ST. JOHN, N. B., TUESDAY, NOVEMBER 6, 1904.

ONE CENT.

**Roxo Razors.**  
Made from the Finest Steel  
By Experienced Workmen.  
Retains a Keen Cutting  
Edge Longer Than  
Any Other.  
3-4 and 5-8 inch blades.  
PRICE:  
**\$1.25 Each.**  
This is one of the very best  
Razors made.  
If you want any kind of Cut-  
lery come to us.  
**W. H. THORNE & CO., LTD.,**  
Market Square, St. John, N. B.

**The Key to**  
**Artistic Home Building**  
We shall be pleased to assist you in the selection of  
Hardware Trimmings to harmonize with the style  
of architecture or character of interior finish.  
**Sargent's Artistic Hardware**  
combines artistic design with durable utility and  
affords life long satisfaction. It will be worth  
your while to look at the Sargent designs and  
obtain prices. Perhaps we can save you money.  
**EMERSON & FISHER, Ltd.,**  
25 Germain Street.

**Two Special Lines**  
**Mink Ties and Stoles**  
**\$25.00.**  
**F. S. THOMAS,** Dufferin Block,  
541 Main St., N. E.  
**We're Getting**  
**Top Coat Weather**  
It now comes mornings and evenings.  
We will soon have it for steady diet.  
**Every Kind of Overcoats**  
Waiting for all kinds of hurry-up needs.  
**Prices: \$6.00, \$7.50, \$8, \$8.50, \$10 to \$15**  
**American Clothing House,**  
11-15 Charlotte St.

**The Art Store**  
Saint John,  
Thomas J. Flood's.  
**Sale on Today**  
Bring Your Pictures - To Be Framed  
**Thomas J. Flood, Artistic Framing**  
60 King Street,  
Opposite Macaulay Bros & Co.

**Suits and Overcoats**  
That Speak for Themselves.  
It's not been large newspaper advertising (that's expensive) but the selling  
of good reliable clothing for less money than it could be got elsewhere that  
has made our business a leader in the clothing today. Compare our prices  
and stock and you'll easily see that you can save from \$2 to \$3.50 on a  
Suit or Overcoat here. Then why not save it?  
**Men's Overcoats - \$5.00 to \$24.00**  
**Men's Suits - 3.95 to 20.00**  
**J. N. HARVEY,** Clothing and Furnishings,  
299 to 207 Union St

**INTERESTED IN RESOLUTION  
BEFORE BOARD OF TRADE TODAY**

**T. B. Kidner Talks of the  
Development of Technical  
Education—The New Flo-  
renceville School in Work-  
ing Order.**

T. B. Kidner, director of manual training for New Brunswick, gave the interesting information about his work. Speaking generally Mr. Kidner said matters are in a very hopeful condition all along the line of the newer education. The new manual training department recently opened at Chipman is proving a great success. At Hillsboro the arrangements for opening the department are well advanced, and no doubt work will soon be in active operation. Florenceville, the last of the consolidated schools to be opened, the pupils and staff are settling down in their new building. The small manual training department formerly existing there is now housed in its new quarters in the brick building of the main school. The equipment has been extended and brought down to date in its details, and with the enlarged field provided by the consolidation of the several districts will no doubt do even better work than in the past. In the household science department there is not yet in full working order, but the equipment is now being procured, and it is planned to commence operations at an early date. Mr. Kidner expressed himself as exceedingly pleased with the progress being made in St. John. In company with Mr. Bridges he visited the new building today and was gratified at the forward state of things. Asked by the Star for some opinion on possible extensions in the future Mr. Kidner said he was particularly interested in the resolution concerning technical education which is to come before the St. John Board of Trade this afternoon. The resolution is the outcome of an enquiry made recently by a commission of the Canadian Manufacturers' Association, and lays particular stress upon the training of the women. It recognizes that higher technical training is being looked after fairly well at present, but that throughout the Dominion there is practically no provision for technical education which will reach the women. The Canadian Manufacturers' Association are asking the co-operation of Boards of Trade all over Canada in pressing on the attention of the federal government the great necessity for this intermediate technical training. Mr. Kidner pointed out that the manual training in our primary schools today is only technical in a secondary sense, the main aim being broadly educational. While this is true, however, it yet affords a sure foundation for purely technical instruction in after years, so that the success of the manual training movement is bound to help forward the much larger question of the development of our vast natural resources and the growth of our great industries by means of skilled and educated labor.

