the liver and give the stomach strength for its work. That is the Tonic Treatment for Indi-
