S. A. ARMY OFFICERS BACK FROM TORONTO

Rearrangement at Different Maritime Province Stations Goes into Effect Today—Many Changes

The local officers of the Salvation Army who were in attendance at the great gathering at Toronto, held in honor of the army's head, General Booth, arrived here yesterday. There were thousands of Salvationists and upwards of six hundred officers present at the Toronto meeting.

Tomorrow, the 21st instant, the following officers will take up work in the new stations assigned them: Campbellton, Ensign Pym and wife; Canine, Capt. Nestay and Lieut. West; Westville, Capt. Ebb and Lieut. Walford; Springhill, Adjutant Orchard; Truro, Capt. Cavander and Lieut. Smith; Fredericton, Capt. Porter; Woodstock, Ensign Martin and Capt. Porter; Bear River, Capt. Fraser and Lieut. Mercer; Bridgetown, Lieut. Clarke; Digby, Lieut. McEachern.

Brigadier Turner of the St. John force intends to leave shortly for Bermuda on a tour of inspection. The brigadier will sail from Halifax next week and will be absent for about a month's time.

BELFAST TO BUILD A MONSTER LINER.

BELFAST, March 19—Messrs. Harland and Wolff, of Belfast, have received an order for the construction of the largest twin-screw steamer in the world.

The new vessel is intended for the Hamburg-American Line, and in respect of accommodation and speed, it will, it is claimed, eclipse all transatlantic liners afloat.

One of the principal features will be a swimming bath, which was introduced for the first time on an Atlantic steamer, while the provision of a restaurant, which the company's steamer America, will be repeated in the new ship.

A new vessel will be named George Washington, as a compliment to the Americans, and she is to be ready next spring.

If she proves a success, Messrs. Harland and Wolff will proceed with the building of several other vessels of a similar design.

TELEPHONE TOO SLOW FOR MEN OF FUTURE.

LONDON, March 19—The following forecast of the telegraphic developments which will be in connection with commercial work is given in a prominent electrical journal.

The big business houses will have their private telegraph lines to the nearest postoffice.

A typewriter telegraph instrument being placed in the merchant's office a typist will type messages previously dictated, and these will be received on a special machine at the post office.

The dropping of an indicator will warn the operator that a message is waiting; it will be taken from the receiver and dispatched to its destination without delay.

If the message is an order to another merchant, it is signalled to his office, and going to the receiving instrument, will simply abstract it, and acknowledge it in similar way.

No fuss and worry. No waiting to get on the telephone, with the loss of time and temper. Everything done quietly, awaiting the approach of the millennium.

FORTUNE IN GEMS STOLEN FROM WINDOW.

LONDON, March 19—A young man, supposed to be an American, giving the name of William Henry Bruce, was remanded by the Brighton magistrates yesterday on a charge of stealing a tray of rings of the value of \$30,000 from the window of a jeweler's shop.

The theft was described by the chief constable, who stated that Bruce had stolen a tray of rings, a woman and a man. The woman entered the shop of Messrs. Lewis & Son first and engaged an assistant in conversation. Then a man entered and engaged the attention of another assistant.

Bruce followed, and was seen to take a tray of rings from the window and hurriedly leave the shop. He was followed by one of the assistants, and seen to enter a house nearby. A policeman was summoned and the man was arrested, forty-six of the forty-seven rings on the tray being recovered.

The man and woman who entered the shop first have not been arrested.

FORGETS HER IDENTITY AND IS LOST IN TOWN.

LONDON, March 19—A young woman told a policeman who was on duty at Eton College yesterday that she had lost her way. She could not remember anything about herself. She was taken to Slough Workhouse, and there a bottle, containing a little medicine and bearing the label of a firm in Shephard's Bush, was found in her possession.

It was afterwards ascertained that she was Adelaide Gallimore, aged 18, of Haydon Park road, Shephard's Bush. The matron of the workhouse called the girl by her Christian name, and she then seemed to be awakened as if from a dream, and recognized her name. The matron then addressed her by her surname, and the girl said it was correct.

Mrs. Gallimore said yesterday that the girl suffers from paralysis of the brain, and often loses her memory and wanders from home.

EMIGRATE THE IRISH. W. H. Boyd Would Send Them to Canada in Shiploads.

LONDON, March 19—Giving evidence before the congested districts commission, W. H. Boyd, representing the Irish Landowners' Convention, said the Irish peasant was too lazy to work, and had become ignorant of agriculture. He would emigrate these people in shiploads and place them in districts in Canada where hard labor would be procured for them. It might be that they would require several years' tuition in agriculture before they would be able to cultivate the land, but his opinion certainly was that emigration was better for Ireland than migration.

Of a deeply religious character, he took up the work of an evangelist, after retiring from active business some years ago, taking an earnest and devoted interest in the spiritual welfare of his fellow men.