**OFFICERS IN POLAND  
SHOT BY REVOLUTIONISTS**  
Town Is in a Panic—Trouble Over University Matters May Lead to a Crisis in St. Petersburg.

LONDON, Nov. 5.—A despatch to Reuters Telegram Company from St. Petersburg this evening says: "A report has reached here that 12 officers were shot today by revolutionists in the streets of Kutno, Poland. The town is in a state of panic owing to fear of military reprisals." The resolution is the outcome of an enquiry made recently by a commission of the Canadian Manufacturers' Association, and lays particular stress upon the training of the women. It recognizes that higher technical training is being looked after fairly well at present, but that throughout the Dominion there is practically no provision for technical education which will reach the women. The Canadian Manufacturers' Association are asking the co-operation of Boards of Trade all over Canada in pressing on the attention of the federal government the great necessity for this intermediate technical training. Mr. Kidner pointed out that the manual training in our primary schools today is only technical in a secondary sense, the main aim being broadly educational. While this is true, however, it yet affords a sure foundation for purely technical instruction in after years, so that the success of the manual training movement is bound to help forward the much larger question of the development of our vast natural resources and the growth of our great industries by means of skilled and educated labor.

**PROMINENT CITIZENS PROPOSE THE  
FORMATION OF A 100,000 CLUB**

**At a Private Luncheon the Subject Was Dis-  
cussed and Now a Number of Well Known  
Men are Showing a Lively Interest in the  
Suggestion—The Benefits to be Derived.**

It has often happened that great undertakings have originated purely through accident or by a chance remark passed by some interested person. There have been frequent instances of this in New Brunswick, and another seems to be arising. This proposition is nothing more nor less than the formation of a 100,000 club for St. John, and although the scheme was proposed only in a private way yesterday, it has been talked of already by a considerable number of citizens, all of whom evince a live interest in the matter. Yesterday at the Union Club Mr. William Downie, of the P. E. I., gave a little luncheon in honor of Archdeacon Pentreath, who is now here on a visit. In addition to the Archdeacon there were present, W. S. Fisher, W. M. Jarvis, Rev. G. A. Kuhring, Fred. W. Daniel, Dr. Thomas Walker, L. F. D. Tilley, Rev. David Lang, and Judge Forbes. During the conversation, Archdeacon Pentreath remarked: "Why don't you start a 100,000 club in St. John, if you need population and industries here?" Being questioned on the subject, he outlined the workings of such organizations in the west, particularly in Vancouver, where the institution is doing excellent work. He pointed out that all interested citizens banded themselves together to work for the extension of the industrial life of their city, for the increase of population by immigration and generally in the line of progress. Speaking to the Star today, Mr. Downie expressed the opinion that such a club whether it be a 60,000, 75,000 or 100,000 club, should be organized. He thinks it would be a good thing, an excellent thing, to get together a crowd of enthusiastic workers whose principal idea would be increasing the prosperity of the city. At the present time there does not seem to be any unity of action, but in such a club this would be attained. W. S. Fisher, who was another of the guests, agreed with what Mr. Downie had said. He remarked that the idea was a splendid one, and would suggest that inquiry be made in the western towns, Vancouver and Calgary for instance, to find out how the project is handled there. In St. John, in fact in all eastern towns, conditions are very different from what are found in the west. Out there the duty of such workers is to control and direct into the proper channels the stream of immigration which is pouring into the country. Here there is no such influx of people, and we would have to create conditions which would bring colonists to this province. A club such as proposed would develop that esprit de corps which is now lacking, and would arouse in all citizens an enthusiastic desire to further the interests of St. John. The general plan is a good one, though the direction which should be taken by an organization of the kind here would have to be carefully thought out. Mr. Fisher would suggest that the figure be not placed too high. He would advise 60,000 or 75,000, and in his opinion the organization need not be taken up by any existing body, but rather by the citizens generally, and maintained as a separate institution. It would lead to a concerted movement looking towards immigration and the bringing here of new industries. It would have to be broad so as to cover the whole province, although working directly in St. John, for anything that affects one must affect the whole. Mr. Fisher expressed the hope that some interested citizens would look further into the matter, and see if the plan is advisable.

