#### U. S. ELECTIONS.

机、放射

WASHINGTON, Nov. 5.—The latest returns received up to 10.30 o'clock tonight show that the republicans (Including in this description the fusionists, elected from the Pittsburg-Allesgheny districts in Pennsylvania), will control the next house by a vote of 204 republicans to 179 democrats, with one district, the eighth Tennessee, and two California districts remaining so much in doubt that the official returns will be needed to decide the result. The totals given are believed to be correct, although there are a few districts, such as two in Colorado and one in Minnesota, where the republican and democratic party managers respectively do not concede defeat, but the general result could not be affected even should their claims prove well founded. The table by states is as follows:

State.	Dem.	Rep
Alabama	9	
Arkansas	7	
California	2	1000
Colorado	3	
Connecticut		
Florida	1	
Georgia	11	
Idaho

#### A BAPTIST SCANDAL.

OMAHA, Neb., Nov. 5.—Clasped in each others arms, lying on the floor of the pastor's study in the German Baptist church here today, the janitor of the church discovered the dead bodies of Rev. W. C. Rabs. pastor, and Augusta Busch, a missionary and assistant to the pastor. Death had been caused by saphysiation. The room was filled with gas, a jet and a burner of a small stove being partiy turned on.

The bodies were lying on the floor, the woman's head being pillowed on some cushions. They evidently had lain in that position for several hours.

HOTEL ARRIVALS.

HOUFFERIN HOTEL, Nov. 6.—W. Hokie and wife, Antigoniah; Fred Daniels, Stewischen, Stewis

There seems to be little doubt that death was accidental.

An inquest will be held tomorrow. This morning, when it was found that neither the clergyman nor his assistant had been at home during the night, an investigation was made, with the result that the bodies were found in the pastor's study.

It was thought at first the two had committed suicide, but as there was nothing to indicate that they had intended taking their lives, this theory was abandoned.

was abandoned.

Mr. Rabe was 54 year of age and
came to Ohama from Buffalo, N. Y. In
that state he left a wife, who is attending a missionary school, and one
son. He was held in high esteem by

son. He was need in high esteem of his congregation.

Miss Busch was 31 year of age and had been a missionary in Omaha for the last five years. She came here from Chicago, sent by the Church Mis-sionary School. She was very popu-

Rev. E. J. K. Whitney, superintendent of the boys' mission of St. John, addressed a large meeting at the Opera House tonight, speaking upon work for boys.

Thomas McAvity, Frank H. Flewwelling, De B. Carrite, J. Primrose Carritte, Charles W. Bostwick and Alexander P. Barnhill, all of St. John, are applying for incorporation as the St. John Abattoir Company, with a capital stock of \$100,000.

#### CHICAGO.

Commission Appointed Last Spring Makes Its Report.

Members Declare City Should Operate Public Utilities and Request Voters to Take Action.

CHICAGO, Nov. 4.-The Record-Herald says:-"If the city of Chicago tomorrow was enabled by the legislatu morrow was enabled by the legislature to manufacture and sell electric light or power and its city council by ordinance would provide for the issuance of a series of bonds—payable solely and only out of the income and receipts that might be derived from the operation of such plants—out of the pledges of this income alone ample money would be forthcoming from financial institutions in this country, without the city being compelled to obligate itself generally for the payment of such bonds, and the citizens of the community would not have to be taxed for one additional dollar."

The foregoing statement is one of many notable ones made in an address to the public of the municipal ownership commission, which was appointed on May 12 hast by Mayor Harrison. The address was prepared by Judge Edward F. Dunne and was approved unanimously by the members of the commission. o manufacture and sell electric light

URGES POLITICAL ACTION.

The opening sentence of the address makes it plain that its purpose is to influence voters to cast their ballots next Tuesday for such candidates for the legislature as are especially known to favor municipal ownership of public utilities. It declares that "no voter with Chicago's welfare at heart will heed the ordinary ties of political partisanship at this election." And further on this declaration is made: "If in 1993 the city council cannot own and operate street cars, private enterprise must. It is now or never. If the city next year must deal with private capital, private capital will drive its usual bargain. Another 20-year franchise will follow, and the citizens of Chicago and their children for another generation will be getting the treatment they have endured for the last 20 years."

ISSUE IS DEFINED.

ISSUE IS DEFINED.

The commission also avers that the issue is now directly between the citizens of Chicago and a coterie of private capitalists; between public weal and private wealth." This warning is then sounded: "The next legislature will benefit or injure Chicago to an incalculable extent. Look up carefully the record of every candidate for the legislature, and see if he is pledged to municipal ownership and coptrol."

The address makes it plain that the legislature this winter will 'make or break' Chicago. "A municipal enabling act, such as Chicago wants this winter, will have distinct effects," declares the commission, and then discusses these "effects" under three heads, to wit:

1. It will tend to purify the administration of city government; confirm and strengthen and materially extend the civil service policy; give the city authorities their one supreme safeguard from further forced submission to private franchise corporations.

2. Municipal ownership will give the people of Chicago cheaper and better street car service; cheaper gas and electric lighting.

3. The economic benefits of municipal ownership include greater revenues for the city treasury.

WOULD REDUCE FARES.

WOULD REDUCE FARES.

WOULD REDUCE FARES.

Under the second head the assertion is made that "the municipalization of street railways in the cities of Great Britain has uniformly reduced the the cost of transportation to an average one penny fare, two cents." This sweeping declaration follows:
"If you vote for municipal candidates at this election you are thus voting for the regeneration of the entire street railway and lighting policy of the city on co-operative public lines." The management of the local water plant and the electric lighting service are held up as proving that "municipal ownership is a paying proposition, both as to civil service and its financial benefits to taxpayers."