**SEVEN MEN STILL FACE DEATH;  
WATCHERS POWERLESS TO AID**

**Seas are Breaking Over the Wrecked Adeona and it is Impos-  
sible to Go to the Rescue of the Crew—Efforts Being  
Made to Secure a Lifeboat.**

RICHIBUCTO, N. B., Nov. 6.—The sea was still too rough this morning for boats to get to the wrecked bark Adeona. Another body was picked up on the beach last night making three so far recovered. Four hats and a number of life preservers have been washed ashore. The wind is blowing to the north and the wreck may be reached tonight. CHATHAM, N. B., Nov. 6.—Later despatches from Richibucto reveal a tale of hardship seldom equalled on the North Shore. Yesterday word was received at Chatham that the Norwegian barque Adeona had gone ashore at the mouth of the river at Richibucto and that seven men had been lost in attempting to reach shore. This morning it was learned that the barque was ashore Wednesday night and it was undoubtedly owing to the intense suffering from cold and sea that the men tried to reach the shore. There were seven men in the boat that was launched from Richibucto last night when it was overturned in the waves and the watchers on shore saw the occupants thrown into the sea, not a man reappeared on the surface but about sunset last evening two bodies drifted ashore and this morning a third was thrown up on the beach, frozen stiff. The crew of the Adeona consisted of 14 men and the other seven are still on the ship but if succor does not come soon they will be overcome by exposure. The sea is breaking over the ship and running so high on the shore that no boat can be launched to go to their aid. The people are endeavoring to procure a life boat and the authorities at Chatham have been appealed to for a life boat, but they state there is none nearer than St. John and efforts will be made to secure one from there. It was stated this morning that one of the bodies when washed ashore was still warm but the man who found it lost his head and became frightened, not doing anything to revive the ailing one. The ship is said to have first struck on a reef and after clearing this was driven upon the second one where she now lies. The vessel had been loaded with lumber by Jardine and Co. and was about ready to sail. The telegraph line with Richibucto is still broken, the wires being injured during yesterday's big blow. Considerable anxiety has been felt about the "Grey Loggie," which has several Chatham men in its crew, but word was received this morning that it has arrived at Summerside.

**THE BATTLE OF THE VOTES  
IS BEING FOUGHT TODAY**

**Campaign in New York and Boston is the Most Exciting in  
Years—Lack of Interest in Other States.**

WASHINGTON, Nov. 6.—"Get out the vote" is the command today from political generals throughout the country. Lack of interest in the election is being manifested in many sections. This condition necessitates hard work at the polls and the assurance of a favorable weather in the greater portion of the country is welcomed by all contending parties. Decided uncertainty as to the result of the balloting is the feature of the closing campaign news from nearly every quarter. This uncertainty was manifested in New York, Pennsylvania, Chicago and other sections by a vigorous continuance of the campaign until midnight last night. Messrs. Hughes and Hearst continued their terrific speaking records up to the last moment. Present Roosevelt telegraph his son-in-law, Representative Longworth, of Cincinnati, yesterday to have portions of his speech in Ohio. The President left the White House at midnight for Oyster Bay where he will vote and return to Washington, reaching here at 8:15 tonight. The number of Washington voters who have gone to their homes today is smaller than for a decade. The absence of railroad passes and the higher voting rate on the roads is given as a reason. New York voters resident in the District of Columbia, however, have shown a greater interest, and a large proportion have gone to their homes. Reports from "the solid south" indicate little interest and the necessity of stimulating the voting. In Montana the Socialist party makes confident claim of increasing their vote of six thousand last year, and both the Republicans and Democrats claim the state. The earthquake in San Francisco is said to have so redistributed the population that the state that old estimates cannot be relied on. Massachusetts kept the fight warm until the last minute and Boston was the midnight battleground between the Democrats and the Republicans and Democrats for Governor. In New York city and Chicago the ballots are ponderous, and with the prospect of many scratches a long delay in arriving at results is predicted. NEW YORK, Nov. 6.—A perfect autumn day, bright, cool and bracing, favored the voters of New York state for today's election. The exceptionally favorable conditions after the campaign of almost unprecedented activity seem to assure an unusually large vote. In this city the balloting started with a rush as soon as the polls were opened, and in many sections new records were made during the early hours.

**DELEGATES TO GO TO  
THE WEST INDIES.**

**St. John Board of Trade  
Asked to Join Halifax  
Trade Conditions.**

HALIFAX, N. S., Nov. 6.—Secretary Weldon, of the Board of Trade, is sending invitations today to the Montreal, Toronto and St. John Boards to join with the Halifax board in sending a delegation to the British West Indies to discuss trade matters with the boards there. The suggestion was thrown out by Sir Daniel Morris, the imperial commissioner of agriculture to the West Indies, when he addressed the Halifax board, some weeks ago. Pickford & Black will carry the delegates absolutely free. If the delegates should go on the Otenda, on Feb. 15th, they would be permitted to visit the islands and be back here by March 23rd. The places called at would be Bermuda, St. Kitts, Antigua, Dominica, Barbados, Trinidad and Demerara, on the outward passage, and St. Lucia on the homeward voyage.

**EIGHT YEAR OLD LAD  
IS A BURGLAR**

**Entered a North End Store  
and Robbed the Till.**

The grocery store of Thomas Brogan on Main street, was broken into last night and about ten dollars and a quantity of tobacco stolen. When Mr. Brogan opened his store this morning he missed the money and on making an investigation found that the window at the back of his store had been forced open. Besides taking the money from the till the intruder had tried to break into the safe and had used for this purpose a large butcher knife with which he had knocked off the knobs and forced the hinges of the safe. The knife was found on the floor broken in two. Mr. Brogan reported the robbery to the north end police station and Officer Greer immediately took hold of the case. From information which he received he went to St. Peter's school and arrested Charles Dingle, son of Howard Dingle, of Adelaide street. Young Dingle is only eight years old. On being questioned he confessed the robbery and took the officer to a field near the Shamrock grounds where about \$5 was found in a cigar box hidden in a hole in the ground. The rest of the money was found in an alley off Adelaide street. In the north end station this morning young Dingle explained that he had committed the robbery unaided and had intended to return the money today. Much credit is due Officer Greer for the prompt way in which he handled the case.

**KILLED BY FALLING INTO  
A BIN OF WHEAT**

**Two Workmen Went Through the Chute  
But One Was Dead.**

NEW YORK, Nov. 6.—Patrick Dolan, foreman of the grain handlers in the elevator of the William Baird company, fell into a pit containing three thousand bushels of grain yesterday. Dolan plunged this way and that, and with every step was firmer engulfed. He called for help and Petro Amasio, a fellow workman, went to his assistance. He threw a rope to Dolan which the latter seized so desperately that he drew Amasio into the pit. Other workmen, who had been to lunch, now heard the outcries but both men had disappeared when they reached the scene. A rush was made for the chutes, through which the grain is unloaded, and unfastening the covers, the men let the wheat run into the street. Soon Amasio's body shot down the chute and Dolan's followed. The latter was dead, having been smothered but Amasio was still alive and will recover.

**GASOLENE LAUNCH WITH  
FISHERMEN MISSING**

**Three Men in a Boat Went Out on a Trip  
on Saturday and Have Not  
Been Heard of.**

CHICAGO, Nov. 6.—Three fishermen, Louis Wright, William Thorton and a man whose name could not be learned, who left Michigan City, Ind., on Saturday in an open gasolene launch, are believed to have been drowned. They were on their way to Chicago giving the boat a test trip. They carried but little food, as they expected to make the trip in a short time. When they failed to reach here the life saving crews at South Chicago, Michigan City and St. Joseph, Mich., were notified. After an unsuccessful search, all hope of finding the missing fishermen was abandoned last night. It is now believed that the boat was swamped by heavy seas after the fuel had been exhausted.
